INTRODUCTION

GET READY for the next level!

Player's Handbook 2 is the most significant expansion yet to the 4th Edition DUNGEONS & DRAGONS® game. The *Player's Handbook®* presents eight races and eight classes. This book introduces five more races and eight more classes, including a mix of all-new material and some old favorites, along with a wealth of new options for any character.

Chapter 1 presents five additional races. The gnome and the shifter make the journey from the *Monster Manual®* to this book. The goliath (introduced in 2004's *Races of Stone*) and the half-orc return to the D&D® game in updated form. Devas are a new race of reincarnated immortal spirits striving for the perfection of their souls. This chapter also includes racial paragon paths for the races in this book as well as ones in the *Player's Handbook*.

Chapter 2 is the heart of the book, with eight new classes. Longtime D&D players will recognize some of these classes from past editions, but you've never seen them presented like this before. The arcane classes expand to include the bard and the sorcerer. The invoker and the avenger join the roster of divine classes. The primal power source makes its debut with classes of all four roles: the barbarian, the druid, the shaman, and the warden. The chapter ends with six new epic destinies.

Chapter 3 introduces the concept of backgrounds, a new game element you can use to customize your character and help expand his or her personality and history. If you're using the FORGOTTEN REALMS Player's Guide, you're familiar with the idea of choosing a home region for your character and gaining a benefit from that origin. The backgrounds in this chapter offer you dozens of ideas for expanding your character's story, and a choice of related benefits. This chapter also includes new feats, equipment, and magic items, including armor, weapons, and implements designed for use with the new classes in this book. The chapter ends with a group of new rituals.

At the end of the book is an important appendix of rule updates. It contains an updated explanation of how to read a power description, including new rules that apply to many of the powers in this

book—in particular, rules about keywords such as beast form, spirit, and summoning. The appendix also contains the new version of the Stealth skill as well as updates to rules related to that skill in the *Player's Handbook*.

The D&D game is constantly evolving. *Player's Handbook 2* is the second book in a series that will continue adding new options for your characters for years to come. But the game changes in smaller ways as well, and the best way to keep up with those changes is to visit the Wizards of the Coast website.

YOUR PART IN THE STORY

One of the Dungeon Master's jobs is to be a narrator—to describe what's going on in the world of the game as you explore it along with your fellow adventurers. When your party enters a room, the DM tells you what it looks like and what's in it. However, narration isn't exclusively the DM's job: You describe your own character's actions, and even during an intense combat encounter, you have a chance to take part in telling the story of the game.

The flavor text included in every power description is a starting point you can use when narrating your part in the action. When your barbarian attacks, you can just say, "Krusk uses howling strike. I get a 24." Or using the flavor text as a cue, you can say, "With a blood-freezing scream, I throw myself into the fray! Does a 24 hit?"

A power's flavor text is only a starting point. You can modify that flavor however you like, as long as you don't change the power's game effects. Maybe you would rather think of the barbarian power *macetail's rage* as channeling the World Serpent, a primal spirit that appears in some shaman powers. You might say, "The earth shakes beneath my feet as the World Serpent stirs, knocking my foe to the ground!"

Choosing a background for your character can also be a great opportunity to take part in shaping the story of the game. After you've looked at the "Backgrounds" section of Chapter 3, talk with your DM about the background elements you want for your character.

The D&D game is all about telling an adventure story. If you take a more active part in telling your character's part of the story, everyone has more fun.

THE PRIMAL POWER SOURCE

Four of the classes introduced in this book—the barbarian, the druid, the shaman, and the warden—use the primal power source. Some primal powers are more overtly magical than others, but they all draw on the spirits of nature that pervade the world and, to some extent, the echo plane known as the Feywild.

According to legend, when the gods made war against the primordials at the dawn of time, the battles raged across the cosmos for uncounted centuries. The gods slowly gained the upper hand, successfully imprisoning or banishing many of the primordials. However, this war threatened the very existence of the world, as the primordials who brought it forth from the Elemental Chaos clashed with the gods who sought to fix the form of the world in permanence. In the last days of the war, a new force made itself known in the cosmos: the spiritual expression of the world itself. These primal spirits declared an end to the conflict, asserting that the world would no longer be a battleground for the two opposing forces. The gods and the primordials were banished to their home planes, and the primal spirits of the world decreed a balance: The world would remain a place where matter and spirit mingled freely, where life and death proceeded in an orderly cycle, where the seasons changed in their unending wheel without interference. The gods and the primordials could still influence the world, but they could not rule it.

These primal spirits are beyond number, ranging from spirits too weak to have proper names to the mightiest incarnations of nature's power: the Primal Beast, the Fate Weaver, the Great Bear, the World Serpent, and others. They are spirits of winds and weather, of predators and prey, of plains and forests, of mountains and swamps. As the people of the world have come to know these primal spirits and live in harmony with them, some mortal spirits have joined their number after death, just as some mortal souls pass to the dominions of their gods. These great ancestors are among the most potent of the primal spirits.

Characters who use the primal power source stand firmly rooted in the world, between the divine power of the Astral Sea and the primordial churning of the Elemental Chaos. They have some affinity with the native inhabitants of the Feywild, who share their love and respect for the natural world. They are staunch enemies of aberrant creatures whose very existence is a blight on the natural world, as well as of demons that seek to destroy it, undead that violate life's natural cycle, and (to a lesser extent) those

who seek to despoil the wilderness in the name of progress and civilization.

That doesn't mean that a primal character must be a sworn enemy of the gods, or of a character such as a paladin of Erathis who seeks to settle and civilize the world. There might be some conflict and disagreement between such characters, but they also have many common foes. A primal character's greatest concern is with creatures and forces that threaten the stability of the world and the balanced cycles of nature. In a broad view, the cities and civilizations of humans and other races are just as much a part of nature as are primeval forests and mountains, and just as worthy of protection.

Many primal characters do hold the gods in great respect. Without the gods' intervention, the primordials would have left the world in an ever-changing state not much different from the Elemental Chaos, hostile to natural life. In general, even evil gods would rather rule the world than destroy it.

For that reason, characters who wield primal power sometimes worship gods as well. As god of the wilderness, Melora is sometimes seen as an ally of the primal spirits. Kord is occasionally called the lord of the storm spirits, and both Corellon and Sehanine have ties to the Feywild that make them friendly with nature spirits.

Primal powers are called evocations, because primal characters evoke primal spirits to make attacks and effects in the world. Some characters channel primal spirits through their bodies in order to transform themselves and thereby make their physical attacks more formidable. Barbarians invite primal spirits to take residence in their bodies, entering a trancelike rage in which a spirit's ferocity overwhelms the barbarian's own reason. Wardens draw on the primal spirits of earth, trees, and beasts to transform their bodies, giving them strength to stand against their enemies. Druids call on the Primal Beast to transform their bodies into animal forms, taking on different aspects of the Primal Beast's nature.

Other characters evoke primal spirits to create external effects. Shamans use spirit companions as their primary link to the spirit world. A spirit companion might attack an enemy, or a shaman might conjure another spirit to create an effect—and afterward, the spirit's power lingers in the shaman's spirit companion. Druids, too, can evoke primal spirits to create terrain effects, buffet foes with thunder and wind, or create bursts of fire.

CHARACTER RACES

THE EIGHT races described in the *Player's Handbook* are the most common heroic races in the world of the DUNGEONS & DRAGONS game, but they are by no means the only ones. This chapter introduces five new races, from the humble gnome to the exalted deva.

Two of these races—the gnome and the shifter—appear in the *Monster Manual*, but here they're fleshed out and presented with an eye toward their use as player characters. (The information in this book supersedes what's in the *Monster Manual*.) The other races—the deva, the goliath, and the half-orc—are new additions to the game and the world.

This chapter also includes racial paragon paths for the races in this book as well as ones in the *Player's Handbook*.

The races in this chapter follow the same format as the ones in the *Player's Handbook*. When you create a character, you can choose one of these races instead of one of those.

Devas are noble, virtuous beings who strive to perfect themselves through an apparently endless sequence of reincarnations. Once immortal spirits who served the gods of good, devas are now bound in flesh, the better to wage war against the forces of evil in the world and beyond.

Gnomes are small and stealthy fey who value a quick mind and the ability to escape notice. Gnomes are drawn to illusion and trickery. They explore the world with a sense of curiosity and wonder.

Goliaths dwell high in mountainous regions, traveling with the migrations of elk and other game. They view life as a grand competition and call on primal power to enhance their considerable physical strength and endurance.

Half-orcs combine the best qualities of humans and orcs and are strong, fierce, decisive, and resourceful. They savor the simple pleasures of life, from feasting and revelry to the thrill of battle.

Shifters carry a touch of lycanthropic blood in their veins. In the heat of battle, they tap into the power of the beast within, unleashing the savagery that lurks beneath their surface. They are predators by nature, defining the world in terms of hunter and prey.

Deep in the recesses of memory, devas recall what they once were: immortal servitors of the gods of good, spirits who chose to bind themselves to the world in mortal flesh. For millennia, their souls have been reborn to wage an endless war against the forces of darkness. Most devas are fiercely committed to the cause of good, because they fear what they might become if they turn to evil: A deva whose soul becomes corrupted risks being reborn as a rakshasa.

Play a deva if you want . . .

- ◆ to have dimly remembered connections to a thousand heroic lifetimes.
- ◆ to embrace the cause of good and strive for perfection in all you do.
- ◆ to be a member of a race that favors the avenger, cleric, invoker, and wizard classes.

PHYSICAL QUALITIES

In appearance, devas are very similar to humans, but with an unearthly beauty and an uncanny stillness about them. They are almost as tall as dragonborn, but much more slender.

Devas' coloration distinguishes them most strongly from humans. All devas have patterns of light and dark colors on their skin. The light portions are chalk white or pale gray, and the dark areas range from blue or purple to dark gray or black. In any individual deva, either light or dark can be dominant, with the opposite shade appearing in simple, elegant patterns on the face, chest, and shoulders. A deva's hair is typically the same color as these skin patterns.

When sitting or standing at rest, devas remain almost perfectly still, except for the occasional blink of the eyes. They don't fidget or twitch, and their eyes move only when they are actively examining something.

Devas do not have children. When a deva dies, his or her spirit is reincarnated in a new, adult body that appears in some sacred place, such as a mountain peak, a riverbank, or a desert oasis. The new deva retains enough memory of past lives to speak and understand multiple languages and offer the proper prayers and sacrifices to the gods of good.

PLAYING A DEVA

Devas are refined and polite. They follow the highest moral standards, but they are not afraid of violence. They believe that the pursuit of good is an eternal war with the forces of evil, embodied in rakshasas, demons, devils, and the evil gods and their servant angels. Devas wage that war in their hearts as well, constantly vigilant lest evil take root and corrupt their souls, transforming them into the creatures they most despise.

Because they remember, at least dimly, a life in the Astral Sea spent in close company with the gods, most devas are devout worshipers of the gods of good, especially Bahamut but also Moradin and Pelor. Devas seek to achieve a personal connection with the gods rather than approach them through temples and priests. They worship at meals in their homes, setting an empty place for the absent gods, and strive through meditation and prayer to become more like the gods they serve. Deva adventurers are commonly avengers, clerics, and invokers, who savor the experience of divine power flowing through them without any intermediary.

Devas do not have cities or societies of their own, and their numbers are so small that a deva can spend entire lifetimes without ever meeting another of his or her kind. They live among other races and, at least to some extent, adopt their ways. However, all devas remember elements of the life they had before their

incarnation in flesh and the beginning of their cycle of rebirth, and they share some common cultural elements of dress, religion, and habits. Devas favor flowing clothes of fine silks, polished metal armor with winglike shoulder ornaments, and headdresses or helmets that suggest crowns or halos. In other ways, they prefer to live simply, without extravagance.

Deva Characteristics: Dedicated, devout, elegant, enlightened, introspective, mystical, refined, righteous, spiritual, thoughtful

Male Names: Adiah, Ansis, Ayab, Bavak, Beriah, Eben, Elyas, Galad, Gamal, Hiyal, Iannes, Kerem, Maher, Marach, Mathas, Natan, Nehem, Oris, Raham, Ronen, Samel, Sered, Tavar, Vered, Zachar

DEVA ADVENTURERS

Three sample deva adventurers are described below.

Galad is a deva wizard who believes that the goal of his existence is to attain perfect knowledge of the universe. He believes that his arcane power is a manifestation of all he has learned throughout all his past lives, and that in this life or perhaps the next he will achieve perfect mastery and become a demigod, freed from the cycle of reincarnation.

Eranah is an invoker who wields the power of Bahamut. Just as Bahamut warred with Tiamat when the world was young, Eranah believes that her calling in this incarnation is to fight against the evil dragons and dragonspawn that pollute the world. Words of power resound in her mind like an echo of the Platinum Dragon's voice when she invokes his wrath upon her enemies.

Raham is a shaman who has embraced his life in the world, abandoning all thought of his previous astral existence. The primal spirits of the world are his patrons and allies, not the gods he left behind. He sees his endless rebirth as a part of the cycle of nature and has no desire to escape it.

In the Feywild, the best way for a small creature to survive is to be overlooked. While suffering in servitude to the fomorian tyrants of the Feydark, gnomes learned to hide, to mislead, and to deflect—and by these means, to survive. The same talents sustain them still, allowing them to prosper in a world filled with creatures much larger and far more dangerous than they are.

Play a gnome if you want . . .

- ◆ to be curious, funny, and tricky.
- ◆ to rely more on stealth and deception than on brute strength and intimidation.
- ◆ to be a member of a race that favors the bard, sorcerer, warlock, and wizard classes.

PHYSICAL QUALITIES

Gnomes are smaller even than halflings, rarely exceeding 4 feet in height. Apart from their size, they resemble elves or eladrin, with pointed ears and chiseled facial features such as high cheekbones and sharp jaws. They have a more wild look than eladrin do, though, particularly in the hair that sprouts from their heads in random directions. Some male gnomes sprout tufts of hair from their chins, but they otherwise lack body hair.

Gnome skin tone ranges from a ruddy tan through woody brown to rocky gray. Their hair can be virtually any color, from stark white to blond and various shades of brown to autumnal orange or green. Their eyes are glittering black orbs.

Gnomes are as long-lived as eladrin, living over 300 years, but they show more of the effects of age. A gnome over the age of 100 has gray or white hair and skin that shows the wrinkled and weathered lines of a century of laughter, but even the oldest gnome retains the strength and agility of youth.

PLAYING A GNOME

In quiet forests of the Feywild and remote woodlands in the world, gnomes live out of sight and mostly beneath the notice of larger races. Gnomes dwell in homes dug among the roots of trees, easily overlooked and cleverly concealed by camouflage and illusion. They are fond of the burrowing mammals that share their habitat, such as badgers, foxes, and rabbits, and have a sense of kinship with these small animals that share their forests.

Unobtrusiveness is a virtue among gnomes. They grow up on games of stealth and silence, in which the winner is the last to be discovered. An adult gnome who draws attention in a crowd is considered dangerously rude. Gnome folk heroes are not mighty warriors, but tricksters who slip out of captivity, play great pranks without being detected, or sneak past magical guardians. They deflect both aggression and attention with humor, and they guard their thoughts with friendly laughter.

Gnomes also value a quick mind and the ability to come up with a clever solution to any problem.

BEING SMALL

Small characters follow most of the same rules as Medium ones, with the following exceptions.

- ◆ You can't use two-handed weapons, such as great-swords and halberds.
- ◆ When you use a versatile weapon, such as a longsword, you must use it two-handed, but you don't deal additional damage for doing so.

They appreciate witty conversation, especially rapid-fire repartee. They are inventive and resourceful, although they have little interest in or aptitude for the kind of technology found in human cities. They have an innate talent for magic and a love of illusion, music, poetry, and story.

Eager to see what the world has to offer and willing to be awed by its wonders, gnomes greet the world with open curiosity. Gnomes who are drawn to adventure are most often driven by curiosity and wanderlust above any desire for wealth or glory.

Gnomes were once enslaved by the fomorian rulers of the Feydark, the subterranean caverns of the Feywild. They regard their former masters with more fear than hatred, and they feel some degree of sympathy for the fey that still toil under fomorian lashes—particularly the spriggans, which some say are corrupted gnomes. Gnomes are not fond of goblins or kobolds, but in typical gnome fashion, they avoid creatures they dislike rather than crusading against them. They are fond of eladrin and other friendly fey, and gnomes who travel the world have good relations with elves and halflings.

Gnome Characteristics: Affable, clever, crafty, curious, funny, guarded, inconspicuous, inventive, secretive, sly, tricky

Male Names: Alston, Alvyn, Brocc, Eldon, Frug, Kellen, Ku, Nim, Orryn, Pock, Sindri, Warryn, Wrenn

Female Names: Breena, Carlin, Donella, Ella, Lilli, Lorilla, Nissa, Nyx, Oda, Orla, Roswyn, Tana, Zanna

GNOME ADVENTURERS

Two sample gnome adventurers are described below.

Kellen is a gnome bard with a grim sense of humor and a ready blade. He was thrust unwillingly into an adventuring career when cyclopses raided his village and took him captive. He labored as a slave to a fomorian king for a decade before finally making his escape and fleeing the Feywild entirely. Though he longs to return one day to free the members of his family he was forced to leave behind, fear of what awaits him in the Feywild keeps him in the world.

Orla has lived in the world her entire life. She was born in a forest among elves, but an encounter in the forest one evening changed her life. She found herself face to face with a fey spirit of such power that she was unable to move or speak and could only acquiesce to its unspoken demands. Her life belongs to that spirit now, she knows. She wields its power as a fey pact warlock, but she feels its desires and pursues its goals without fully understanding where they might lead her.

Goliaths are mountain-dwelling nomads who see life as a grand competition. Their scattered bands have never been major players in the politics of the lowland world, but they have wandered the mountain ranges of the world since the primordials first shaped the peaks and valleys. Tall and massive, goliaths revere the primal power of nature and use it to enhance their own strength.

Play a goliath if you want . . .

- ◆ to be tougher and stronger than nearly anyone else.
- ◆ to master the rugged mountain slopes.
- ◆ to be a member of a race that favors the barbarian, fighter, and warden classes.

PHYSICAL QUALITIES

Goliaths tower over even dragonborn, standing between 7 and 8 feet tall. Their skin is gray or brown, mottled with darker patches that they believe hint at some aspect of each goliath's fate or destiny. Their skin is speckled with lithoderms, coin-sized growths of bone that appear like pebbles studding their arms, shoulders, torso, and head. A bony ridge juts over their gleaming blue or green eyes. Male goliaths are bald, and females have dark hair they typically grow long and wear in braids.

Goliaths have life spans comparable to those of humans.

PLAYING A GOLIATH

Goliaths are driven by a fierce love of competition. Anything that can be conceived as a challenge invites goliaths to keep score, tracking their progress against both their comrades and themselves. A goliath fighter might remark on how many times he has drawn first blood in battle within a particular dungeon compared to the party's rogue, and he's certainly mentally tracking his own performance against his last adventure. This competitiveness takes the form of good-natured rivalry among goliaths. As a race they have no patience for cheaters, gloaters, or sore losers, but goliaths can be very hard on themselves when they fail to measure up to their own past accomplishments.

Daring that borders on foolhardiness is also a common trait among goliaths. They have no fear of heights, climbing sheer mountain cliffs and leaping great chasms with ease. Their nomadic lifestyle of hunting and gathering instills in them an inquisitive interest in whatever lies over the next ridge or at the head of a canyon. To a wandering hunter's mind, that curiosity can lead to better hunting grounds or a good water source that would otherwise go undiscovered.

Goliaths respect and revere the natural world, and goliath adventurers commonly draw on the primal power source. Druids and shamans are more common among them than clerics, and goliath priests—called skywatchers—invoke the spirits of nature and their ancestors far more often than they call on the distant gods of the Astral Sea. Some goliath tribes also honor Kord, Melora, and Avandra, particularly those tribes that have frequent contact with other races. Tribes that regularly trade with dwarves sometimes offer sacrifices to Moradin as well.

Goliath Characteristics: Competitive, daring, driven, inquisitive, powerful, reliable, restless, trusting

Male Names: Aukan, Eglath, Gauthak, Ilikan, Kavaki, Keothi, Lo-Kag, Maveith, Meavoii, Thotham, Vimak

Female Names: Gae-Al, Kuori, Manneo, Nalla, Orilo, Paavu, Pethani, Thalai, Uthal, Vaunea

GOLIATH ADVENTURERS

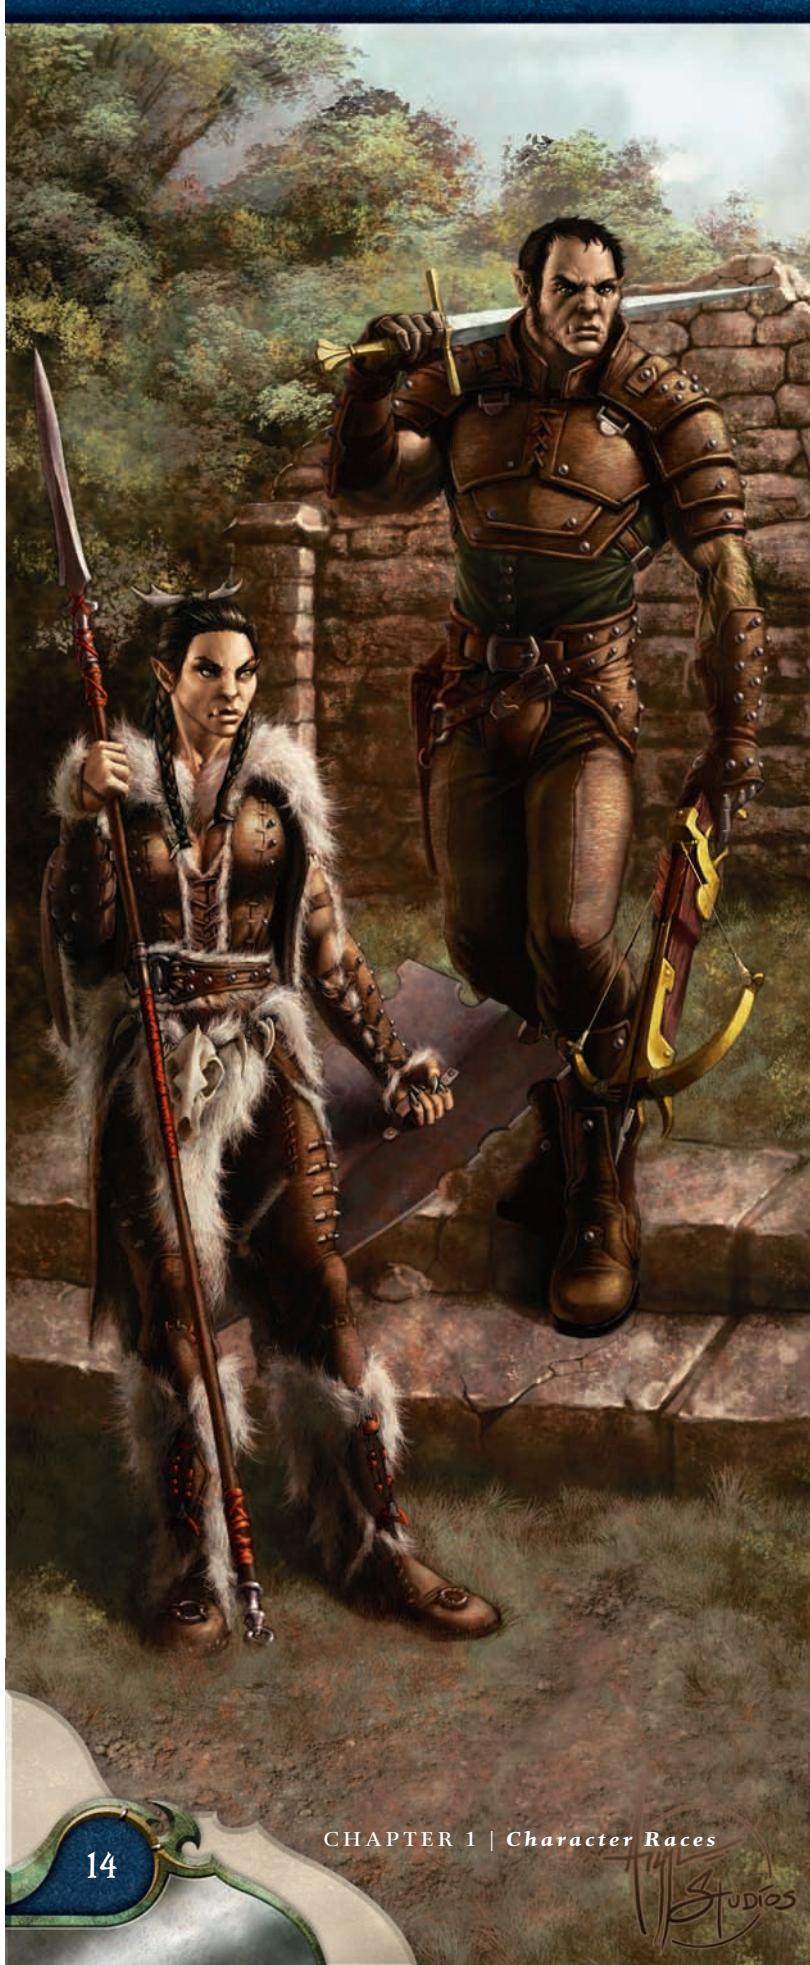

Three sample goliath adventurers are described below.

Kavaki was injured in an avalanche as a young man and exiled from his tribe because he was unable to walk with them when they moved to a new hunting ground. His tribe lamented his loss, celebrated his accomplishments, and then left him for dead. However, a ram spirit sheltered him through blizzards and storms until his injury healed, and he now evokes the power of that ram spirit to fuel his barbarian rage. Still cut off from his tribe, Kavaki has found a new family—a group of adventurers—and is determined never again to be in a position where he cannot carry his own weight.

Nalla was a tent-mother for her tribe, caring for infants and toddlers while their parents performed their own tasks on the tribe's behalf. When her own child died in an orc raid, however, Nalla felt that she could no longer bear to care for children, and she soon exiled herself. As a fighter, she has fallen in with a band of adventurers she now guards with her life, almost as if they were the children of her tribe.

Lo-Kag was a trader for his tribe, interacting regularly with a nearby dwarf clan. As a warden, he was interested in the traditions of the dwarven defenders—determined fighters and paladins sworn to the defense of their clanhold—and learned much from a mentor trained in their ways. On his last trip to the dwarf clanhold, however, he found it deserted. Corpses lay strewn around the citadel, but he saw no sign of violence or looting. Instead of returning to his tribe, Lo-Kag set out into the world to investigate the mystery of the dwarves' demise.

An obscure legend claims that when Corellon put out Gruumsh's eye in a primeval battle, part of the savage god's essence fell to earth, where it transformed a race of humans into fierce half-orcs. Another story suggests that an ancient hobgoblin empire created half-orcs to lead orc tribes on the empire's behalf. Yet another legend claims that a tribe of brutal human barbarians chose to breed with orcs to strengthen their bloodline. Some say that Kord created half-orcs, copying the best elements from the human and orc races to make a strong and fierce people after his own heart. If you ask a half-orc about his origin, you might hear one of these stories. You might also get a punch in the face for asking such a rude question.

Play a half-orc if you want . . .

- ◆ to be big, strong, and fast.
- ◆ to harness anger into resilience and combat power.
- ◆ to be a member of a race that favors the barbarian, fighter, ranger, and rogue classes.

PHYSICAL QUALITIES

Half-orcs favor their human lineage in appearance, but are distinguished by skin that tends to various shades of gray, broad jaws, and prominent lower canine teeth—though these are still a far cry from the jutting tusks of orcs. On average, they are taller and stronger than humans as well. Their hair is usually black, though it grays quickly with age. Most half-orcs who live among humans favor human styles of clothing and hairstyle, but a few adopt orc traditions, tying small bones or beads into long braids or bunches of hair.

Half-orcs don't live quite as long as humans do. They mature quickly, reaching adulthood at about 16 years, and rarely live past the age of 60.

PLAYING A HALF-ORC

Half-orcs combine the best qualities of humans and orcs, though some would argue that the good qualities of orcs are few and hard to find. From their orc blood, half-orcs inherit great physical strength and toughness. They are fierce warriors, fleet of foot as they charge into battle.

Their human blood makes half-orcs decisive and bold, resourceful and self-reliant. They are adaptable and able to make their way in almost any circumstance. Although half-orcs often live on the fringes of society in human towns and cities, they still find ways to prosper in a world to which they don't fully belong.

For all their good qualities, many half-orcs exhibit characteristics that polite society finds uncouth or undesirable. Half-orcs have little patience for complicated rules of etiquette or procedure and find little value in hiding their true opinions in order to spare someone's feelings. They enjoy the simple pleasures of food and drink, boasting, singing, wrestling, drumming, and dancing, and they don't find much satisfaction in more refined or sophisticated arts. They're prone to act without much deliberation, preferring to overcome obstacles as they arise rather than consider every possible outcome and make contingency plans. These qualities lead some members of other races to consider them rude or crass, but others find their brashness refreshing.

Half-orcs generally live among either human or orc cultures—some in bustling human towns or cities, others among remote human or orc tribes. Most half-orcs have two half-orc parents, but sometimes half-orcs marry and have half-orc children with humans or orcs. Orcs show grudging respect to half-orcs for their considerable strength and for their cunning intelligence, which sometimes allows half-orcs to rise to leadership positions in orc tribes.

Although possessed of many strengths, half-orcs frequently encounter prejudice in human communities. Thus, most half-orcs gravitate to careers

involving physical labor or violence. For some, the life of an adventurer is either a natural extension of that trend or a way to throw off the weight of prejudice. The adventuring life also means finding a place in a group of allies and equals—a simple pleasure that is all too hard for many half-orcs to find in the world.

Half-Orc Characteristics: Brash, ferocious, hedonistic, impulsive, short-tempered, tough, uninhibited

Male Names: Brug, Dorn, Druuk, Gnarsh, Grumbar, Hogar, Karash, Korgul, Krusk, Lubash, Mord, Ohr, Rendar, Sark, Scrag, Tanglar, Tarak, Thar, Ugarth, Yurk

Female Names: Augh, Bree, Ekk, Gaaki, Grai, Grigri, Gynk, Huru, Lagazi, Murook, Nogu, Ootah, Puyet, Tawar, Tomph, Ubada, Vanchu

HALF-ORC ADVENTURERS

Three sample half-orc adventurers are described below.

Tarak, a half-orc rogue, is at home in the city. He grew up in the rough-and-tumble wharf quarter and ran with street gangs and rough sailors. Everything changed when a sailor dropped dead at his feet, leaving a mysterious box in Tarak's possession. The box brought chaos into his life until he fled the city and fell in with some adventurers on the road. Tarak doesn't know what's in the box—its strange lock has defeated every attempt to open it, and its hard metal sides resist breaking. But goblins and doppelgangers have proven themselves willing to kill to get the box for themselves, piquing Tarak's interest.

Murook is a warden, born and raised among an orc tribe. She was a staunch defender of her tribe for years, but her ties to the primal spirits of wood and stone slowly coaxed her away from the worship of Gruumsh and led her to question the brutality the orcs performed in his name. She made her way to human lands and has struggled to fit in, trying to leave behind the barbarian ways of her tribe and adopt at least a veneer of civilization, but she is still far more comfortable among the trees and mountains than confined in a city or village.

Dorn is a half-orc ranger who prefers not to talk about his birth and his family. He spent most of his life in a hut at the outskirts of a farming village, hunting and trapping in the surrounding forest, keeping to himself and asking only to be left alone. His life turned upside down on his thirtieth birthday, when a group of adventurers stopped in the village looking for directions to an ancient ruin. The villagers steered the adventurers to Dorn, who agreed to guide them through the forest. He never returned home, because that first adventure led him into many more.

Shifters are fierce hunters strongly influenced by their animal nature. Though they can't fully change shape as their lycanthrope ancestors can, shifters do become more bestial during the heat of battle, calling on the primal power of the beast within.

Play a shifter if you want . . .

- ◆ to tap into bestial strength or speed in battle.
- ◆ to be a character in tune with your primal savage nature.
- ◆ to be a member of a race that favors the druid, fighter, ranger, and warden classes.

PHYSICAL QUALITIES

In broad strokes, shifters resemble humans with animalistic features. Their bodies are lithe and strong, and they often move in a crouched posture, springing and leaping along the ground. Their faces have a bestial cast, with wide, flat noses, large eyes and heavy eyebrows, pointed ears, and long sideburns. The hair of their heads is thick and worn long. Shifter skin and hair are usually some shade of brown.

Longtooth shifters claim werewolves as ancestors and have a vaguely canine cast to their features that becomes much more pronounced when they use their *longtooth shifting* power. Razorclaw shifters are descended from weretigers and are more catlike, particularly when using *razorclaw shifting*.

Shifters live about as long as humans.

PLAYING A SHIFTER

Shifters are strongly influenced by their animal natures. They think and act like predators, conceiving of most activities in terms of hunting and prey.

Longtooth shifters are drawn to a pack of companions, whether that's a family group or an adventuring party. They work well as part of a team in combat, coordinating their attacks with their allies and coming to the aid of beleaguered friends. They're drawn to the leader and defender roles, and they make excellent clerics, fighters, paladins, and wardens.

Razorclaw shifters are more independent, self-reliant, and adaptable. They're no less devoted to their adventuring companions, but they trust their allies to take care of themselves, and they strive to carry their own weight in the group. They're more inclined to be strikers or controllers, and they favor classes such as avenger, druid, ranger, and rogue.

Historically, most shifters dwelled in nomadic bands in plains and forests far removed from cities and towns. Since the fall of Nerath, however, the increasing dangers of the wilds have driven many shifters into closer proximity to human and elf communities. Some shifters have adapted smoothly to this change, carving niches for themselves as trappers, hunters, fishers, trackers, guides, or military scouts. Others have a much harder time fitting in. Shifters who feel alienated from the plains and forests they love sometimes take up the adventuring life as a way of escaping the confines of city walls and returning to nature. Some shifters, though, turn to a life of crime, preying on the residents of their new homes like the hunters they are.

Shifter Characteristics: Active, alert, fierce, free-spirited, intuitive, perceptive, predatory, self-reliant, unrestrained, wild

Male Names: Ash, Brook, Claw, Cliff, Flint, Frost, River, Rock, Storm, Thorn, Tor

Female Names: Aurora, Autumn, Dawn, Hazel, Iris, Lily, Rain, Rose, Summer

SHIFTER ADVENTURERS

Three sample shifter adventurers are described below.

Ash is a proud longtooth cleric devoted to Melora. His clan moved from the open plains into a nearby city shortly after the fall of Nerath, and most of them have adjusted smoothly to an urbanized life. Even during his childhood, though, Ash felt a calling to the wild places of the world, and he ventured far from the city on his wanderings. As a personal rite of passage when he turned 18, he traveled ten days from the city into the wilds and stayed there for ten more days, spending his time hunting, gathering food, and praying to the god of the wilderness. He had planned to return after those ten days but decided that Melora had a different plan in mind. He avoids cities and towns now unless he has no choice, spending his time wandering the wilds, exploring ancient ruins, and fighting the monsters that make the wilderness unsafe.

Summer is a razorclaw druid whose tribe still wanders a pristine forest far from any human cities. She was her tribe's moonspeaker, a religious leader who traveled among the different clans of her tribe. In the summer of one year, she went to visit the northernmost clan and never found them. She traveled farther and farther afield until she found a hobgoblin city. While sneaking into the city, she discovered that the surviving members of the clan were now slaves of the hobgoblins. She plans to return to that city one day to free her people, but in the meantime she is very interested in the power she has gained through adventuring.

Storm is a razorclaw avenger dedicated to the Raven Queen. He knows no tribe except the remote monastery where he was raised and trained. For many years, he never knew another shifter, and he believed himself to be a human who was specially blessed for the work of the Raven Queen—endowed with speed, stealth, and strength to make him more perfect in her service. On reaching adulthood, he left the monastery and ventured into the world on his first major undertaking for his order. There he discovered others of his race and has begun to question fundamental assumptions of his identity. Disillusioned about his god's work, he has taken up with a group of adventurers while he sorts out his place in a world that is much different from anything he previously imagined.

RACIAL PARAGON PATHS

Most paragon paths are specific to particular classes. This section presents racial paragon paths, which are specific to races included in this book and in the *Player's Handbook*. The only prerequisite for any of these paths is that you be a character of the appropriate race. Only a dwarf can be a firstborn of Moradin, for example, and you must be a half-orc to take the bloodfury savage path. A racial paragon path is an exemplar of a race's defining characteristics. A scion of Arkhosia is not just any dragonborn hero: He or she is one of the finest examples of certain qualities that set dragonborn apart from other races.

Exemplars of the half-elf race do not pursue a paragon path; instead, they take the Versatile Master feat in Chapter 3.

ADROIT EXPLORER

"Turn back? Now? But we don't know what's on the next floor!"

Your will only grows stronger when your back is against the wall, and you fight all the harder, making sure you win the day.

Whether you are motivated by a thirst for knowledge of the world's most ancient civilizations, a hunger for long-lost secrets of arcane power, a drive to conquer and settle the world in the name of Erathis, or a lust for gold and glory, you're willing to face great danger to achieve your goals. Thanks to your single-minded dedication, you usually manage to escape from danger in one piece, even if you survive only by the skin of your teeth.

"It looks as if you spent a lifetime learning that technique. I humbly counter—with a technique that took a dozen lifetimes to master."

Prerequisite: Deva

All devas have at least a tenuous connection to their past lives, and they see themselves as spiritual descendants of their previous incarnations. For you, the connection to your past lives is more tangible. As an ancestral incarnate, you can call forth your own spirit as it existed years or centuries ago to advise you, protect you, and confound your enemies. Those who have the temerity to face you in battle learn that they aren't fighting just the present-day incarnation of you, but also every incarnation of you that has ever been.

Only battle can feed the hunger in your soul, for you were born to the bloodfury.

FEY BEGUILER

"Now you see me—but not for long!"

Prerequisite: Gnome

The gnome race has learned to survive in a dangerous world by remaining unnoticed, staying out of sight and wielding magic to become invisible. As a fey beguiler, you take that a step farther, using magic to cloud and confuse your enemies' minds while you perfect your own talents for stealth and secrecy.

As you progress along the path of the fey beguiler, you learn an array of methods to move around unseen while bedeviling your foes. You can turn invisible, blast your foe with a globe of fey light and dash away unseen, or dumbfound an opponent, leaving it vulnerable to your allies' attacks. To supplement the powers of your path and your class, you also learn skills and utility powers typically available to rogues and wizards, either magical or mundane tricks to enhance your stealth, movement, or other

capabilities. The key to your success is to escape notice, and you have an arsenal of techniques to do just that.

You can be sly and sneaky, moving quietly and skulking through the shadows. Subtlety is a valuable tool, and secrecy can save your life. But sometimes a forthright attack on an enemy's mind is just the right tool for the job.

Miss: Half damage, and the target grants combat advantage until the end of its next turn.

Effect: You regain the use of your *fade away* racial power if you have already used it during this encounter.

Special: When you gain this power, choose Intelligence or Charisma as the ability you use when making attack rolls and damage rolls with this power.

FIRSTBORN OF MORADIN

"My strength is the eternal endurance of the mountains. I will not break."

Prerequisite: Dwarf

At the dawn of creation, dwarven myths say, Moradin made the race of dwarves. His firstborn had bones cut from bedrock, souls wrought from iron, and hearts carved of gleaming diamonds. These firstborn were the models after which all other dwarves were patterned.

Although the firstborn of Moradin's making vanished in servitude to the giants, their fighting techniques and mystical traditions have not been lost. A new era of dwarven heroism has arrived, and the legacy of the firstborn continues. Those few who most skillfully follow the paths of the ancient firstborn are slowly transformed into the image of Moradin's firstborn.

As one of the present-day firstborn of Moradin, you forge a deep connection with the earth, tapping into the power that courses through the bedrock beneath your feet. You draw on the strength of the mountains to resist injury, expand your senses through rock and stone, and root yourself in the bones of the earth. You are the stuff new legends are made of.

FIRSTBORN OF MORADIN

PATH FEATURES

Stonebones (11th level): Whenever you take a critical hit, roll a d20. If you roll 10 or higher, the critical hit turns into a normal hit.

Dwarven Resurgence (16th level): When you use your second wind, you make a saving throw against each effect on you that a save can end.

HALFLING SCOUNDREL

"The bigger they are, the easier they topple."

Prerequisite: Halfling

The greatest heroes of halfling legend are those who defeat giants, dragons, or other oversized threats to their homes and communities, using their wits, their agility, and a hefty dose of audacity. These heroes aren't necessarily armored warriors wielding legendary swords, and they don't have lands or noble titles. They are ordinary folk who rise to the challenge of the times, proving that size and strength aren't needed to come out on top. You're one of these heroes.

Like most halflings, you have found that the best way to get by in a world full of much larger creatures is to stay out of their way. Doing that might mean keeping out of their sight or staying on their good side. It might also mean keeping out of their reach, or dodging their attacks. Stealth and trickery might not be weapons and armor by themselves, but they are a useful supplement to the finest steel. Coupled with your natural daring and determination, these strengths are enough to bring you victory against any foe, no matter how large.

Compared to the legendary heroes of other races, you might come across as a scamp or a scoundrel. But the fact that you're crafty, resourceful, and sometimes sneaky doesn't make you any less of a hero. Avandra has blessed you with courage beyond question, ingenuity sufficient for any challenge, and the stealth you need to survive.

HALFLING SCOUNDREL PATH FEATURES

Fearless Scoundrel (11th level): Whenever you are affected by a fear effect that a save can end, you can make a saving throw against the effect at the start of your turn. If you don't save, you can make another saving throw against the effect at the end of your turn.

STEVE ELLIS

Special: When you gain this power, choose Dexterity or Charisma as the ability you use when making attack rolls and damage rolls with this power.

Moonstalker

"I can see my destiny in the face of the moon, and I call to it in greeting."

Prerequisite: Shifter

Shifters harbor a bestial nature inside themselves. When a shifter is under duress, this nature reveals itself in his or her features and prowess. This innate savagery is the gift of shifters' lycanthrope ancestors, the quality passed down through the generations that gives the shifter race its identity. Most shifters can call on their legacy when needed, but you enjoy a closer kinship to your lycanthrope forebears.

You take the name moonstalker for the strong lycanthropic heritage you have awakened in your spirit. You have always had an animalistic side, manifested in your physical features and sometimes through your behavior, but at some point you learned that you were different, and that the gift from your ancestors was greater than you could have believed. You are still able to shift your form, physically expressing shifter traits, but you can take that power a step farther and use your bestial nature to fully transform into a wolf or a tiger. This ability accompanies a host of other changes, and your tactics and behavior leave behind civilized methods for those of an untamed predator.

Moonstalker Path Features

Hunter Action (11th level): When you spend an action point to make an attack, you can shift a number of squares equal to your Wisdom modifier as a free action before or after the attack.

Go for the Throat (11th level): When you hit a prone target with a melee attack, the attack deals 1d6 extra damage. The extra damage increases to 2d6 at 21st level.

In this form, you add your Wisdom modifier to your speed. In addition, whenever you walk as a move action, you can shift 1 square as a free action before doing so.

You stalk around your enemy, searching for an opening to make a killing blow.

SCION OF ARKHOSIA

"By the blood of Io, you will fall!"

Prerequisite: Dragonborn

Scions of Arkhosia are the descendants of the noble dragonborn heroes of the fallen empire of Arkhosia. In the years since that empire fell, its heirs have scattered across the world, their lineage and heritage confused or lost in the darkness of the present age. Most dragonborn spend their lives unaware of what sort of potential lies within them, but a few manage to awaken and master their hidden reserves of power.

You are one of these scions, and you have begun the long and arduous process of unlocking the power of your noble blood. Your ancestry places you closer to your dragon kin than other dragonborn are. As a result, you gain a greater mastery over your *dragon breath*, able to alter its substance at will.

The clearest sign of your noble heritage, though, is the draconic wings that begin to form on your back as soon as you adopt this paragon path. They take some time to grow strong and large enough to sustain short bursts of flight, but they mark you unmistakably as what you are: a hero of your people reborn.

SCION OF ARKHOSIA PATH FEATURES

Versatile Breath (11th level): Whenever you attack with your *dragon breath* racial power, choose one of the following damage types: acid, cold, fire, lightning, or poison. The attack's damage is also that type.

Draconic Outburst (11th level): When you spend an action point to make an attack, each enemy adjacent to you takes damage equal to $5 + \text{your Constitution modifier}$ when you resolve the attack. This damage is the same type you initially chose for your *dragon breath* racial power.

SHIERE KNIGHT

"By the court of the Summer Queen, you shall pay for your transgressions!"

Prerequisite: Eladrin

Most noble eladrin, including bralani and ghaeles such as those described in the *Monster Manual*, are prominent figures in their houses, lords and ladies who have positions of authority over the lesser members of their houses. A few eladrin heroes, however, champion the cause of their race as a whole, rather than of any particular house. Though they are often anointed by house nobles, these shiere knights are free agents, beholden to no particular house and dedicated to protecting the eladrin from fomorians, spriggans, and other hostile denizens of the Feywild.

Becoming a shiere knight involves more than attaining a title. As a champion of your race, you become a living embodiment of the power of the Feywild. Your appearance is marked by a sign of the fey power within you: a faint glow that outlines your frame and burns in your eyes, an eldritch wind that constantly stirs the air around you, or some other manifestation of your otherworldly nature. You can channel this power to beguile your foes or drive them off in fear.

SHIERE KNIGHT PATH FEATURES

Blessed of the Fey (11th level): Whenever you are affected by a charm effect that a save can end, you can make a saving throw against the effect at the start of your turn. If you don't save, you can make another saving throw against the effect at the end of your turn.

STONEBLESSED

"There are secrets in the peaks, mysteries I have unraveled and embraced."

Prerequisite: Goliath

There can be no understating the kinship that goliaths share with their mountain homes. Like the mountains, goliaths stand tall despite the hardship of life amid the wind, snow, and ice of the highest crags. Most goliaths are proud merely to draw strength from their upbringing amid the towering peaks, but a rare few come to embody the spirit of the mountains.

You are such a hero, a stoneblessed goliath who has an uncommon connection to stone and earth. Rock beneath your feet emboldens you, and the elements nourish you, until you become the personification of your homeland's peaks. As a stoneblessed, you draw power from the stone itself, allowing you to transcend the bounds of your mortal form and achieve astonishing acts of strength. Your attacks strike with the weight of the mountain behind them. When you reach the pinnacle of this path, you can transform yourself into an entity of stone, crushing those who stand against you.

MICHAEL BIEREK

When you take the first step on this path, your features and form begin a slow transformation, revealing the depth of your mountain connection. Your skin gains the texture of sandstone, thickening to protect you from harm. Your eyes lose their moisture until they eventually shine like diamonds, reflecting light in a rainbow. The lithoderms that stud your shoulders and elbows transform into crystalline growths. Among goliaths, these features mark you as a true champion, a chosen hero of your kind.

STONEBLESSED PATH FEATURES

Stonehide Action (11th level): When you spend an action point to take an extra action, you also gain a +2 bonus to AC until the end of your next turn.

TURATHI Highborn

"The error of my ancestors was in dealing with evil powers they couldn't control."

Prerequisite: Tiefling

The sins of Bael Turath lie exposed in the sinister appearance of its tiefling descendants. Each pair of horns, every sinewy tail, and every set of glowing red eyes reminds the world of the perils of dealing with devils and the evils that result from such fell bargains. Many tieflings rise above the darkness clouding their souls, but a few find it far harder to divorce themselves from their sinister heritage, largely because of their familial connections to those first tieflings who forged pacts with Asmodeus and other archdevils of the Nine Hells.

As a Turathi highborn, you bear a heavier burden than your kin, for it was your ancestors who damned the tiefling race. For better or worse, you retain a stronger connection to the Nine Hells than most of your race. You loose bursts of hellfire on your enemies when enraged, and infernal power under-girds your other talents. Drawing on the lore of Bael Turath's ancient nobility, you can unhinge the minds of your foes or make them your slaves—even as you engulf them in hellfire.

TURATHI Highborn Path Features

Turathi Frenzy (11th level): You gain a bonus to damage rolls against bloodied enemies equal to 1 + your Charisma modifier.

Hellfire Action (11th level): When you spend an action point to make an attack, that attack deals 2d6 extra fire damage on a hit.

Special: When you gain this power, choose Charisma, Constitution, or Intelligence as the ability you use when making attack rolls with this power.

TWILIGHT GUARDIAN

"Despoiler! Feel nature's wrath!"

Prerequisite: Elf

Among the elves, a rare few embrace the splendor of the natural world and draw power from its bountiful life in ways that others cannot begin to understand. Such elves champion nature in all its forms, placing the needs of the wilderness above their own. These heroes are called twilight guardians, for they preserve the wilderness from the encroaching darkness, safeguarding the natural world from destruction at the hands of the incautious and the malevolent alike.

Though it might seem that the twilight guardian chooses to champion the cause of nature, most twilight guardians would say that the world chose them. The world responds, they believe, to an uncommon reverence for nature, an awareness of the true power of life, and an understanding of the need for a harmonious balance to ensure the world's survival. These qualities arise most commonly among the elves, and thus the path of the twilight guardian is unique to that race.

As a twilight guardian, you evolve into a physical conduit of natural power, channeling the life force of the earth itself to better combat your enemies. The power flowing through you sharpens your senses and attunes you to your surroundings. Protecting the wilderness is your paramount concern. You are not

JAMES ZHANG

required to safeguard a particular region, but instead to protect nature wherever you go in your travels. As long as you remain a stalwart protector, the natural world will aid you in your crusade, lending you its strength to ensure your triumph over those who would contaminate the land.

TWILIGHT GUARDIAN PATH FEATURES

Elfsight (11th level): You ignore the -2 penalty for attacking an enemy that has concealment. Also, your racial bonus to Perception checks increases to +4, and the racial bonus to Perception checks that you grant through your Group Awareness racial trait increases to +2.

Special: When you gain this power, choose Intelligence, Wisdom, or Charisma as the ability you use when making attack rolls with this power.

CHARACTER CLASSES

YOUR CHARACTER'S class is the most important factor in determining what your character can do. Your class determines what armor and weapons you start off knowing how to use, what skills you can learn, how many hit points you have, and—most important—the class features and powers you wield. These, in turn, determine what role you're best suited for in combat encounters as well as in some noncombat encounters.

This chapter introduces eight classes to the D&D game, representing three power sources and all four character roles. The bard and the sorcerer take their place alongside other arcane classes. The avenger and the invoker expand the roster of divine classes to all four roles. The primal power source is represented here by one class for each role: barbarian, druid, shaman, and warden.

Every class dabbles in functions related to another role. Some classes have one secondary role, whereas others incline toward one of two secondary roles based on an individual character's choice of class features and powers. The role entries for the classes in this book note each class's secondary role or roles.

Here you'll find descriptions of the following eight classes, along with four new paragon paths for each one. The chapter concludes with six new epic destinies.

Avenger (page 32): A divine striker trained in secret rites to bring divine justice to the gods' foes.

Barbarian (page 48): A striker who rages with primal fury.

Bard (page 66): An arcane leader who inspires and empowers with magic song and verse.

Druid (page 82): A controller who is a master of primal magic and can take on animal forms.

Invoker (page 100): A controller who wields raw divine power, the magic the gods used to fight the primordials.

Shaman (page 118): A mystic leader who channels primal power through a spirit companion.

Sorcerer (page 136): A striker who is an open floodgate of unshaped arcane might.

Warden (page 152): A staunch defender who channels the power of earth and root.

WILLIAM O'CONNOR

AVENGER

“Everything my god needs to say to you can be said with my weapon.”

CLASS TRAITS

Role: Striker. Your oaths bring divine wrath upon the enemies of your god. With methodical devastation, you eliminate one foe at a time. You lean toward controller as a secondary role.

Class Skills: Acrobatics (Dex), Athletics (Str), Endurance (Con), Heal (Wis), Intimidate (Cha), Perception (Wis), Religion (Int), Stealth (Dex), Streetwise (Cha)

Class Features: Armor of Faith, Avenger’s Censure, Channel Divinity, *oath of enmity*

In secret temples far from bustling cities and priestly hierarchies, orders of esoteric warriors train their initiates in ancient traditions now forgotten or forbidden by most religious organizations. The champions of these orders are avengers—deadly weapons in the hands of their gods, imbued with divine power through secret rites of initiation. In battle, avengers swear to execute divine vengeance, entering a mental state that gives them unerring focus on a single enemy.

As an avenger, you were trained in a monastery, initiated through secret rites, and imbued with the power to smite your god’s foes. You might be a disciple of Ioun, sworn to hunt and exterminate the minions of Vecna until you one day face the Maimed God. You could be an agent of the Raven Queen, bringing death to those who would defy your mistress. Or perhaps you serve Bahamut as an agent of justice, bringing ruin to tyrants and oppressors. The organizations devoted to your god might view you as a heretic or a hero, but you answer only to your god and to the vows you swore upon your initiation as an avenger.

Where will those vows lead you? One thing is certain: Doing the will of your god is never easy and never free of peril.

AVENGER CLASS FEATURES

Avengers have the following class features.

ARMOR OF FAITH

The favor of your deity wards you from harm. While you are neither wearing heavy armor nor using a shield, you gain a +3 bonus to AC.

AVENGER'S CENSURE

As an avenger, you train your mind, body, and soul toward one purpose: destroying the enemies of your faith. To that end, you gain divine aid in pursuing a single target, though the way you eliminate that enemy varies. Do you pin your foe down and keep other enemies away, or do you pursue your foe across the field of battle?

Choose one of these options. Your choice provides bonuses to certain avenger powers, as detailed in those powers.

Censure of Pursuit: If your *oath of enmity* target moves away from you willingly, you gain a bonus to damage rolls against the target equal to $2 + \text{your Dexterity modifier}$ until the end of your next turn. The bonus increases to $4 + \text{your Dexterity modifier}$ at 11th level and $6 + \text{your Dexterity modifier}$ at 21st level.

Censure of Retribution: When any enemy other than your *oath of enmity* target hits you, you gain a bonus to damage rolls against your *oath of enmity* target equal to your Intelligence modifier until the end of your next turn. This bonus is cumulative.

CHANNEL DIVINITY

Once per encounter, you can use a Channel Divinity power. You start with two Channel Divinity powers: *abjure undead* and *divine guidance*. You can gain additional Channel Divinity powers by taking divinity feats.

OATH OF ENMITY

Your god gives you the power to strike down your chosen prey. You gain the *oath of enmity* power.

AVENGERS AND DEITIES

Choice of Deity: Each avenger chooses a single deity from the pantheon and gives his or her exclusive service to that deity (see “Deities,” *Player’s Handbook*, page 20). Most avengers are trained at secret temples or monasteries where they learn esoteric doctrines and hidden legends that often suggest the superiority of their deity over all others.

A ceremony of investiture at your home temple, which culminated in an experience that seemed like a manifestation of your deity, granted you the ability to wield your divine powers. Your investiture

complete, you left your temple to travel the world in the service of your deity and your order—or perhaps you fled your order and now seek a way to serve your god beyond the order’s strictures. Whatever relationship you have with your order, nothing can remove the spark of divine power within you. What you do with that power is yours to decide.

Choice of Alignment: You must choose an alignment compatible with the deity you serve. Good avengers serve good deities, lawful good avengers serve lawful good deities, and so on. However, if you are unaligned, you can serve any deity, for avengers’ work often leads to a certain level of disillusionment and detachment that prompts them to be unaligned.

IMPLEMENT

Like clerics and paladins, avengers use holy symbols to help channel and direct their divine powers. When they make their own holy symbols, the symbols are often different in some detail from the symbols used by other characters, yet avengers can use the same holy symbols used by clerics and paladins.

When you wear or hold a magic holy symbol, you can add its enhancement bonus to the attack rolls and the damage rolls of avenger powers and avenger paragon path powers that have the implement keyword. Without a holy symbol, you can still use these powers.

CREATING AN AVENGER

The three key ability scores for an avenger are Wisdom, Dexterity, and Intelligence. Avengers typically choose feats, skills, and powers to complement the ability score related to their choice of Divine Censure.

AVENGER OVERVIEW

Characteristics: Swinging a melee weapon in combat, you wield devastating divine power against your foes. You have a secondary assortment of ranged and close implement powers that let you draw your foes closer to you, teleport near them, or scorch them with divine wrath from afar.

Religion: An avenger might serve any deity, but an avenger is more likely to worship an unaligned deity than a god of good or lawful good. Avengers of loun are among the most common, fighting a war of knowledge against the servants of Vecna. Unaligned avengers often revere the Raven Queen, Erathis, or Sehanine, and evil avengers often serve Asmodeus, Lolth, Tiamat, or Zehir.

Races: Elves and razorclaw shifters make excellent pursuing avengers, and devas excel as isolating avengers. Many avengers are human, because most of the hidden monasteries that produce avengers are of human origin.

ISOLATING AVENGER

After you swear an *oath of enmity*, you keep your enemy beside you and drive other foes away. Your powers help you isolate one creature at a time and bring it down quickly and let you take vengeance when that creature's allies get past your defenses. Your attacks use Wisdom, so it should be your best ability score. Choose Intelligence for your second-best score, reflecting your keen tactical awareness. Select powers that help you sequester your foe from its allies.

Suggested Class Feature: Censure of Retribution

Suggested Feat: Toughness

Suggested Skills: Athletics, Intimidate, Religion, Streetwise

Suggested At-Will Powers: *bond of retribution*, *overwhelming strike*

Suggested Encounter Power: *avenging echo*

Suggested Daily Power: *temple of light*

PURSUING AVENGER

Once you swear an *oath of enmity* against an enemy, you pursue that creature wherever it goes. As much as it might try to escape your wrath, your powers let you follow it and punish it for trying to flee. Make Wisdom your highest ability score, and make Dexterity your second-best score to help you nimbly pursue your foe. Select powers that prevent your foe from moving away from you or that let you shift or teleport to the foe's side.

Suggested Skills: Acrobatics, Perception, Religion, Stealth

Suggested At-Will Powers: *bond of pursuit*, *radiant vengeance*

PARAGON PATHS

HAMMER OF JUDGMENT

"The hammer of the smith must sometimes also be the hammer of the warrior."

Prerequisite: Avenger

As the blacksmith's hammer shapes metal according to the smith's will, so you have been sent to shape the world to your god's will. A tool and a weapon in your god's hand, you are called to shape the course of kingdoms and punish those who stand opposed to the ways of your god. Although the smith's hammer is a tool of building and creation, in time of need it can also be a weapon of destruction.

In following this path, you emphasize the control elements of many avenger powers, particularly pulling, pushing, sliding, and teleporting your foes. You gain abilities that let you push your foes even with powers that don't normally involve forced movement and that increase the distance you move your foes with your powers. Your new attack powers push your targets around or knock them to the ground.

True to the name of this path, you are most effective if you are wielding a hammer, such as a maul.

OATHSWORN

"Your words are nothing but wind. My words endure."

Prerequisite: Avenger, oath of enmity power

For certain avenger sects, the swearing of oaths is a central part of their religious observances and their rites of initiation. In the teachings of these sects, an oath sworn by an avenger is akin to the words of creation spoken by the gods to give lasting form to the world; when the avenger's will and the god's will are one, an avenger's oath has the power to make reality conform to the words of the oath.

As a member of one of these oathsworn sects, your *oath of enmity* power carries particular weight. When you swear your god's judgment against a foe, that creature's attacks are less likely to harm you. When your foe lies dead, you claim the reward of fulfilling your oath, drawing new vigor for the remaining battle. As you advance along the oathsworn path, you gain powers that are more effective against the target of your oath, weakening it or making it vulnerable to your later attacks. You can even grant the benefit of your *oath of enmity* to your allies for a short time, ensuring that they help you bring your foe to justice.

OATHSWORN PATH FEATURES

Blood Oath (11th level): You gain a +1 bonus to all defenses against attacks made by your *oath of enmity* target.

Sworn Action (11th level): When you spend an action point to make an attack, you make two attack rolls against each target of that attack and use either result.

UNVEILED VISAGE

"Look upon my face and see the face of my god."

Prerequisite: Avenger

At the culmination of your rite of initiation years ago, one of the avengers in your secret temple pulled back the hood of a voluminous cloak to reveal a face that was not mortal, but fully divine. You saw the face of your god in that moment, and that sight transformed you. That knowledge of divine presence is what allows you to wield the power you have and what authorizes you to act in your god's name. Slowly—ever so slowly—you are growing into the image of your god, to the point where your face begins to reveal your deity's countenance as well.

To the initiated in your faith, the face of your god is a wondrous sight, capable of inspiring awe and increased devotion. To the enemies of your god, the face is a thing of fear, of searing and blinding radiance.

Your path is about your own physical and spiritual transformation. As you progress along the path of the unveiled visage, you become a more clear mirror of your god's face and a more faithful expression of the god's will. You can tap into the vigilance of the divine mind and transform yourself into a divine aspect not unlike an angel, flying on wings to better fight your god's foes.

UNVEILED VISAGE PATH FEATURES

Unveiled Action (11th level): When you spend an action point to take an extra action, you also gain an extra use of one of your Channel Divinity powers during this encounter.

Soaring Charge (11th level): When you charge, you can fly your speed as part of the charge. You also gain a +2 bonus to all defenses against opportunity attacks you provoke while moving during the charge.

ZEALOUS ASSASSIN

"It is the will of Sehanine that the servants of Lolth should die as they lived—in silence and in secret."

Prerequisite: Avenger, trained in Stealth

Every avenger is trained in the ruthless art of combat and skilled in the art of isolating a foe and dispatching it with a few swift blows. Some avenger sects also emphasize the art of stealth—particularly those dedicated to deities who favor stealth, shadows, and secrecy, including Sehanine, Lolth, Zehir, and Vecna. Among these avengers, the most dangerous follow the path of the zealous assassin.

As a follower of this path, you embody devotion and ruthlessness in equal measure, making you a deadly weapon aimed at your deity's foes. Your skills are focused on the ability to slip in and out of shadows at the edge of combat, dealing blows that quickly dispose of enemies. You pool shadows around yourself or hide in a nimbus of divine light, and you master techniques that take advantage of openings in combat, dealing greater damage when you have combat advantage or against bloodied foes. At the culmination of the path, you can make yourself invisible to your foe, then sear it with blinding radiance that leaves it more susceptible to your attacks.

BARBARIAN

"My strength is the fury of the wild."

Depending on your choice of class features and powers, you lean toward either defender or leader as a secondary role.

Power Source: Primal. You are a primal champion, a warrior devoted to the natural world and an embodiment of your tribe's fierce traditions.

Key Abilities: Strength, Constitution, Charisma

Armor Proficiencies: Cloth, leather, hide

Weapon Proficiencies: Simple melee, military melee

Bonus to Defense: +2 Fortitude

Hit Points at 1st Level: 15 + Constitution score

Hit Points per Level Gained: 6

Healing Surges per Day: 8 + Constitution modifier

Trained Skills: From the class skills list below, choose three trained skills at 1st level.

Class Skills: Acrobatics (Dex), Athletics (Str), Endurance (Con), Heal (Wis), Intimidate (Cha), Nature (Wis), Perception (Wis)

Class Features: Barbarian Agility, Feral Might, rage strike, Rampage

Barbarians are savage warriors who deal out powerful blows from their mighty weapons. They charge from foe to foe and seldom feel the pain of an enemy's strike. For barbarians' foes, the moments of greatest terror come when barbarians call upon primal forces to lend power to their raging spirits. These rages, although temporary, give a barbarian incredible powers, a combination of skill, willpower, and a legacy of ancient tribal rituals.

As a barbarian, you have a link to powerful nature spirits and other primal forces bound to the warriors of your tribe by the songs and totems of your legacy. These spirits lend energy to your rages, transforming you into a devastating force on the battlefield. As you become more experienced, these rages transcend mortal limitations, manifesting directly as waves of elemental power or gifting you with supernatural recuperative powers.

When the heat of battle is upon you, will you respond with a sudden charge that fells with one mighty swing of your weapon, or with a prolonged rage that leaves destroyed foes in your wake?

BARBARIAN CLASS FEATURES

Barbarians have the following class features.

BARBARIAN AGILITY

While you are not wearing heavy armor, you gain a +1 bonus to AC and Reflex. The bonus increases to +2 at 11th level and +3 at 21st level.

FERAL MIGHT

Barbarians connect with the natural world in a variety of ways. Some barbarians grow so hardened to physical punishment that they find it easier to simply absorb, rather than avoid, attacks. Others are living examples of the power of one's will to shape one's fate.

Choose one of the following options. The choice you make gives you the benefit described below and also provides bonuses to certain barbarian powers, as detailed in those powers.

Rageblood Vigor: You gain the *swift charge* power. In addition, whenever your attack reduces an enemy to 0 hit points, you gain temporary hit points equal to your Constitution modifier. The number of temporary hit points equals $5 + \text{your Constitution modifier}$ at 11th level and $10 + \text{your Constitution modifier}$ at 21st level.

Thaneborn Triumph: You gain the *roar of triumph* power. In addition, whenever you bloody an enemy, the next attack by you or an ally against that enemy gains a bonus to the attack roll equal to your Charisma modifier.

RAGE STRIKE

Barbarian daily attack powers have the *rage* keyword (page 220). They allow you to unleash powerful bursts of emotion, willpower, and primal energy. Each rage power starts with a mighty attack, and then you enter a rage, which grants an ongoing benefit.

At 5th level, you gain the *rage strike* power, which lets you channel an unused rage power into a devastating attack while you're raging. Using *rage strike* is an alternative to using a second rage power in a climactic battle; it gives you the damage output of a daily power without forcing you to enter a different rage.

RAMPAGE

Once per round, when you score a critical hit with a barbarian attack power, you can immediately make a melee basic attack as a free action. You do not have to attack the same target that you scored a critical hit against.

CREATING A BARBARIAN

You can choose any barbarian powers you like for your character, though many barbarians favor one of two builds: the rageblood barbarian or the thaneborn barbarian. All barbarians rely on Strength. Barbarians also benefit from a high Constitution or Charisma, depending on which expression of the class they favor.

RAGEBLOOD BARBARIAN

You can withstand a great deal of physical punishment, especially when you are in the throes of rage. At higher levels, your powers, particularly your rages, visibly manifest the spirits sacred to your tribe. Strength should be your highest ability score, since you use it for your attacks, but make Constitution a close second. Charisma might be your third-best score, especially if you want to use some powers designed for the thaneborn barbarian build. Rageblood barbarians lean toward defender as a secondary role.

Suggested Class Feature: Rageblood Vigor

Suggested Feat: Weapon Expertise

Suggested Skills: Athletics, Endurance,

Perception

Suggested At-Will Powers: *devastating strike*, *recuperating strike*

Suggested Encounter Power: *avalanche strike*

Suggested Daily Power: *bloodhunt rage*

BARBARIAN OVERVIEW

Characteristics: You combine powerful melee attacks with an excellent ability to absorb damage. You gain tremendous bursts of power through mighty rages. You have unusually high hit points for your role, making you more durable than other strikers.

Religion: Most barbarians revere the primal spirits of the natural world rather than calling on the gods of the Astral Sea. Some barbarians don't see conflict between the gods and the primal spirits and therefore honor deities of nature or warfare in addition to the primal spirits. These barbarians often revere Kord, Melora, Avandra, or the Raven Queen. Evil or chaotic evil barbarians turn to Gruumsh or, more rarely, Bane or Zehir.

Races: Goliaths are ideal rageblood barbarians. Drag-onborn make excellent thaneborn barbarians. Half-orcs are often barbarians but don't favor either of the two types. Dwarf and shifter barbarians tend to be rageblood barbarians, while halfling and half-elf barbarians choose the thaneborn path.

THANEBOORN BARBARIAN

You use primal power to fuel your mighty rages and lend power to your already imposing personal presence. Your combination of physical prowess and charismatic appeal draws allies to you as surely as it fills your foes with fear. Again, make Strength your highest ability score, followed by Charisma and then Constitution. Thaneborn barbarians lean toward leader as a secondary role.

Suggested Class Feature: Thaneborn Triumph

Suggested Feat: Rising Fury

Suggested Skills: Athletics, Intimidate,

Perception

Suggested At-Will Powers: howling strike, pressing strike

Suggested Encounter Power: vault the fallen

Suggested Daily Power: macetail's rage

BARBARIAN POWERS

Your powers are evocations of primal strength. At lower levels, your powers rely partly on martial skill and personal presence, but even at the start of your career, the primal spirits of the world infuse your body with vigor. At higher levels, the primal spirits flow more freely through you and your weapons, creating effects that are more obviously supernatural.

Your barbarian daily attack powers have the rage keyword (page 220). While you are raging, your barbarian at-will attack powers gain certain benefits, as detailed in those powers.

CLASS FEATURES

Each barbarian gains the power *rage strike*, usable only during a rage, at 5th level.

Prerequisite: Barbarian

You revere the bear as a symbol of the warrior's strength and prowess. Through long and ancient rites, you have bound that symbol to your heart with more than just words and totems. In battle, you become the bear, shaping your form to its form and your strength to its strength.

Most bear warriors strive to emulate the bear beyond combat situations. You might catch fish with your bare hands, tear open beehives to feast on the honey inside, or roar in an aggressive territorial display. Like many barbarians, you're more at home in the wild places of the world than when surrounded by buildings.

FEARBRINGER THANE

"You needn't wait until the bodies fall to know the victor. Simply find the eyes that first hold fear—those are the eyes that can never see victory."

Prerequisite: Barbarian

Many barbarians combine mastery of primal power with an imposing personal presence and natural leadership ability. The most dreaded warriors among them are fearbringer thanes, who harness those twin powers to strike terror into their enemies' hearts.

As a fearbringer thane, you shape battles with your will and your fearsome presence. Fear is a weapon you wield, turning your foes to quaking weaklings before you cut them down with your axe or sword. As your rages seize you and fill you with primal power, that power flows out from you to inspire your allies and fill your enemies with terror.

Many fearbringer thanes use their power to gather hordes of savage warriors under their banners. Others, including most player characters, lead smaller bands of adventurers on raids into dungeons and other adventure sites. In either case, a fearbringer thane is something like a hybrid of barbarian and warlord, as close to a leader as a barbarian comes.

FEARBRINGER THANE PATH FEATURES

Staggering Fury (11th level): When you spend an action point to make a melee attack while you are raging, each enemy that can see you takes a -2 penalty to attack rolls until the end of your next turn.

FRENZIED Berserker

"Caution? Discretion? No! Valor is to face your foe in battle and then stand over the broken corpse."

Prerequisite: Barbarian

The devastation of the thunderstorm howls in your soul, wild and untamed. You thrill in the chaos of battle, your wrath unquenched and uncontrollable. Battle, for you, is not a means to an end; it is an end in itself. The thrill of combat draws you on, and wounds only drive you to greater frenzy.

Caught in the tumult of your anger, you must attack—calculated maneuvers and intricate strategies are diversions. You attack with sweeping blows that cleave through your enemies or lock single foes in deadly exchanges that can end only in the death of one or the other of you. When the furor of battle seizes you, you ignore pain and keep fighting when others would fall, an unconquerable whirlwind of destruction.

FRENZIED Berserker Path Features

In addition, whenever you start your turn adjacent to one or more enemies while you are raging and are able to take actions, you must make either a melee or a close attack against one of those enemies during your turn or be stunned until the end of your next turn.

WILDRUNNER

"The land gives wings to my feet and makes my spirit soar."

Prerequisite: Barbarian, trained in Nature

The wilderness is your home, and your connection to the primal spirits of the land grants you speed and ferocity. You move through the forest like a deer, and you charge into battle with the cheetah's speed and fury.

The powers of a wildrunner emphasize mobility, letting you shift and move quickly while striking your foes. You pounce from foe to foe, avoiding opportunity attacks while dealing all the damage your rage can muster.

Elf barbarians are frequently drawn to this paragon path, because its powers complement their natural mobility. Likewise, many rangers who nurture a connection to the primal forces of nature by taking barbarian multiclass feats find this path appealing.

WILDRUNNER PATH FEATURES

Hunter's Fury (11th level): When you spend an action point to make a melee attack, you can shift a number of squares equal to your Strength modifier after the attack.

Class Features: Bardic Training, Bardic Virtue, majestic word, Multiclass Versatility, Skill Versatility, Song of Rest, words of friendship

Bards are artists first and foremost, and they practice magic just as they practice song, drama, or poetry. They have a clear sense of how people perceive reality, so they master charm magic and some illusions. Sagas of great heroes are part of a bard's repertoire, and most bards follow the example of many fables and become skilled in a variety of fields. A bard's artistic ability, knowledge of lore, and arcane might are widely respected, particularly among the world's rulers.

Art and magic share a sublime beauty, and, as a bard, you seek the place where the two meet. You might be a naturally talented wanderer who casts impressive spells almost instinctively, a student of a bardic college who learned ordered systems of magic and epic poetry, a warrior skald who mixes skill at

arms with thundering music, a dashing performer known for putting on a good show even for your enemies, or a perfectionist who seeks the consummate formula that blends art and magic into a higher force.

A steady rhythm beats in the back of your mind as you brandish your sword. Your eyes and ears pick up the motion of the villains that surround you, and one glance tells you everything you need to know to defeat them. You whistle three staccato notes, letting your allies know the symphony of battle is about to begin.

BARD CLASS FEATURES

Bards have the following class features.

BARDIC TRAINING

You gain the Ritual Caster feat as a bonus feat, allowing you to use magical rituals. You own a ritual book, and it contains two rituals of your choice that you have mastered: one 1st-level ritual that has bard as a prerequisite (see Chapter 4) and another 1st-level ritual.

In addition, you can perform one bard ritual per day of your level or lower without expending components, although you must pay any other costs and use any focus required by the ritual. At 11th level, you can perform two bard rituals per day of your level or lower without expending components; at 21st level, you can perform three.

BARDIC VIRTUE

Bards praise many virtues in their stories, telling tales of people whose particular qualities set them above common folk. The valor of dauntless heroes and the cunning of great minds are among these virtues, and a bard can choose to emphasize either quality.

Choose one of the following options. The choice you make gives you the benefit described below and also provides bonuses to certain bard powers, as detailed in those powers.

Virtue of Cunning: Once per round, when an enemy attack misses an ally within a number of squares of you equal to $5 + \text{your Intelligence modifier}$, you can slide that ally 1 square as a free action.

Virtue of Valor: Once per round, when any ally within 5 squares of you reduces an enemy to 0 hit points or bloodies an enemy, you can grant temporary hit points to that ally as a free action. The number of temporary hit points equals $1 + \text{your Constitution modifier}$ at 1st level, $3 + \text{your Constitution modifier}$ at 11th level, and $5 + \text{your Constitution modifier}$ at 21st level.

MAJESTIC WORD

The arcane power of a bard's voice can heal allies. You gain the *majestic word* power.

MULTICLASS VERSATILITY

You can choose class-specific multiclass feats from more than one class.

SKILL VERSATILITY

You gain a +1 bonus to untrained skill checks.

SONG OF REST

When you play an instrument or sing during a short rest, you and each ally who can hear you are affected by your Song of Rest. When an affected character spends healing surges at the end of the rest, that character regains additional hit points equal to your Charisma modifier with each healing surge. A character can be affected by only one Song of Rest at a time.

WORDS OF FRIENDSHIP

Bards use magic to honey their words and turn the simplest argument into a compelling oration. You gain the *words of friendship* power.

IMPLEMENT

Bards use wands to direct and control their spells. When you wield a magic wand, you can add its enhancement bonus to the attack rolls and the damage rolls of bard powers and bard paragon path powers that have the implement keyword. Without a wand, you can still use these powers.

Songblades and some magic musical instruments (see Chapter 3) can be used as implements for bard powers and bard paragon path powers. Bards treasure these magic musical instruments not only for the power they offer, but for the wondrous melodies they produce in the hands of a skilled musician.

BARD OVERVIEW

Characteristics: Your powers are a mix of ranged, melee, and close attacks, giving you plenty of options whether you choose to lead from the front or the rear. Your attacks can provide bonuses and extra movement to you and your allies, or they can charm and deceive your enemies.

Religion: Many bards revere Corellon, patron of both artists and wielders of arcane magic. Cunning bards also honor Avandra and Sehanine, who are credited with inspiring trickery in the heroes of old. Valorous bards are more likely to revere Bahamut, Kord, or Moradin. Evil bards often worship Lolth, Tiamat, or Zehir.

Races: Half-elves are sometimes said to be the best bards, partly because their ability score bonuses favor the valorous bard and partly because their Dilettante racial trait complements the bard's Multiclass Versatility. Gnomes and tieflings both make excellent cunning bards.

CREATING A BARD

Your choice of ability scores, class features, and powers suggests one of two builds based on the storied virtues of cunning and valor. All bards use Charisma for their attacks. Intelligence increases the effect of tricky attacks, and Constitution is best for powers that inspire allies.

CUNNING BARD

The heroes of the past whom you hold as exemplars overcame adversity and escaped danger using their wits, by tricking their foes and concocting cunning stratagems. You seek to emulate those heroes, combining your winning personality with a keen intellect. You use Charisma for your attack powers, so make it your highest score, followed by Intelligence to improve the effects of your tricky powers. Constitution is a good third score. Look for powers that let you put your cunning to work. Most cunning bards focus on ranged attack powers, using a wand from a safe distance to orchestrate the flow of battle.

Suggested Class Feature: Virtue of Cunning

Suggested Feat: Advantage of Cunning

Suggested Skills: Arcana, Bluff, Intimidate, Perception, Streetwise

Suggested At-Will Powers: *misdirected mark*, *vicious mockery*

Suggested Encounter Power: *blunder*

Suggested Daily Power: *stirring shout*

VALOROUS BARD

To your mind, the ancient heroes most worthy of emulation are those whose courage in the face of overwhelming odds carried them to victory. Your own fortitude and forceful personality inspire similar valor in your allies. Your highest ability score should be Charisma, since you use it for attack powers, followed by Constitution to improve your powers of inspiration. It's a good idea to make Intelligence your third score. Choose powers that emphasize valor and endurance in the face of adversity. Most valorous bards focus on melee and close attack powers, wielding a sword in the thick of battle and leading by example.

Suggested Class Feature: Virtue of Valor

Suggested Feat: Strength of Valor

Suggested Skills: Arcana, Athletics, Diplomacy, Intimidate, Perception

Suggested At-Will Powers: *guiding strike*, *war song strike*

Suggested Encounter Power: *shout of triumph*

Suggested Daily Power: *slayer's song*

BARD POWERS

Your powers are called spells, and you create them by gracefully mixing art, magic, and weapon skill.

CLASS FEATURES

Each bard has the powers *majestic word* and *words of friendship*.

Majestic Word

Bard Feature

You utter words laden with preternatural inspiration, restoring your ally's stamina and making wounds seem insignificant.

PARAGON PATHS

STUDENT OF THE SEVEN

"Why hitch your cart to just one horse?"

Prerequisite: Bard, any multiclass feat

Among the many legends told by bards, a few mythic figures appear with some regularity, including the mysterious Seven. The Seven are sisters, or sometimes brothers, whose names vary from tale to tale. They're not gods, but they're not mortals either; sometimes they're exarchs of Corellon or some other god, and sometimes they're angels who come from seven different dominions. But most often, they're simply the Seven. Some tales describe them as patrons of the arts, inventors or sponsors of dance, poetry, singing, instrumental music, painting, drama, and the like. Other tales describe them as patrons of every mortal activity, or even as sponsors of different power sources. The Seven are never exactly the same in any two tales, or even in the same tale told twice. And as their student, neither are you.

Following the promptings of the Seven, your interests accept no limitations. No narrow field of study can contain your wide-ranging curiosity. You excel as an arcane leader, but what's to prevent you from learning a few tricks from a martial defender or a primal controller? No knowledge is off limits, and nothing is impossible.

By taking multiclass feats and learning powers from a variety of classes, you always have the right tool for the job. In addition, you learn spells that have enormous versatility, ensuring that you can provide help anytime you or an ally needs a bonus in a specific area. You dabble in a little bit of everything, and you manage not only to improve yourself but also to make others a little better at what they do best.

STUDENT OF THE SEVEN PATH FEATURES

Daily Mastery (11th level): At the end of an extended rest, you can replace a daily attack power granted through a multiclass feat with another daily attack power of the same level or lower from the same class.

Versatile Action (11th level): When you spend an action point to take an extra action, you regain the use of an encounter utility power or an encounter attack power that you gained through a multiclass feat and that you have used during this encounter.

Compensatory Insight (16th level): When you use an attack power granted through a multiclass feat, you gain a bonus to the attack's damage roll equal to your Intelligence modifier.

SUMMER RHYMER

"Ancient rhythms, endlessly refreshed. This blade cuts like a poem."

Prerequisite: Bard, Virtue of Cunning class feature

Among the most powerful residents of the Feywild is Tiandra, the Summer Queen (see *Manual of the Planes*). Her court is a reflection of her unearthly beauty, hung with flower garlands and alive with bustling activity. Her smile can ripen crops, and her favor bestowed on a mortal can quicken the gifts of song and poetry.

Whether the Summer Queen has actually smiled on you or you merely aspire to seek her blessing, you claim some association with the Summer Fey and study their musical magic. In your feytouched presence, you and your allies teleport freely, and you can call on the Summer Queen's powers of growth to aid your own healing powers.

If you serve the Summer Queen well, you might hope to receive some favor from her. Great heroes of the past have sometimes received noble titles, magic instruments, access to powerful enchantments, and other gifts from her hand. As the fey go, the Summer Queen is relatively trustworthy, but be warned: No fey gift is truly free.

SUMMER RHYMER PATH FEATURES

VOICE OF THUNDER

"When thunder speaks, all nature feels a twinge of fear."

Prerequisite: Bard

Your voice is your power, and as you study and practice ancient bardic traditions, your power grows stronger. The rumble of thunder in a stormy sky, the tremor of the earth that topples buildings, the rhythm of waves crashing against the shore, the explosive detonation of fire—your voice is the raw elemental power of sound, booming and concussive.

Variations of this path appear in the bardic traditions of many races and cultures. Eladrin often associate their magical traditions with forces of nature, and like a bralani of autumn winds or a tulani of summer sun, you might be a noble eladrin of the thunderstorm. Dwarf and goliath bards are more inclined to think of the rumble of stone. Drow bards speak of the voice of fury or of madness that empowers their harshly beautiful music. Tieflings wield explosive force with their mighty voices.

The features and powers of this path increase the range and effectiveness of your thunder powers. Your thunderous songs and shouts echo to repeat their assault on your foes, and your *song of thunder* gives your allies the ability to conjure echoes of your booming voice.

VOICE OF THUNDER PATH FEATURES

Voice of Thunder (11th level): When you spend an action point to take an extra action, the size of any close burst attack you make during that action increases by 1, and the size of any close blast attack you make during that action increases by 2.

WAR CHANTER

"Together we take our place among the greatest heroes the world has ever known!"

Prerequisite: Bard, Virtue of Valor class feature

Bards look to the tales of past heroes for inspiration and use those tales to spur their allies. As a war chanter, you embrace those tales as a pattern for your own life, leading your companions into battle with songs and cadences that extol the virtues of bravery, endurance, and strength of arms. The roar of battle, the clash of steel on steel, the warrior's cry, the tramp of marching feet—these are all notes you weave into the symphony of war, which flows across the field like a raging torrent, catching up your friends and foes alike.

Your music and oratory inspire your allies to greater deeds of valor. Your Virtue of Valor grants temporary hit points to you as well as to your allies, and your own battle prowess can bolster your allies against injury. Your powers are similar in some ways to those of a warlord, granting your allies movement and attacks against the foes you strike with your own weapon.

WAR CHANTER PATH FEATURES

Inspire by Example (11th level): When you spend an action point to take an extra action, each ally within 5 squares of you gains a bonus to attack rolls and damage rolls equal to your Constitution modifier until the end of your next turn.

In addition, when you reduce an enemy to 0 hit points or bloody an enemy, one ally within 10 squares of you gains temporary hit points equal to $5 + \text{your Constitution modifier}$. The number of temporary hit points equals $8 + \text{your Constitution modifier}$ at 21st level.

Class Skills: Arcana (Int), Athletics (Str), Diplomacy (Cha), Endurance (Con), Heal (Wis), History (Int), Insight (Wis), Nature (Wis), Perception (Wis)

Class Features: Balance of Nature, Primal Aspect, Ritual Casting, *wild shape*

Secretive and enigmatic, druids call the wilderness their home. They are capable of running with a wolf pack, speaking with the most ancient trees, and watching thunderstorms from atop the clouds themselves. They regard challenges as tests, both of their fitness and of their connection with the wild places of the world. And though many druids project an outward calm, they have the cunning of the beast and the fury of the storm.

Whether you were born to the wilds or retreated from civilization, whether you chose your path or answered a call that whispered in your heart, you share a bond with the primal spirits of nature. You are neither their servant nor their master, but winds, trees, and beasts heed your words, for they recognize you as kin.

Call to the spirits, and they will entangle your foes or smite your enemies with the storm. Unleash your own spirit, and you will become the Primal Beast, uncaged and untamed.

DRUID CLASS FEATURES

Druids have the following class features.

BALANCE OF NATURE

Some druids favor being in beast form, while others prefer being in humanoid form. However, just as druids seek balance in the world between divine and primordial forces, druids pursue balance within their own minds and bodies.

You begin with three at-will attack powers. Throughout your career, at least one of those powers, and no more than two, must have the beast form keyword. By this means, you have access to useful attacks in either beast form or humanoid form.

PRIMAL ASPECT

Druidic lore speaks of the Primal Beast, the first spirit of the world's noble predators. A formless thing of shadows, fur, feathers, and claws, this creature appears in many druids' visions, and they speak of channeling the Primal Beast when using their *wild shape* and beast form powers. As a druid, you choose which aspect of the Primal Beast you most strongly manifest with your powers.

Choose one of these options. Your choice provides bonuses to certain druid powers, as detailed in those powers.

Primal Guardian: While you are not wearing heavy armor, you can use your Constitution modifier in place of your Dexterity or Intelligence modifier to determine your AC.

Primal Predator: While you are not wearing heavy armor, you gain a +1 bonus to your speed.

RITUAL CASTING

You gain the Ritual Caster feat as a bonus feat, allowing you to use magical rituals. You own a ritual book, and it contains two rituals of your choice that you have mastered: Animal Messenger (*Player's Handbook*, page 300) and another 1st-level ritual.

Once per day, you can use Animal Messenger without expending components.

WILD SHAPE

As a druid, you have the ability to channel the primal energy of beasts into your physical form and transform into a beast. You have an at-will power, *wild shape*, that allows you to assume the form of a beast, and many druid powers have the beast form keyword (page 219) and therefore can be used only while you are in beast form.

The *wild shape* power lets you assume a form of your size that resembles a natural or a fey beast, usually a four-legged mammalian predator such as a bear, a boar, a panther, a wolf, or a wolverine. Your beast form might also be an indistinct shape

of shadowy fur and claws, an incarnation of the Primal Beast of which all earthly beasts are fractured images. You choose a specific form whenever you use *wild shape*, and that form has no effect on your game statistics or movement modes.

Your choice of Primal Aspect might suggest a specific form you prefer to assume, and certain beast form powers specify changes to your form when you use them. You might also resemble a more exotic beast when you're in beast form: a reptile such as a rage drake or a crocodile, or a fantastic beast such as an owlbear or a bulette.

IMPLEMENT

Druids employ staffs and totems as a means of focusing their primal energy. When you wield a magic staff or a magic totem, you can add its enhancement bonus to the attack rolls and the damage rolls of druid powers and druid paragon path powers that have the implement keyword. Without an implement, you can still use these powers.

CREATING A DRUID

Druids rely on Wisdom, Dexterity, and Constitution for their powers. You can choose any powers you like, but many druids choose powers that complement their choice of Primal Aspect.

GUARDIAN DRUID

As a guardian druid, you are a protector of the land and those who rely on it. Yours is the magic of earth, forest, and sky, the enduring aspects of nature that outlive any mortal tyrant. Your powers incline you toward leader as a secondary role. Wisdom should be your highest ability score, since your attack powers rely on it, but make Constitution your second-best

DRUID OVERVIEW

Characteristics: You combine a number of potent ranged and area powers with the ability to take beast form and bring the fight directly to your foes. Depending on the powers you choose, you can spend more combat time in beast form or more in your humanoid form.

Religion: Most druids do not worship the gods of the Astral Sea, instead orienting their lives and beliefs around the primal spirits of nature. It might be misleading to call their relationship with these spirits worship, but druids invoke the spirits in times of passage, implore them for aid, and appease them with offerings of burned food or spilled blood.

Races: Elves and razorclaw shifters make excellent predator druids, combining native insight and attunement to nature with grace and agility. Dwarves excel as guardian druids; goliath and human druids often follow that path as well.

score to heighten your endurance and your guardian powers.

Suggested Class Feature: Primal Guardian

Suggested Feat: Primal Instinct

Suggested Skills: Arcana, Heal, Insight, Nature

Suggested At-Will Powers: *call of the beast*, *chill wind*, *grasping claws*

Suggested Encounter Power: *frost flash*

Suggested Daily Power: *fires of life*

PREDATOR DRUID

As a predator druid, you hunt down and destroy those who despoil the natural world. Yours is the magic of the bared fang, the stalking wolf pack, and the blood-red moon. Your powers make striker your secondary role, with a focus on dealing significant damage along with your control effects. Make Wisdom your highest ability score to get the most out of your attacks, followed by Dexterity to enhance your predator powers.

Suggested Class Feature: Primal Predator

Suggested Feat: Primal Fury

Suggested Skills: Arcana, Athletics, Nature, Perception

Suggested At-Will Powers: *flame seed*, *pounce*, *savage rend*

Suggested Encounter Power: *darting bite*

Suggested Daily Power: *savage frenzy*

CHOOSING DRUID POWERS

As you choose druid powers, you have two factors to consider. One is how the powers fit into your character concept—whether you imagine your character as more of a guardian or more of a predator. The other is how much time you envision spending in beast form. This factor is independent of your choice of build; both guardian druids and predator druids can choose powers that are mostly used in beast form or mostly used in humanoid form. But it's important for how your druid feels during play.

The easiest strategy is to choose the power at each level that appeals to you most. If most of those powers are beast form powers, then you'll spend a lot of time in beast form, using powers that you enjoy. If most of those powers are ranged and area powers you use in humanoid form, that will change the way you play your character. As long as you enjoy the powers you're using, that's fine.

If you need more guidance, choose beast form powers for about half of your powers. At 1st level, choose one or two beast form at-will attack powers, then choose either a beast form encounter power or a beast form daily power. As you advance in levels, continue trying to balance your power selections between beast form powers and other powers.

Remember that you can use retraining (*Player's Handbook*, page 28) to change your power selections if you find your choices unsatisfying.

DRUID POWERS

Your powers are evocations that call on primal spirits to alter your physical form and hamper your enemies. You call up roots and vines from the ground, summon lightning from the sky, engulf your enemies in fire, or transform yourself into a fierce predator whose howl can shake your foes with fear.

CLASS FEATURES

Each druid has the power *wild shape*.

Wild Shape

Druid Feature

You assume an aspect of the Primal Beast or return to your humanoid form.

At-Will ♦ Polymorph, Primal Minor Action (Special) Personal

Effect: You change from your humanoid form to beast form or vice versa. When you change from beast form back to your humanoid form, you shift 1 square. While you are in beast form, you can't use attack, utility, or feat powers that lack the beast form keyword, although you can sustain such powers.

You choose a specific form whenever you use *wild shape* to change into beast form. The beast form is your size, resembles a natural beast or a fey beast, and normally doesn't change your game statistics or movement modes. Your equipment becomes part of your beast form, but you drop anything you are holding, except implements you can use. You continue to gain the benefits of the equipment you wear.

You can use the properties and the powers of implements as well as magic items that you wear, but not the properties or the powers of weapons or the powers of wondrous items. While equipment is part of your beast form, it cannot be removed, and anything in a container that is part of your beast form is inaccessible.

Special: You can use this power once per round.

PARAGON PATHS

BLOOD MOON STALKER

"Tonight, the full moon rises red over the mountains. This is the night of the blood moon—my night."

Prerequisite: Druid, wild shape power

Several legends tell of the blood moon, a night or sometimes a season when the Primal Beast stalks the wilderness of the world in physical form. During the blood moon, the predators of the world are said to be more dangerous and to have an insatiable hunger. According to some legends, the blood moon is a perversion of the world's natural state, brought about by the gods or by the fierce response of the primal spirits to some violation of their precepts. Whatever the cause and exact effects of the blood moon, some druids use these legends as a symbol for their own ferocious zeal in protecting the natural balance of the world.

You are a blood moon stalker, favoring your beast form and choosing powers that make you more

dangerous in that form. As your body transforms into beast form, so too your mind embraces your bestial side. You take pride and pleasure in fighting without conscious thought, drawing on bestial instinct and wisdom to guide your attacks upon your prey. You are a fierce hunter, a silent stalker of the wilds, but you are also a crusader for the primal spirits, ensuring that neither gods nor primordials overstep the bounds set for them at the dawn of time.

Through the power of the blood moon, you and your spirit brothers, sisters, and ancestors are the custodians of the world.

GUARDIAN OF THE LIVING GATE

"There are creatures from beyond this world that seek to destroy all that we have built. My task is to destroy them first."

Prerequisite: Druid

Ancient compacts and edicts protect the natural world from too much interference by gods and primordials. As much as primordials, as well as demons, might like to tear the world apart and draw it back into the Elemental Chaos from which it was made, their power is limited. To many druids' eyes, the greatest threat that now faces the world is not god or primordial, but alien creatures from the Far Realm that are not bound by the ancient laws. These creatures don't necessarily want to destroy the world, but whether or not they mean to, they corrupt it simply by being in it.

As a guardian of the Living Gate, you have sworn to seek out and kill aberrant creatures that have ties to the Far Realm and to seal any portals between that plane and the world. You might have joined an order of like-minded druids (the organization known as the Circle of the True is the largest such order), or you might have found your own way into the esoteric knowledge of the Living Gate. The mystical powers you learn on this path, starting with the *first ward of the Living Gate*, are generally useful for protecting your allies and bringing ruin to your enemies, but your charge is to use them to defend the natural world from forces that would corrupt and destroy it.

GUARDIAN OF THE LIVING GATE PATH FEATURES

Guardian Action (11th level): When you spend an action point to take an extra action, you or an ally within 5 squares of you can make a saving throw with a +5 bonus.

Entwining Evocation (11th level): When you make an area attack, you gain combat advantage against each target that has no creatures adjacent to it.

KEEPER OF THE HIDDEN FLAME

"The Hidden Flame burns within us all. Draw on it for your fury, or I will call it out for your doom."

Prerequisite: Druid

According to druidic legend, the Hidden Flame is a spark of vigor and vitality that exists within every creature. Beasts, especially predatory mammals, are said to live in harmony with the Hidden Flame within them, calling upon it to fuel their hunting fury. When a creature lets the Hidden Flame burn out of control, the result is a mad savagery that is no more in harmony with the natural way of things than the behavior of those civilized folk who act as if no flame burns within them at all.

You are a keeper of the Hidden Flame, able to tap into this wellspring of strength and bestial fury. By calling to the Hidden Flame in a creature, you can spur that creature into a frenzy that leaves no room for strategic or tactical thinking. You draw on the Hidden Flame in yourself and your allies to perfect your predatory instinct, helping you fight with terrible ferocity.

KEEPER OF THE HIDDEN FLAME PATH FEATURES

Keeper's Action (11th level): When you spend an action point to take an extra action, you can also reroll the next attack you make that misses before the end of your turn, and you must use the second roll.

In addition, it must make any opportunity attack it can. The target cannot make a saving throw against this effect if the target has hit with a melee attack since the end of its last turn.

Miss: The target grants combat advantage and must target your ally nearest to it when it attacks (save ends both). The target cannot make a saving throw against this effect if the target has hit with a melee attack since the end of its last turn.

SKY HUNTER

"The eagle is the perfect predator. Not bound to earth, it hunts like a primal spirit in the world."

Prerequisite: Druid, wild shape power

Although the Primal Beast usually appears as a mammalian predator, some aspects of the Primal Beast soar through the sky on feathered wings, hunting prey from the air. Eagles, hawks, and falcons are no less fierce predators than panthers and wolves, and some druids assume their forms to fly after their own prey.

You are such a druid, a sky hunter who emulates birds of prey in your beast form. Your beast form can't always fly, but it can take to the air from time to time. Some sky hunters assume a beast form a little like a cockatrice—a stalking predator with primitive wings that allow it to fly in short bursts. Others retain their normal beast form but change momentarily into a bird form when they use their sky hunter powers.

SKY HUNTER PATH FEATURES

Sky Hunter's Action (11th level): When you spend an action point to take an extra action, you can fly your speed before taking that action.

Master of Wings (11th level): You gain a +2 bonus to attack rolls against flying creatures.

Beast Senses (16th level): Whenever you use a beast form daily power, you gain a +5 power bonus to Perception checks until the end of the encounter.

Target: One creature

Attack: Wisdom vs. Reflex

You can take the form of a swift bird of prey to soar above your foes.

Daily ♦ Primal

Free Action

You transform into a dire eagle, swooping from the air to batter your foes with the thunder of your wings.

Daily ♦ Beast Form, Implement, Primal, Thunder Standard Action Personal

Until the end of the encounter, while you are in beast form you can assume this eagle form and fly your speed as a move action. At the end of that action, you must land, and you return to your normal beast form.

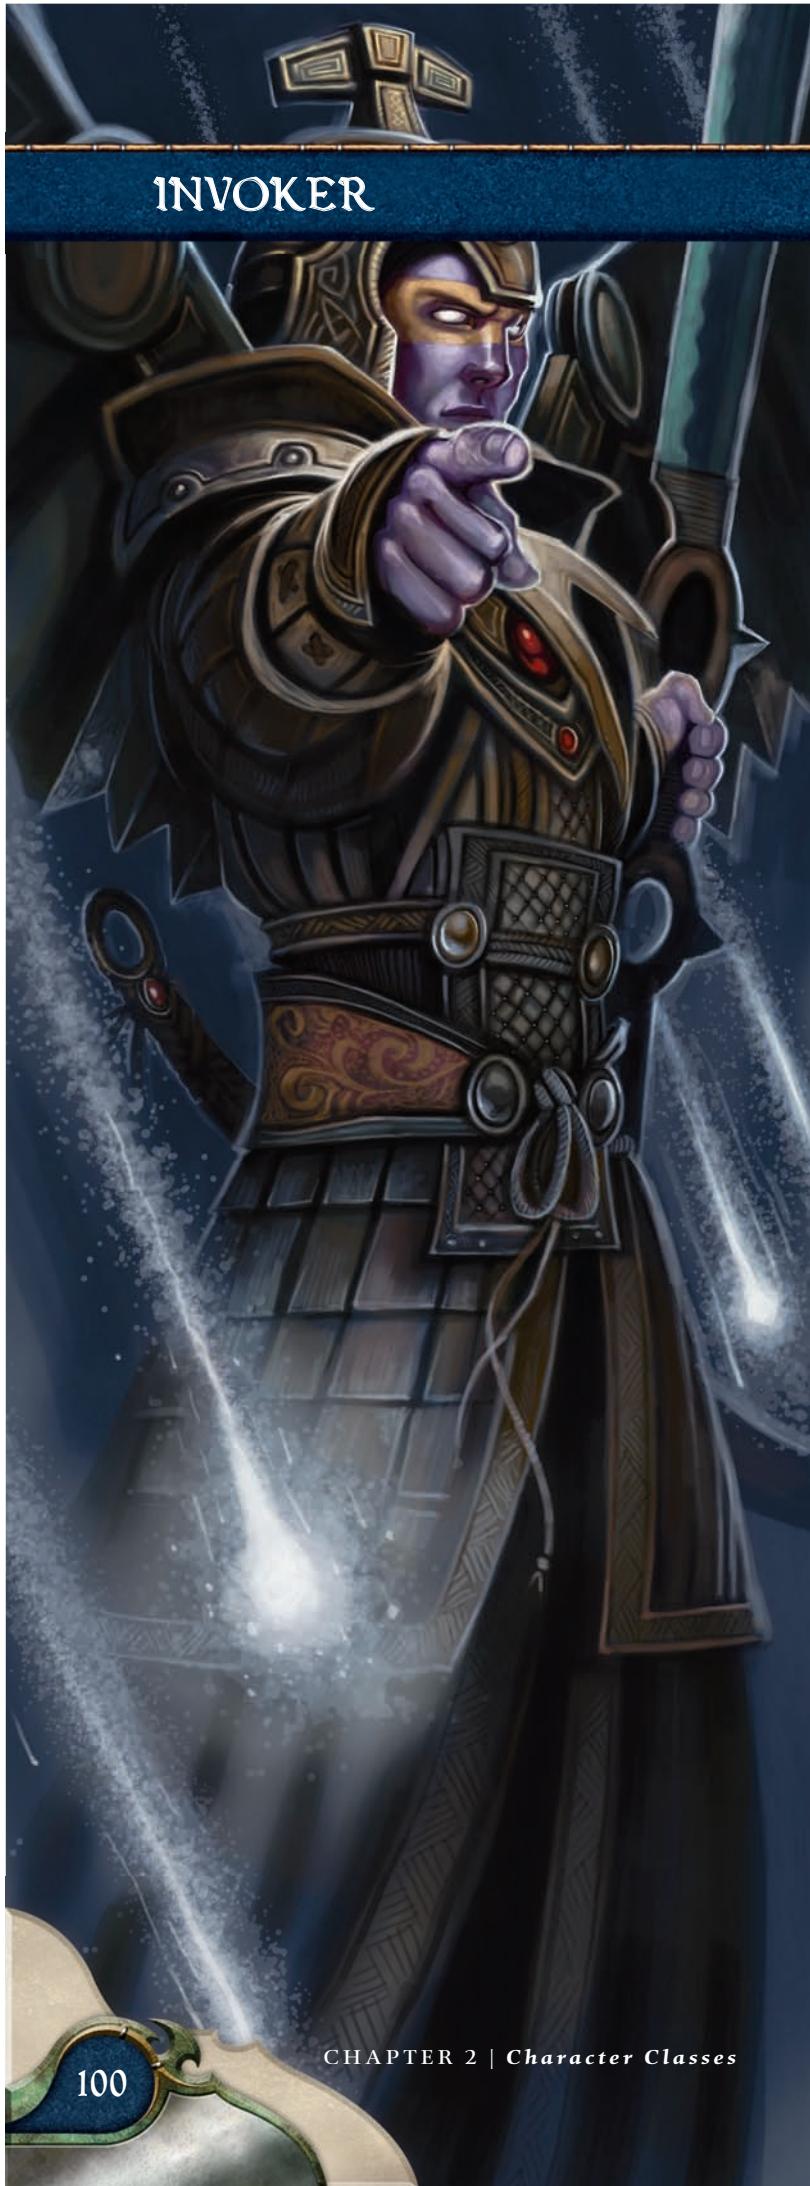

Target: Each enemy in burst

Miss: Half damage, and the target is slowed until the end of your next turn.

Class Features: Channel Divinity, Divine Covenant, Ritual Casting

At the dawn of time, the gods who inhabited the Astral Sea warred with the primordials of the Elemental Chaos, the mighty beings who shaped the world out of formless void. The greatest of the gods' mortal agents in that war were invokers, imbued with a fragment of the gods' own might to fight alongside them. No other mortal servant of the gods can claim the same kind of power. Through rites of investiture, avengers, clerics, and paladins gain the ability to manifest echoes of that power, uttering careful prayers and channeling divine energy through their holy symbols. You, however, channel your god's power directly. No mere symbol can contain it, for you speak the words of creation, shaping the universe to your and your god's will.

Perhaps you were trained in a secret monastery, or you studied in a library where the universe's oldest lore was preserved. Or perhaps you experienced the presence of your god firsthand and took a shard of

divine power into yourself. You might even be an immortal born into flesh, slowly awakening to the awesome divine power that is your birthright. Whatever your past, you are among the gods' most trusted servants, bound to a covenant in which you swore to use divine power with great care. To what end will you wield that might?

INVOKER CLASS FEATURES

Invokers have the following class features.

CHANNEL DIVINITY

Once per encounter, you can use a Channel Divinity power. You start with two Channel Divinity powers: *rebuke undead* and a power determined by your Divine Covenant. You can gain additional Channel Divinity powers by taking divinity feats.

DIVINE COVENANT

Invokers wield ancient divine power that is not accessible to most mortals—only to those who enter into a personal covenant with a god. Invokers undergo long years of study and testing. Only after that time are they allowed to enter into the final covenant that grants them access to this class's powers. Some say that, in the final swearing of the covenant, the invoker's god briefly manifests, but the details of an invoker's initiation are a closely held secret.

Choose one of the options described below. The Divine Covenant you choose provides you with a Channel Divinity power and a covenant manifestation that takes effect whenever you use a divine encounter or daily attack power. Your choice also provides bonuses to certain invoker powers, as detailed in those powers.

COVENANT OF PRESERVATION

The gods have charged you to defend the faithful and to ally with those who seek to defeat the gods' enemies.

Channel Divinity: You gain the Channel Divinity power *preserver's rebuke*.

Covenant Manifestation: When you use a divine encounter or daily attack power on your turn, you can slide an ally within 10 squares of you 1 square.

COVENANT OF WRATH

You have sworn to seek out and destroy those that oppose the gods. Primordials, demons, and devils fall before your magic like wheat before a scythe.

Channel Divinity: You gain the Channel Divinity power *armor of wrath*.

Covenant Manifestation: When you use a divine encounter or daily attack power on your turn, you gain a bonus to the damage roll equal to 1 for each enemy you attack with the power.

RITUAL CASTING

You gain the Ritual Caster feat as a bonus feat, allowing you to use magical rituals (see Chapter 10 of the *Player's Handbook*). You own a ritual book, and it contains two rituals of your choice that you have mastered: Hand of Fate and one 1st-level ritual.

Once per day, you can use Hand of Fate without expending components.

IMPLEMENT

Invokers do not make use of holy symbols, since they believe that their magic predates and transcends such representations of divine power. Instead, invokers make use of rods and staffs as representations of the gods' dominion over the world. When you wield a magic rod or a magic staff, you can add its enhancement bonus to the attack rolls and the damage rolls of invoker powers and invoker paragon path powers that have the implement keyword. Without an implement, you can still use these powers.

INVOKERS AND DEITIES

Choice of Deity: Like other divine characters, invokers are dedicated servants of one or more deities. Most invokers devote themselves to a single deity, but all invokers recognize the entire pantheon as worthy of respect (see “Deities,” *Player’s Handbook*, page 20). Whereas a cleric might revere Corellon and despise Lolth as a rival and enemy, an invoker dedicated to Corellon recognizes Lolth and her servants

INVOKER OVERVIEW

Characteristics: Your powers are aimed at controlling your foes: slowing, stopping, or compelling their movement; weakening their attacks; or hedging them in zones of divine fire. You summon angelic beings to face your enemies, and you empower your allies to fight with divine fervor.

Religion: Like clerics, invokers can worship any deity, but few invokers serve gods who are newer arrivals to the pantheon, such as the Raven Queen and Vecna. Invokers dedicated to Bahamut often revere Tiamat as well, worshiping those two gods as the two halves of the slain dragon-god Io. More than most other divine characters, invokers offer prayers to and call on favors from the entire pantheon, for all the gods, whatever their alignments, fought together against the primordials.

Races: Dwarves and devas make particularly good invokers; both the dwarven devotion to the gods and the devas’ heritage lend themselves to the invoker’s worldview. Ancient and long-lived, eladrin and elves have a racial memory that keeps alive the legends of the first wars between the gods and the primordials, and the two races often follow in the paths of the first invokers. Invokers can be found among all races, however.

as comrades in arms against the forces that seek to destroy the world and the gods. That's not to say that you can't oppose the evil schemes of Lolth's followers if you're dedicated to Corellon, only that you shouldn't lose sight of the grander scheme of things.

Choice of Alignment: Invokers don't gain their power through rites of investiture or ordination, as avengers, clerics, and paladins do. You bear the touch of your god's own hand on your soul, a direct channel through which divine power can flow into the world, shaped by your will. Because you strive to bring your will into perfect accordance with your deity's, your alignment must match your deity's. For instance, an invoker of Moradin must be lawful good, an invoker of Pelor must be good, and an invoker of Ioun must be unaligned.

CREATING AN INVOKER

Invokers rely on Wisdom—as an expression of their link to the divine will—for the accuracy and potency of their attacks. Each invoker enters into a covenant with a god, a sworn pact in which the invoker agrees to fulfill certain duties in exchange for the divine power he or she will use to carry out those duties. The two most common covenants—the Covenant of Preservation and the Covenant of Wrath—lend themselves to two common invoker builds. Even though you must choose a covenant, you can choose any powers you like to help you fulfill it.

PRESERVING INVOKER

You defend your allies, combining defensive magic with prayers that hinder or prevent your enemies' attacks. Wisdom should be your highest ability score, followed by Intelligence, since you need foresight and cunning to protect your allies. Choose powers that grant defensive benefits to your allies or penalties to your enemies. The preserving invoker leans toward leader as a secondary role.

Suggested Class Feature: Covenant of Preservation

Suggested Feat: Insightful Preservation

Suggested Skills: Arcana, Diplomacy, History, Religion

Suggested At-Will Powers: sun strike, vanguard's lightning

Suggested Encounter Power: blades of astral fire

Suggested Daily Power: binding invocation of chains

WRATHFUL INVOKER

You are an instrument of divine wrath, smiting those who have the temerity to doubt the reach of your god's power. Make Wisdom your highest ability score, followed by Constitution, since your physical durability allows you to withstand and channel divine wrath. Focus on powers that bring ruin to your foes. The wrathful invoker leans toward striker as a secondary role.

Suggested Class Feature: Covenant of Wrath

Suggested Feat: Invoker Defense

Suggested Skills: Endurance, Insight, Intimidate, Religion

Suggested At-Will Powers: avenging light, grasping shards

Suggested Encounter Power: thunder of judgment

Suggested Daily Power: purging flame

INVOKER POWERS

Your invoker powers are called prayers, but they are not as much supplications to the gods as direct manifestations of divine power.

PARAGON PATHS

ANGELIC ASPECT

"I am one with the angels that serve my god."

Prerequisite: Invoker

During the gods' ancient war against the primordials, invokers were their most trusted mortal servants, allowed to wield the raw divine power typically reserved for the gods' immortal agents, the angels. Over time, the distinction between the most favored mortal invaders and the angels themselves became hard to define. Some invaders drew so much divine energy into themselves that they took on angelic aspects. Some angels, conversely, emptied themselves of divine essence and clothed themselves in mortal flesh as invaders, voluntarily limiting their own power in order to serve as more effective divine agents in the world.

One of those paths is yours, and it has led you to this point: You are neither fully mortal nor fully angel, but some of both. As an angelic aspect, you can channel divine energy through your mortal body to take on angelic characteristics: resistance to the forces of dark and light, an awesome presence that

strikes fear into the hearts of those who try to strike you, wings to fly across the field of battle, and mighty attacks akin to those of angels.

If you were born mortal, your transformation is beginning; you are on the threshold of becoming something more, and immortality awaits. If you have always been an angelic being veiled in flesh, the veil is beginning to part and your true nature is being revealed. Either way, your enemies have much to fear.

ANGELIC ASPECT PATH FEATURES

BLIGHTSPEAKER

"Pelor is compassionate, but the wicked deserve the punishment I bring to them in his name."

Prerequisite: Invoker

Divine wrath can manifest as punishing blasts of radiant light, as fire from the heavens, or as thunder and lightning that smite the gods' foes. Sometimes, though, the gods' anger is manifested in plagues and curses upon the wicked. Even good deities can resort to extreme methods to purge the world of corruption.

As a blightspeaker, you wield such extreme methods in your god's name. Like an angel of death, you wield the scythe of necrotic power and harvest life from your enemies to fuel your own strength. To the common folk, you are a frightful presence, a grim reminder of your god's darker side. To your enemies, you are a terror, a manifestation of the judgment that has been pronounced upon them and of the punishment that awaits.

FLAME OF HOPE

"I do not aspire to greatness. I hope instead that my actions can kindle the flame of greatness in others."

Prerequisite: Invoker

When the gods warred with the primordials at the dawn of time, the gods fought to bring hope to the world they had helped to create. If the world had been left to the primordials, it would have been a fearsome place, dominated by tyrants who might destroy and remake any part of the world without warning. All the mortal inhabitants of the world might have been slaves, as the dwarves were enslaved by the titan servitors of the primordials. At best, they might have been terrified fugitives, hiding in despair from the wanton destruction of the world's elemental rulers.

Because the gods fought the primordials and freed the world from their dominion, the mortal races can live in hope. It is your sacred trust to nurture the embers of hope in the world and stir them into great bonfires that shed light into the world's darkest places. As a flame of hope, you wield powers of fiery radiance that heal and inspire your allies while burning and blinding your foes.

HAMMER OF VENGEANCE

"By the hammer Guldarak, Moradin will have vengeance against his foes. And I will deliver it."

Prerequisite: Invoker

During the war against the primordials, Moradin and Kord worked together to forge Guldarak, "the God Hammer." They crafted the hammer out of raw thunder and bound its handle with rings of lightning. Moradin was the first to wield the hammer, taking it into the Great Dismal Delve in the heart of the Elemental Chaos. Moradin used the God Hammer to shatter the stone that protected the primordial Zurtharak, who was called the Vein of Iron for the way he burrowed and twisted through solid stone. With Kord and Bahamut at his side, Moradin then used the hammer to shatter the primordial's body.

Several other gods wielded Guldarak during the war, and the hammer became a symbol of divine vengeance. Each time the primordials scored a victory against the gods, a god lay a hand on Guldarak, swore an oath of vengeance, and then took up the hammer and carried out that oath.

Like Guldarak, you are an instrument of divine vengeance, wielding thunder to smite your god's foes. Thunder wards your allies and dazes your enemies, and can even teleport your allies to your side.

Class Features: Companion Spirit, healing spirit, speak with spirits

Shamans are inspiring and dangerous battle leaders. They command powerful spirit guides, and through them lead their allies. These nature spirits bolster their allies' attacks and offer protection and healing when needed.

In a rite of passage or initiation, you pledged yourself to the spirits, to be their voice and hands in the world. Through ancient song and sacred ceremony, you have called a powerful spirit companion to your side. The primal spirits of nature affirm your will, guide the actions of your allies, and deal mighty attacks against your foes. You might be a venerable advisor to a tribal leader, a young traveler seeking to bring tales of a wider world back to your people, or a scholar devoted to the pursuit of nearly forgotten lore.

The spirits and voices of nature guide your every step. Their power flows through you, calling you to lead, to fight, and to triumph.

SHAMAN CLASS FEATURES

Shamans have the following class features.

COMPANION SPIRIT

As part of your initiation as a shaman, you acquired a spirit companion, an animal spirit that accompanies and assists you. Many shaman powers have the spirit keyword (page 220). Your spirit companion must be present when you use such a power.

You gain the *call spirit companion* power, which allows you to call your spirit companion to your side. In addition, choose one of the following Companion Spirit options. Your choice provides you with a Spirit Boon as well as a special attack made through your spirit companion, and your choice determines one of your at-will attack powers. Your choice also provides bonuses to certain shaman powers, as detailed in those powers.

PROTECTOR SPIRIT

You draw on the strength of the bear or a similar protective spirit to defend and bolster your allies.

Spirit Boon: Any ally adjacent to your spirit companion regains additional hit points equal to your Constitution modifier when he or she uses second wind or when you use a healing power on him or her.

Spirit's Shield: You gain the *spirit's shield* power, an attack you make through your spirit companion as an opportunity action.

At-Will Attack Power: You gain the *protecting strike* power. You choose a second at-will attack power as normal.

STALKER SPIRIT

You call on the stealth and cunning of the panther or a similar stalking spirit to empower and position your allies.

Spirit Boon: Any ally adjacent to your spirit companion gains a bonus to damage rolls against bloodied enemies equal to your Intelligence modifier.

Spirit's Fangs: You gain the *spirit's fangs* power, an attack you make through your spirit companion as an opportunity action.

At-Will Attack Power: You gain the *stalker's strike* power. You choose a second at-will attack power as normal.

CUSTOM SPIRIT COMPANIONS

Whichever type of spirit companion you choose, it can have any appearance you like. If your character's culture reveres the basilisk as the embodiment of the stalker spirit, your spirit companion might resemble a basilisk. Or you could decide that your dragonborn shaman's protector spirit looks like a rage drake. A drow shaman's spirit companion might look like a spider or a lizard.

HEALING SPIRIT

You gain the *healing spirit* power. Through this power, you grant your allies additional resilience with a short evocation of primal power.

SPEAK WITH SPIRITS

You gain the *speak with spirits* power. You are aware of the constant presence of spirits that float at the edges of reality. You can focus your inner energy and open your mind to these spirits, letting them guide your actions or fill you with insights.

IMPLEMENT

Shamans use totems carved to resemble the spirits they most commonly call upon, particularly their spirit companions. When you wield a magic totem, you can add its enhancement bonus to the attack rolls and the damage rolls of shaman powers and shaman paragon path powers that have the implement keyword. Without an implement, you can still use these powers.

CREATING A SHAMAN

All shamans rely on Wisdom, and they also benefit from a high Constitution or Intelligence. You can choose any shaman powers you like for your character, though many shamans favor one of two different builds, letting their power choices be shaped by the form of their spirit companions.

BEAR SHAMAN

You excel at protecting your allies and preserving life. Make Wisdom your highest ability score, followed by Constitution so that you can better lend health to

SHAMAN OVERVIEW

Characteristics: You lead your adventuring party from a position of relative safety, sending your spirit companion to the front of the battle while you linger behind. Your powers fall into two broad categories: melee attacks your spirit companion makes, and ranged attacks. Your daily powers include a number of conjurations and zones, representing your ability to call on additional spirits for aid.

Religion: Shamans draw their power from the primal power source and therefore don't usually worship gods. They view themselves as agents—not servants or masters—of the spirits of nature and instruct others how to live their lives in harmony with those spirits. Like druids, shamans call on the spirits to witness significant events but don't worship them.

Races: Elves, humans, and shifters are the most common shamans, putting their high Wisdom and innate connection to nature to good use in this class. Dwarves make excellent bear shamans, and devas excel as panther shamans.

your allies. You'll want a good Intelligence score to improve your AC as well. Choose powers that help guard your allies against attacks, restore hit points, or provide temporary hit points. Your secondary role is defender.

Suggested Class Feature: Protector Spirit

Suggested Feat: Shared Healing Spirit

Suggested Skills: Endurance, Heal, Nature, Perception

Suggested At-Will Powers: defending strike, protecting strike

Suggested Encounter Power: thunder bear's warding

Suggested Daily Power: spirit of the healing flood

PANTHER SHAMAN

You wield the spirits' power to see events before they unfold and to shape them as you like, guiding your allies' actions in battle. Wisdom should be your best ability score, then Intelligence so that you can increase your allies' tactical advantage. A high Constitution will improve your hit points and Fortitude. Choose powers that support your allies in melee, particularly allies who seek combat advantage and who relish quick movement. Your secondary role is striker.

Suggested Class Feature: Stalker Spirit

Suggested Feat: Stalker Spirit Adept

Suggested Skills: Athletics, Heal, Nature, Perception

Suggested At-Will Powers: stalker's strike, watcher's strike

Suggested Encounter Power: twin panthers

Suggested Daily Power: wrath of the spirit world

SHAMAN POWERS

Your powers evoke primal spirits that you view as partners and revered elders. Many of your powers channel primal energy through your spirit companion and have the spirit keyword (page 220), including powers that have "spirit" as part of the range. Those powers treat your spirit companion's space as the origin square for the power, so "melee spirit 1" means you can target a creature adjacent to your spirit.

Other shaman powers call on other spirits to intervene in the course of battle on your behalf, and many of those spirits then channel their energy through your spirit companion either to benefit allies or to harm enemies.

PARAGON PATHS

DISCIPLE OF THE WORLD SERPENT

"The whole world rests in the coils of the great serpent. You would be wise to learn its ways."

Prerequisite: Shaman, call spirit companion power

The World Serpent, legend says, is among the greatest of the primal spirits that established the natural laws of the world and is one of the staunchest defenders of those laws. When a divine exarch and the servant of a primordial joined forces in an attempt to tamper with the natural order, the World Serpent simultaneously crushed the life from them both. The earth is said to rest in this mighty serpent's coils, the motion of which shakes the ground.

As a disciple of the World Serpent, you are charged with maintaining the balance of the natural order and ensuring that creatures from beyond the mortal realm keep to their place. You wield the World Serpent's power, using it to pierce your foes with its fangs or crush them in its coils. Your spirit companion hinders the movement of your enemies as the World Serpent's coils echo through the space around it. GHOST PANTHER

"Do not trouble us again, or you will feed the panther spirits that stalk between the worlds."

The mystery of the primal stalker is that death is a constant presence in the midst of life; the death of the prey brings life to the predator. And when death comes to the predator, it brings life to scavengers and carrion feeders. Death is part of the great wheel of mortal existence, and an important part of the shaman's communion with the spirit world.

As a shaman, you have always walked close to death. Now you have set out on the path of the ghost panther, where life and death twine together still closer. GREAT BEAR SHAMAN

"Foulspawn cannot match the ancient powers of our land."

Prerequisite: Shaman, call spirit companion power

Many shaman traditions revere the Great Bear as the perfect example of the protector spirit. As a mother bear furiously guards her cubs against danger, so the Great Bear stands guard over the world, protecting it from those who would destroy or corrupt it, and so too do you, as a Great Bear shaman, protect your adventuring companions. Your spirit companion is your link to the Great Bear, channeling its strength and endurance to you through your evocations.

Your main purpose is to stand alongside other warriors and make them stronger. When you can, protect the weak. When you cannot, strengthen the strong to make them better protectors. As you pursue the path of the Great Bear shaman, your spirit companion channels the power of the Great Bear to harry your enemies, punishing them when they attack your friends. Your companion roars with the ferocious strength of the Great Bear, galvanizing your allies

into action. You give your allies additional attacks whenever you spur yourself to greater action, and you empower the attacks they make when enemies drop their guard.

SPIRIT TEMPEST

"The spirit wind is always blowing through the world. You need but feel it to draw on its power."

Prerequisite: Shaman, *call spirit companion* power

What is a spirit but an exhalation of the world, a distillation of life lived in the drawing and releasing of breath? The spirits of the world are alive, and that means they are in motion. They are a wind that blows through the world, even in the solid rock of the earth's deepest reaches.

As a spirit tempest, you tap into the movement of the spirit world, the wind that blows through all things. You draw on that movement to bring motion to the field of battle: You call spirit winds to transport yourself and your allies in the blink of an eye, to carry your healing power and the power of your attacks into larger areas, and to empower the attacks of your allies.

The spirits are the breath of the world. Breathe deeply, and let them move and guide you.

SORCERER

"I am in the arcane, and the arcane is in me."

CLASS TRAITS

Role: Striker. You channel powerful magical energy through your body, exerting control over wild arcane magic to blast foes. You lean toward controller as a secondary role.

Power Source: Arcane. Arcane magic is in your blood, as a touch of either ancient draconic power or untamed chaos energy, and you unleash it through sheer force of will and physical discipline.

Key Abilities: Charisma, Dexterity, Strength

Armor Proficiencies: Cloth

Weapon Proficiencies: Simple melee, simple ranged

Implements: Daggers, staves

Bonus to Defense: +2 Will

Hit Points at 1st Level: 12 + Constitution score

Hit Points per Level Gained: 5

Healing Surges per Day: 6 + Constitution modifier

Trained Skills: Arcana. From the class skills list below, choose three more trained skills at 1st level.

Class Skills: Arcana (Int), Athletics (Str), Bluff (Cha), Diplomacy (Cha), Dungeoneering (Wis), Endurance (Con), History (Int), Insight (Wis), Intimidate (Cha), Nature (Wis)

Class Features: Spell Source

The sorcerer is the arcane antithesis of the wizard. Wielding raw, barely contained magical power, sorcerers channel bursts and blasts of arcane energy through their bodies. They gain their power not through rigorous study of esoteric tomes, but by harnessing magic in their blood, waiting to be tapped and shaped. If wizards wield magic as fighters wield swords, a sorcerer's magic is the arcing greataxe of a raging barbarian.

You might be a proud dragonborn scion of ancient Arkhosia, calling on the draconic power of your heritage, or perhaps you were bathed in dragon blood as an infant to fill you with that power. You might have been born in a place where planar forces converged in strange eddies, infusing you with chaos, or perhaps you survived implantation of a slaad embryo, which left the taint of chaos upon you.

Magic pulses through your veins, calling on you to give it expression. As it grows ever stronger, will it consume you or transform you into magic incarnate?

SORCERER CLASS FEATURES

Sorcerers have the following class features.

SPELL SOURCE

As a sorcerer, you gain power through an instinctive or inborn connection to an ancient arcane source. Choose either Dragon Magic or Wild Magic. The choice you make grants you specific features and also provides bonuses to certain sorcerer powers, as detailed in those powers.

DRAGON MAGIC

The elemental power of dragons flows through you, infusing your spells with draconic strength. Through force of will, you tap into the arcane might of dragons.

Draconic Power: You gain a bonus to the damage rolls of arcane powers equal to your Strength modifier. The bonus increases to your Strength modifier + 2 at 11th level and your Strength modifier + 4 at 21st level.

Draconic Resilience: While you are not wearing heavy armor, you can use your Strength modifier in place of your Dexterity or Intelligence modifier to determine your AC.

Dragon Soul: Choose a damage type: acid, cold, fire, lightning, poison, or thunder. You gain resist 5 to that damage type. The resistance increases to 10 at 11th level and 15 at 21st level.

Your arcane powers ignore any target's resistance to that damage type up to the value of your resistance.

Scales of the Dragon: The first time you become bloodied during an encounter, you gain a +2 bonus to AC until the end of the encounter.

SORCERER OVERVIEW

Characteristics: As an arcane striker, you have a resemblance to the warlock. However, more of your powers create bursts or blasts of elemental forces to damage multiple foes, and your magic is the result of powerful arcane forces in your blood rather than the result of pacts you have made with mysterious entities.

Religion: If the diverse lot of sorcerers has one quality in common, it's a high opinion of themselves. Many sorcerers dream of becoming gods one day, and the majority find it hard to supplicate any being more powerful than themselves. That said, dragon sorcerers often nod to Bahamut or Tiamat, and some chaos sorcerers acknowledge Avandra, Corellon, and Sehanine for their inclinations toward wild magic.

Races: Dragonborn are the iconic dragon sorcerers, giving arcane expression to the draconic blood that flows in their veins. Half-elves are also often dragon sorcerers. Halflings and drow make excellent chaos sorcerers. Gnomes and tieflings are often sorcerers as well.

WILD MAGIC

You draw your spells from the entropic forces of the Elemental Chaos. Whether tapping into the power of primordial beings or drawing strength directly from that plane, you unleash magic in wild surges.

Chaos Burst: Your first attack roll during each of your turns determines a benefit you gain in that round. If you roll an even number, you gain a +1 bonus to AC until the start of your next turn. If you roll an odd number, you make a saving throw.

Chaos Power: You gain a bonus to the damage rolls of arcane powers equal to your Dexterity modifier. The bonus increases to your Dexterity modifier + 2 at 11th level and your Dexterity modifier + 4 at 21st level.

Unfettered Power: When you roll a natural 20 on an attack roll for an arcane power, you slide the target 1 square and knock it prone after applying the attack's other effects.

When you roll a natural 1 on an attack roll for an arcane power, you must push each creature within 5 squares of you 1 square.

Wild Soul: When you finish an extended rest, roll a d10 to determine a damage type.

d10	Damage Type
1	Acid
2	Cold

You gain resist 5 to that damage type until the end of your next extended rest. The resistance increases to 10 at 11th level and 15 at 21st level.

While you have resistance to that damage type, your arcane powers ignore any target's resistance to that damage type up to the value of your resistance.

IMPLEMENT

Sorcerers wield daggers and staffs to channel their wild arcane power. When you wield a magic dagger or a magic staff, you can add its enhancement bonus to the attack rolls and the damage rolls of sorcerer powers and sorcerer paragon path powers that have the implement keyword. Without an implement, you can still use these powers.

Any dagger can function as a sorcerer implement. However, you don't gain a dagger's proficiency bonus when using the dagger as an implement.

CREATING A SORCERER

Charisma, Dexterity, and Strength are the most important ability scores for a sorcerer. You can choose any powers you like, but many sorcerers choose feats, skills, and powers to complement their Spell Source choice.

CHAOS SORCERER

Like the arcane power you wield, you can be reckless and hard to control. Charisma should be your highest ability score, followed by Dexterity. Select powers that use your high Dexterity to move your enemies, deal extra damage, or impose penalties on your foes.

Suggested Class Feature: Wild Magic

Suggested Feat: Arcane Spellfury

Suggested Skills: Arcana, Bluff, Endurance, Insight

Suggested At-Will Powers: chaos bolt, storm walk

Suggested Encounter Power: bedeviling burst

Suggested Daily Power: dazzling ray

DRAGON SORCERER

You command the ancient arcane power that flows through dragons. Make Charisma your highest ability score, followed by Strength. Select powers that use your high Strength to deal extra damage, grant yourself a bonus, or hinder your enemies.

Suggested Class Feature: Dragon Magic

Suggested Feat: Implement Expertise

Suggested Skills: Arcana, Athletics, History, Intimidate

Suggested At-Will Powers: burning spray, dragonfrost

Suggested Encounter Power: tempest breath

Suggested Daily Power: lightning breath

SORCERER POWERS

Like other arcane classes' powers, your powers are called spells. A sorcerer's arsenal is an eclectic mixture of deadly spells drawn from enigmatic or reckless traditions of magic. More studious arcane practitioners sometimes regard sorcerers as novices who play with dangerous power beyond their control, but the proof of their worth is in the havoc they wreak on their foes.

PARAGON PATHS

ARCANE WELLSPRING

"I don't care why it works. I just know it does."

Prerequisite: Sorcerer

Arcane power flows in all sorcerers, an innate part of them. For you, however, that power is like a geyser building up beneath the earth before it finally erupts with devastating and glorious force. Your connection to that power has always been easy, almost instinctual. It's so much a part of you that it slowly transforms you, making you into a being as much of the forces you channel as of flesh and soul.

As you walk the path of the arcane wellspring, you master a second damage type. You learn spells that channel both damage types or that surround you with swirling arcane energy. Ultimately, you gain the ability to transform yourself into arcane energy for a brief time.

ARCANE WELLSPRING PATH FEATURES

Double Resistance (11th level): If you have Dragon Magic, choose a second damage type for your Dragon Soul class feature. If you have Wild Magic, roll twice on the Wild Soul table after each extended rest. (If you get the same result a second time, roll

again.) Whichever of these two Spell Source options you have, you gain resistance to both damage types, and your arcane powers ignore any target's resistance to both types up to the value of your resistance.

Split Spell Action (11th level): You can spend an action point to target an additional creature when you use an arcane power that normally targets only one, instead of taking an extra action.

Antagonistic Transposition (16th level): When you use an arcane power that is an area or a close attack, you can teleport two creatures hit by the attack, swapping their positions before resolving the attack.

ARCANE WELLSPRING SPELLS

Twin Bolt

Arcane Wellspring Attack 11

Summoning internal reserves, you hurl a bolt of magic that reflects the two forces that infuse you.

Encounter ♦ Arcane, Implement; Varies
Standard Action **Ranged 10**

Target: One creature

Attack: Charisma vs. Reflex

Hit: $3d10 + \text{Charisma modifier}$ damage. The damage is the two types you resist with your Dragon Soul or Wild Soul class feature and with your Double Resistance path feature.

Special: You can choose to lose both of the resistances provided by your Dragon Soul or Wild Soul class feature and by your Double Resistance path feature for the rest of the encounter. If you do so, you can make two attacks with this power, each against a different target. Each target the attack hits takes $3d12 + \text{your Charisma modifier}$ damage, instead of $3d10 + \text{your Charisma modifier}$.

Sorcerous Wings

Arcane Wellspring Utility 12

Arcane power surrounds you and spreads out behind you to form wings.

Encounter ♦ Arcane; Varies
Minor Action **Personal**

Effect: Until the end of your next turn, you gain a fly speed of 6, and you can hover, and whenever an enemy makes an opportunity attack against you, that enemy takes $2d10 + \text{your Charisma modifier}$ damage. The damage is the two types you resist with your Dragon Soul or Wild Soul class feature and with your Double Resistance path feature.

Arcane Wellspring Attack 20

Your body becomes the energy that courses through you.

Daily ♦ Arcane, Implement; Varies
Standard Action **Personal**

In addition, when any creature makes a melee attack against you or when you first enter a creature's space on your turn, the creature takes $3d6 + \text{your Charisma modifier}$ damage. The damage is the two types you resist with your Dragon Soul or Wild Soul class feature and with your Double Resistance path feature.

DEMONSKIN ADEPT

"You see for yourself what becomes of my enemies."

Prerequisite: Sorcerer

Arcane magic is a form of power wielded for purposes both benevolent and malevolent. There is nothing inherently good or evil about it. Its moral value depends on the purpose to which it is put. At least, that is usually the case.

As a demonskin adept, you wield arcane power ripped from the depths of the Abyss, the home of demons. You incorporate the ritually treated skins of demons into your clothes and armor, and you use those skins to open conduits through which your spells are warped by the Abyss's unutterable evil. Perhaps you believe that good ends justify evil means, but how long can you maintain your desire for good when you allow such evil to touch your soul?

The power you wield is stolen, and the lords of the Abyss do not take kindly to being robbed. Although this path brings great power, it is power that comes at a sometimes terrible price. Count yourself lucky if the worst price you pay is your life.

DEMONSKIN ADEPT PATH FEATURES

Demon Fury (11th level): When you spend an action point to take an extra action, you and your allies gain a +3 bonus to attack rolls until the start of your next turn, and your enemies gain a +3 bonus to their attack rolls against you until the start of your next turn.

MIKE MAY

Variable Resistance (11th level): Once per encounter as a minor action, you can change the damage type that you resist through your Dragon Soul or Wild Soul class feature. Choose the new damage type from those available in the class feature.

Glimpse of the Abyss (16th level): When you score a critical hit, you and the target are blinded until the start of your next turn.

Like a howling demon, you channel your pain into greater power for your spells.

Requirement: You must be bloodied.

Effect: Until the end of the encounter, while you're bloodied, your arcane attacks deal 1d6 extra damage on a hit.

Swords of the Marilith

Demonskin Adept Attack 20

With a gesture, you fill the air about you with a marilith's slashing swords.

Daily ♦ Arcane, Implement, Zone

Standard Action **Close burst 3**

Target: Each enemy in burst

Attack: Charisma vs. Reflex

Hit: 3d6 + Charisma modifier damage

Effect: The burst creates a zone of whirling blades that lasts until the end of your next turn. When the zone appears, choose its effect:

- ♦ Any enemy takes 3d6 + your Charisma modifier damage if it starts its turn within the zone.
- ♦ Any enemy takes 1d6 + your Charisma modifier damage if it starts its turn within the zone. While within the zone, you and your allies gain a +4 power bonus to AC.

Sustain Minor: The zone persists, and you can change its effect.

DRAGONSOUl HEIR

"That's no dragon—it's a slug, content to sleep on a pile of coins. See my power, the same power wielded by the dragon lords of ancient Arkhosia: I, my friend, am truly a dragon."

Prerequisite: Sorcerer, Dragon Magic class feature

In the early years of the world, the mightiest sorcerers were dragons, powerful spellcasters who used the elemental magic churning in their blood to create devastating spells that cemented their hold over vast empires. Even as recently as the dragonborn empire of Arkhosia, dragons were the exemplars of the draconic sorcerer's path. In the present age, however, few dragons practice the art that their ancestors created.

Your path follows in the ancient footsteps of the greatest sorcerers the world has ever known, drawing on the traditions preserved from Arkhosia's dragon lords and the sorcerers before them, back almost to the beginning of the world. Wielding the same power as the dragons of old, you inure yourself to the dangers of battle, making your mere presence a threat to your foes as you wreath yourself in flames or lightning, acid or poison, cold or thunder, according to the nature of the draconic magic in your blood.

The dragons of old are alive in your soul, and their power is yours to command.

DRAGONSOUl HEIR PATH FEATURES

Draconic Durability (11th level): Your number of healing surges per day increases by two.

Draconic Resilience Action (11th level): When you spend an action point to take an extra action, you also gain a number of temporary hit points equal to one-half your level.

HOWARD LYON

WILD MAGE

"If you can control your power, you don't have enough."

Prerequisite: Sorcerer, Wild Magic class feature

The entropy of the Elemental Chaos flows in your veins. Your spells open arcane conduits to that plane and draw energy through—whatever energy is convenient, impelled and empowered by the force of chaos itself. Your spells might be unpredictable, but their randomness gives them power.

WILD MAGE PATH FEATURES

Chaos Action (11th level): When you spend an action point to take an extra action, you can roll a d6 to also gain one of the benefits below.

d6 Chaos Action Effect

- 1 You become invisible until the start of your next turn.
- 2 You teleport a number of squares equal to 5 + your Dexterity modifier.
- 3 You gain temporary hit points equal to one-half your level.
- 4 Until the end of the encounter, each ally within 5 squares of you gains resist 10 to the damage type you resist with your Wild Soul.
- 5 You teleport an ally and an enemy within 10 squares of you, swapping their positions.
- 6 You and each ally within 5 squares of you each make a saving throw.

Wild Surge (11th level): When you roll a natural 1 on an attack roll for an arcane power, you can take the miss result and your Unfettered Power class feature, or you can roll a d6 to substitute one of the results below.

d6 Wild Surge Effect

- 1 The attack misses, and you and the target teleport, swapping positions after you resolve the rest of the attack.
- 2 The attack misses, and you drop prone and slide 3 squares away from the target.
- 3 The attack misses, and both you and the target are dazed (save ends).
- 4 Reroll the attack roll. If you roll a natural 1 again, you take 2d10 + your Charisma modifier damage, and you can't use Wild Surge again during this encounter.
- 5 The attack hits instead of misses, and you are stunned until the end of your next turn.
- 6 The attack hits instead of misses.

WARDEN

"Get past me? You might as well try to push the mountains aside."

CLASS TRAITS

Role: Defender. You are sturdy and resilient, and you can assume bestial or treelike forms to destroy your foes. Depending on your choice of class features and powers, you lean toward either controller or striker as a secondary role.

Power Source: Primal. You are a primal champion, a guardian of the natural world and custodian of all living things.

Key Abilities: Strength, Constitution, Wisdom

Armor Proficiencies: Cloth, leather, hide; light shield, heavy shield

Weapon Proficiencies: Simple melee, military melee, simple ranged

Bonus to Defense: +1 Fortitude, +1 Will

Hit Points at 1st Level: 17 + Constitution score

Hit Points per Level Gained: 7

Healing Surges per Day: 9 + Constitution modifier

Trained Skills: Nature. From the class skills list below, choose three more trained skills at 1st level.

Class Skills: Athletics (Str), Dungeoneering (Wis), Endurance (Con), Heal (Wis), Intimidate (Cha), Nature (Wis), Perception (Wis)

Class Features: Font of Life, Guardian Might, Nature's Wrath

As mountains stand fast against the buffeting wind and trees bend but do not break in the storm, wardens are stalwart protectors who draw on the primal spirits of nature to defend the natural world from those who would corrupt or destroy it. Some wardens use the power of earth and stone to shield their allies from harm, whereas others summon the primal strength within themselves to increase their ferocity and tenacity.

As a warden, you might be the staunch defender of a tribe, chosen by the spirits to be your people's champion. Perhaps you were visited by spirits at a sacred grove and charged with protecting it against a spreading corruption. You might have been raised by a bear or nurtured by dryads, chosen from infancy to stand fast against nature's enemies.

Primal power waits in the ground beneath your feet, surges with every beat of your heart, and flows through your lungs with every breath. The world cries out to you, calling for a champion to defend it. Will you heed its call?

WARDEN CLASS FEATURES

Wardens have the following class features.

FONT OF LIFE

At the start of your turn, you can make a saving throw against one effect that a save can end. On a save, the effect immediately ends, preventing it from affecting you on your current turn. If you save against being stunned or dazed, you can act normally on your turn. If you save against ongoing damage, you avoid taking the damage.

If you fail the saving throw, you still make a saving throw against the effect at the end of your turn.

GUARDIAN MIGHT

Wardens connect with the natural world in a variety of ways to augment their fighting abilities. Choose one of the following options.

Earthstrength: While you are not wearing heavy armor, you can use your Constitution modifier in place of your Dexterity or Intelligence modifier to determine your AC.

In addition, when you use your second wind, you gain an additional bonus to AC equal to your Constitution modifier. The bonus lasts until the end of your next turn.

Wildblood: While you are not wearing heavy armor, you can use your Wisdom modifier in place of your Dexterity or Intelligence modifier to determine your AC.

In addition, when you use your second wind, each enemy marked by you takes an additional penalty to attack rolls for attacks that don't include you as a target. The penalty equals your Wisdom modifier and lasts until the end of your next turn.

NATURE'S WRATH

Once during each of your turns, you can mark each adjacent enemy as a free action. This mark lasts until the end of your next turn.

GUARDIAN FORM POWERS

Many of your daily powers are polymorph powers, which change your body into a guardian form, allowing you to take on the qualities of a beast spirit or a tree spirit. You remain in this form until the end of the encounter or until you choose to assume a new form. While you are in this form, you retain the ability to use your equipment and other powers.

In addition to a physical transformation, each guardian form power also grants you an attack you can make as a separate action (the action type is specified in the power description). You can use this attack once during the same encounter in which you use the guardian form power and only while you remain in that guardian form.

In addition, you gain the *warden's fury* and *warden's grasp* powers. You can use these powers against enemies to prevent them from harming those you protect.

CREATING A WARDEN

You can choose any warden powers you like for your character, though many wardens focus on powers that complement their choice of Guardian Might. All wardens rely on Strength. Wardens also benefit from a high Constitution or Wisdom, depending on which expression of warden they favor.

EARTH WARDEN

You draw primal power through a link with the land, and the power of the earth strengthens and sustains you. Make Strength your highest ability score, followed by Constitution, which increases your AC as well as your hit points if you choose the Earthstrength version of Guardian Might. Select powers that channel primal energy through the land around you, hindering your foes' movement or knocking them prone. You lean toward controller as a secondary role.

Suggested Class Feature: Earthstrength

Suggested Feat: Crushing Earthstrength

Suggested Skills: Athletics, Heal, Nature, Perception

Suggested At-Will Powers: *earth shield strike*, *strength of stone*

Suggested Encounter Power: *thunder ram assault*

Suggested Daily Power: *form of the willow sentinel*

WARDEN OVERVIEW

Characteristics: Boasting more hit points than most other characters of your level, you sometimes stand up to your foes by staunchly taking whatever punishment they throw at you. Thanks to the primal power coursing through you, you can throw it right back at them, manipulating the earth around you or altering your own form to hinder and punish your foes.

Religion: Like other primal classes, wardens generally disdain worship of the gods, which they view as interlopers in the natural world. Instead, they live in harmony with the spirits of beasts, trees, and stone that infuse the world. Some wardens, though, acknowledge some gods as peaceful partners of the primal spirits and look kindly upon such deities as Melora, Corellon, Kord, Moradin, and Pelor.

Races: Goliaths make ideal earth wardens, combining natural strength and endurance with a love of earth and stone. Longtooth shifters embody the ideals of the wild warden, channeling the beast within as a manifestation of the primal spirits. Humans, dwarves, dragonborn, and half-orcs are also commonly wardens.

WILD WARDEN

Your blood is a medium of primal power; nature's vigor pulses in your veins. Strength should be your highest ability score, followed by Wisdom, which increases your Armor Class if you choose the Wildblood version of Guardian Might. Select powers that awaken the primal power within you, turning you into a vicious predator. You lean toward striker as a secondary role.

Suggested Class Feature: Wildblood

Suggested Feat: Wildblood Cunning

Suggested Skills: Athletics, Intimidate, Nature, Perception

Suggested At-Will Powers: thorn strike, weight of earth

Suggested Encounter Power: wildblood frenzy

Suggested Daily Power: form of the relentless panther

WARDEN POWERS

Your powers, called evocations, channel primal energy through your body. Some draw their strength from the earth, others call on primal beast spirits, and still others evoke the spirits of trees and other plants.

PARAGON PATHS

BLOODWRATH GUARDIAN

"We are all animals. Only our arrogance separates us from our more wild kin."

Prerequisite: Warden

The primal power you wield has formed a bond between you and the natural creatures of the world. In their myriad forms, you see fractured reflections of a greater being: the Primal Beast, who was the world's first predator. All the hunting animals of the world—mighty lions and howling wolves, lowly ferrets and soaring eagles—hold a distant echo of the Primal Beast in their hearts.

In your commitment to protect the world from demons, aberrations, and other beings that would corrupt the balance of nature, you find yourself growing closer to the Primal Beast's perfection. That growth is reflected in your bloodwrath—the heightened speed you gain when you adopt a guardian form, and the fury that punishes the enemies you mark. At the pinnacle of your path, you at last gain the ability to take on the form of the Primal Beast.

HORNED CHAMPION

“Don’t speak to me of your petty concerns—speak to me of the world’s needs.”

Prerequisite: Warden

You have communed with the spirits of the land and have been found worthy of the horned champion’s mantle. You transcend the flesh you were born with to become the chosen vessel of nature’s spirits. Your duty is to take up arms against the fell creatures of the land, to put an end to their destruction, and to restore the splendor of the untamed wilds.

Becoming a horned champion is a transformative experience. Gone are the simple concerns that bound you to the world. You see the world on a grander scale, as an organism that must be protected against the abominations that would siphon its strength for dark purposes. You appear to have no ties to people or places, only to your weighty mission, leading many to feel as though you lack understanding of the individual’s plight. Although it’s true that you care little for the individual’s suffering, giving no more attention to a mortal’s difficulties than one would show to an insect, your concern encompasses the natural world and all things living in it. Thus, in a way, your ties to others are deeper than friendship, for they are forged from the bonds that connect all living things.

STORM SENTINEL

"Feel the wrath of the storm unleashed, for I am nature's champion and none shall stand against me."

Prerequisite: Warden

To many, there is no clearer expression of the power of nature than the raging fury of the storm. Churning clouds, crashing thunder, and blasting lightning are manifestations of the rage coursing through the world when its natural laws are violated and its purity corrupted. When gods or primordials overstep their bounds, when demons or aberrant beings try to tear the fabric of reality, the fury of a storm—and its cleansing rain—are part of nature's response.

Most wardens draw power from the earth. As an incarnation of the storm's wrath, your greatest primal power comes from the sky. Lightning flows in your veins, and thunder booms in your footsteps. As you advance along this path, you can transform yourself into wind and rain and can ultimately take on the aspect of storm's wrath.

VERDANT LORD

"I am one with the forest, and the forest is one with me."

Prerequisite: Warden

Like the trees of the forest, you draw strength from the loamy earth, from the water that spills from the sky and flows across the land, and from the radiance of the sun. You embrace the essence of the tree, becoming the forest's protector, its champion against those that would despoil it. When you use your primal powers, shoots of new growth emerge from the ground, flowers bloom, and trees straighten with renewed vigor.

You favor guardian form powers that let you take on treelike forms (such as *form of the willow sentinel*, *form of the oak sentinel*, and *form of the rowan sentinel*), but even when you take on other aspects, the earth responds with growth. As the culmination of this path, you can take on a form like that of a treant, smashing foes and objects alike with a weapon held in your branchlike fists.

FATESINGER

The Song of Heroes resonates in your soul. Until you can join the chorus, you share the wonder of its music with the world.

Prerequisite: 21st-level bard

In the darkest days of the divine war against the primordials, when those agents of oblivion seemed fated to tear down the divine works and unravel creation itself, the gods' heralds joined voices and spurred mortal champions to fight back. Their song made heroes of common folk, giving them the resolve to stand fast against the tide of enemies around them. These early heralds live on still in the legends and tales of their descendants, and without their emboldening song, the world might have come to an end.

You have studied the Song of Heroes, and you know that all great champions still hear its melody. They might not be aware of it, but at some point they, like you, caught a faint note of it. The distant strains of this ancient song—hidden in an uplifting tune, perhaps, or half-remembered in a stirring call to action—provide the inspiration that mortals need to rise above the mundane and become legends.

IMMORTALITY

You have heard the haunting melody of that ancient song. In that moment, when the words of creation echoed in the harmony of the cosmos, your life's purpose and final fate became clear. Now, your course changed, you devote your time to teasing out the fragments of this ancient song and binding them into a single work, restoring the Song of Heroes to the world to stir new champions to fight against the enemies of creation and safeguard the world for the future.

The Eternal Chorus: When you complete your Destiny Quest, you unlock the fullness of the glorious work, each elusive note captured in the proper order, the music clear. For the first time, you can perform the Song of Heroes in its entirety. The song's purity dissolves your form until you join the singers of yore in body and voice, blending your resonant tones with the rest of the chorus to carry the song forward into eternity.

FATESINGER FEATURES

Destiny Fulfilled (21st level): You can spend an action point to allow an ally within 20 squares of you to make an attack as a free action, instead of taking an extra action yourself. If the ally's attack hits, you regain the action point.

Fate's Clarity (24th level): Whenever you use your majestic word power, the target can roll twice on all attack rolls, saving throws, skill checks, and ability checks and use the result he or she prefers until the start of your next turn.

Heroic Inspiration (30th level): Whenever an ally within 5 squares of you spends an action point to make an attack, you and all allies can spend a healing surge as a free action.

FATESINGER POWER

Sustain Minor: The zone persists.

GLORIOUS SPIRIT

Glorious deeds live forever. You have been marked for immortality as a warrior spirit to guide future generations.

Prerequisite: 21st level, any primal class

Among the host of primal spirits that guard the world and maintain its natural order, the revered spirits of great mortal heroes stand as proud beacons guiding their living descendants to follow their paths. It is your destiny to stand with them, proving your worth by earning glory in battle. While you still live, you are not yet a Glorious Spirit, but your immortal kindred exult in your triumphs and strengthen you with some portion of their own power, awaiting the appointed day when you fight your last mortal battle and join them in the spirit world.

Battle against any worthy adversary fills your heart with joy and wins the acclaim of your unseen comrades. You harbor a special enmity for foes who would cheat death or inflict inglorious deaths on others. These foes above all you seek to send ahead of you into the dark.

IMMORTALITY

The great ancestral spirits you revere are those who take joy in mortal examples of valor and great endurance. Through your love of battle, you have won the approval of these spirits, and in return they offer you the chance to aid your descendants and those of like mind when your days are done.

Eternal Glory: You distinguish yourself during your final battle, fighting with unmatched valor. Whether you stand or fall, you finally behold the great company of Glorious Spirits, gathered to welcome you into their shining ranks. In a flight of wild joy, they lead you into the spirit world, where a great feast has been prepared in your honor. Leaving your mortal life behind, you become a true Glorious Spirit, an unseen presence on the battlefields of the world who fills living warriors with the courage and might needed to overcome their enemies.

GLORIOUS SPIRIT FEATURES

Worthy Foe (21st level): Once per encounter as a minor action, you can designate the enemy nearest to you as a worthy foe until the end of the encounter. Until the start of your next turn, your attacks against the worthy foe ignore any resistance and the insubstantial quality.

In addition, once per round, you can deal 2d8 extra damage to the worthy foe on a hit. If you can make multiple attacks against the worthy foe during your turn, you decide which attack to apply the extra damage to after all the attacks are rolled.

Finally, if you reduce the worthy foe to 0 hit points, you can spend a healing surge as a free action.

Seeker of Foes (24th level): Once per encounter as a move action, you can teleport to a space adjacent to any creature that you can see.

Effect: You fly and land in a space adjacent to the triggering enemy. This movement doesn't provoke opportunity attacks.

HARBINGER OF DOOM

Ill fortune follows in your wake.

Prerequisite: 21st level

You are an omen of storms, a herald of destruction, a spreader of calamity—wherever you go, destinies are unraveled and woven anew. You have broken free of the bonds of fate, and for you, nothing is written. Every step along your path, every decision you make, forces the future to shape itself accordingly. The ripples spreading from your choices can topple kings, wake ancient terrors, ruin kingdoms, and thwart the designs of the gods themselves.

The most dire consequences of your choices befall those people, realms, or causes to which you choose to give battle. Misfortunes, accidents, and natural disasters gather around your enemies when you are near—minor flukes at first, such as a hailstorm that ruins a crop, a messenger delayed by a few important hours when his horse throws a shoe, or a servant who forgets to secure a gate. You can't control these happenings, or even guess how they might take shape. In fact, ill chance often falls upon those you do not wish to harm, although not in the same measure as your enemies suffer. You dare not linger in places you love, lest you inadvertently destroy the things you hold dear.

IMMORTALITY

No one can know for sure what doom your existence portends. You might battle a dark overlord as a valiant champion of good. Your failure might cause the destruction of the kingdom you fought to defend, and your success might lead to the rise of an inflexible tyranny every bit as dangerous as the dark overlord you overthrew. Only at the end of your mortal life does your true purpose become clear.

Doom Fulfilled: You are drawn irresistibly to fulfill some ultimate doom—usually the catastrophic destruction of a great creature, a mighty realm, or a legendary artifact. When you triumph, fate repairs itself around you, and a new skein of destiny takes shape. In such a weaving, you no longer have a place, and you are hurled out of existence. Nothing remains of you, but you are remembered in the world's myths and legends as an agent of change and destruction. In some future time and place, you awaken with the dreadful knowledge that once again you must serve as doom's harbinger.

HARBINGER OF DOOM FEATURES

Shield of Ill Fortune (21st level): Whenever you roll a natural 1 on an attack roll, you can reroll it. If you roll a second natural 1, you can't reroll it. In addition, when any enemy rolls a natural 1 on an attack roll against you, that enemy is stunned until the end of your next turn, and you can slide the enemy 3 squares as an immediate reaction.

Master of Ill Fortune (24th level): Once per encounter, when a creature within 10 squares of you drops to 0 hit points or fewer, you can make a saving throw or spend a healing surge.

Doom's Reward (30th level): Whenever you make an attack and miss every target, you gain temporary hit points equal to one-half your level.

HARBINGER OF DOOM POWER

Harbinger of Doom Utility 26

A storm of disaster surrounds you, bringing doom to your foes.

Effect: Until the end of the encounter, any enemy within 3 squares of you grants combat advantage to your allies, cannot teleport, and takes 5 damage whenever it misses with an attack.

LOREKEEPER

All knowledge must be preserved. It must be saved and protected, for knowledge holds the key to who we are, what we were, and what we shall become.

Prerequisite: 21st level, Intelligence 21 or Wisdom 21, training in two knowledge skills

You are a font of knowledge, a peerless scholar, and a custodian of legends, myths, and, above all, truth. Though you content yourself with study and reflection, people come to you from all over the world, and beyond it, for an audience. They seek to apply your keen intellect and wisdom to any number of problems: locating a long-lost artifact, solving an impossible riddle, or devising a strategy to overcome a horde of raging berserkers. Others seek you out just to talk, learn, and expand their own understanding.

With such knowledge comes grave responsibility, for some truths are best kept secret. If you glibly reveal the location of a powerful weapon lost since the fall of an ancient civilization, you might very well doom the world to witnessing firsthand that weapon's power. If you withhold the cure to a plague, the deaths of its victims rest upon your shoulders. Ultimately, you must decide whether you hoard your knowledge or dispense it freely, and whether you have the wisdom to know what to reveal and what to hide.

IMMORTALITY

Lorekeepers are among the most learned people in the world, and they rely on their vast knowledge to battle those who embrace ignorance and reject civilization.

Grand Library: The ultimate expression of your temporal power is the construction of a grand library to hold your collection. By the time you complete your Destiny Quest, you have acquired more books, manuscripts, and other texts than you can catalog. The only way to prevent certain suspect writings from falling into the wrong hands is to construct a place to protect them. Whether you build your edifice in the mortal world, adrift in the Astral Sea, or hidden within the City of Brass, Sigil, or Gloomwrought, this grand library ensures your immortality. The library reminds all who behold its wonders of your single-minded commitment to preserving lore and your great deeds in pursuit of knowledge.

LOREKEEPER FEATURES

Lorekeeper's Wisdom (21st level): Whenever you make a knowledge check or a monster knowledge check, you can roll twice and use either result.

In addition, your attacks deal 2 extra damage on a hit against creatures whose origins are within the purview of your trained skills. For example, if you are trained in Arcana, your attacks deal 2 extra damage on a hit against elemental, fey, and shadow creatures.

Lorekeeper's Cunning (24th level): When you are making a skill check for any ritual, you can roll twice and use either result.

You can double the time it takes to perform a ritual to reduce the component cost of that ritual by half.

In addition, whenever you score a critical hit against a creature whose origin is within the purview of one of your trained skills, you gain a +2 bonus to attack rolls against that creature until the end of your next turn.

Lorekeeper's Revelation (30th level): Choose two of your daily utility powers. Those two powers are now encounter powers for you. If you do not have two daily utility powers, you can immediately retrain your utility powers until you have two daily utility powers that then become encounter powers.

LOREKEEPER POWER

Lorekeeper Utility 26

You speak your foe's true name, revealing its weaknesses to your allies.

Encounter

Standard Action **Close burst 10**

Target: One creature in burst

Effect: Until the end of your next turn, you and your allies gain a bonus to damage rolls against the target equal to your Intelligence or Wisdom modifier.

PRIMAL AVATAR

You are the living embodiment of nature's power, a mighty primal spirit veiled in living flesh.

Prerequisite: 21st level, any primal class

You are one with the world around you. You hear the whispers of the trees as they speak of their ancient dreams, you taste the change of seasons carried on the four winds, and you understand the thoughts of beasts nearby. The world of spirit that exists alongside the physical world is as real to you as your own body; you perceive and move in both realms at the same time. Like the wisest and most powerful barbarians, druids, shamans, and wardens who have gone before you, you have no fear of death, for when you die, you will reside in the spirit world that you already know.

Many primal spirits are benign. Some are heedless of mortal concerns, and others are actively malevolent. Your power and attunement to their world draws these spirits' attention, for they perceive you even as you perceive them. Hostile spirits see you as a threat and seek to hamper your progress. But you have allies in the spirit realm too, friendly powers who nurture you, lending a measure of their own strength to support your cause. As your power grows, so too does your connection to the spirits of nature, until its sustaining power accompanies you wherever you go.

Your presence in the world has such resonance that a great primal spirit might seek you out to recruit you for a greater purpose. Whether you choose to bind yourself to the entity or not has no effect on your abilities, but service might result in physical manifestations that evoke qualities held by your patron. For example, if you ally yourself with a spirit of the woodlands, your hair might take on a leafy appearance that changes with the passing of the seasons; if you choose to serve a spirit of the hunt, you might acquire a bestial appearance and a shaggy mane; and if you serve an animal spirit of wisdom and guidance, you might grow a stag's antlers or develop hooves for feet.

IMMORTALITY

When your body's life comes to its end, you will continue to exist as one of the spirits of nature.

Mighty Among the Spirits: As you near the completion of your Destiny Quest, you feel the tug of something greater, some deeper force drawing you on and goading you to bring your mission to its conclusion quickly. Not long after finishing your final task, you walk from the world into the spirit realm, leaving your mortality behind. Freed from the bonds of your body, you join the host of spirits that protect the natural order and guide new champions to follow the trail you blazed.

PRIMAL AVATAR FEATURES

Primal Travel (21st level): When any enemy hits you with a melee attack, you can teleport 3 squares as an immediate reaction.

Spirit Boon (24th level): After each extended rest, choose one ability score. Until the end of your next extended rest, you gain a +1 bonus to attack rolls, skill checks, and ability checks related to that ability.

Eternal Return (30th level): Once per day, when you die and have at least two healing surges remaining, you can will yourself back to life. At the start of one of your turns within 10 rounds of your death, you can spend two healing surges to return to life. You return with hit points equal to your bloodied value and free of any effects that a save can end. You then take your turn normally.

Effect: Your body disappears, and you appear in spirit form in an adjacent space. While you are in this form, you are insubstantial and gain phasing. You also gain a fly speed equal to your speed, and you can hover. You can use at-will powers and encounter powers, but you cannot use daily powers, magic item powers, or rituals. You can remain in this form until you end it as a standard action, until you drop to 0 hit points or fewer, or until you take a short rest or an extended rest. When you leave this form, your body reappears, rejoined by your spirit, in your current space.

ERIC BELISLE

REVERED ONE

You peer beyond the mortal veil to apprehend a deeper, fundamental truth.

Prerequisite: 21st level, any divine class

As the result of long reflection, unflinching morals, and a lifetime of pious service to the gods, you have developed a powerful new philosophy of the mortal place in the cosmos. You have glimpsed the truth of the infinite, the timeless expanse to which mortal souls eventually go, and your insights have the power to change the world. Your teachings are destined to bring hope and enlightenment to people for centuries to come, for glimpses of truth lie within the words you have set down and within the story of your deeds.

Your philosophy might seem, at first glance, to trivialize the gods and their dominions, but you recognize that the gods are necessary intermediaries between mortals and the infinite. You therefore honor all deities as examples for mortals to learn from. Your sermons, your writings, or the stories of your life have the power to help followers of many different gods to understand the lessons of the mortal world.

The exact nature of your revelations is up to you. You might be a visionary who perceives the eventual fate of mortal souls and teaches others how their actions in this world influence their ultimate destinies. You might be a reformer whose teachings challenge inflexible, age-old doctrines of great temples. You might be a philosopher who maintains a creed of stoicism, a fiery condemnation of evil, or an ethical system of obligation to others. Or perhaps you instruct your initiates in darker truths that incite greed, hedonism, or tyranny—not all who follow this path find philosophies of peace and enlightenment, after all.

IMMORTALITY

The Revered One walks a perilous road, for not all powerful entities wish for enlightenment and understanding to dawn on the mortal world.

Truth Revealed: You have traveled to the farthest corners of the universe, stood fast against heavenly legions, battled armies of devils, and thwarted demonic hordes. You have traveled the Astral Sea's dominions and explored the Elemental Chaos in your search for understanding. At last you are within reach of the wellspring of all existence. Upon completing your Destiny Quest, you receive a vision, a golden path stretching into infinity. Unshakable in the power of your convictions, you take the first step on this final journey, slipping beyond this reality and vanishing from view. The road ahead is long and strange, but your journey is only beginning. For ages to come, mortals will follow in your footsteps, guided by your teachings and inspired by your example.

REVERED ONE FEATURES

Immortal Foe (21st level): Immortal creatures take a -2 penalty to attack rolls against you. In addition, you gain a bonus to damage rolls against immortal creatures equal to your Wisdom modifier.

Manifest the Divine (24th level): You can use each of your Channel Divinity powers once per encounter. In addition, you can select any Channel Divinity feat, even if you do not worship the required god.

Bestow Grace (30th level): When any ally within 20 squares of you drops to 0 hit points or fewer, you can spend a healing surge as an immediate interrupt. You regain no hit points from spending the surge, but the ally regains hit points as if he or she had spent a healing surge.

CHARACTER OPTIONS

TAKEN TOGETHER, class and race define most of your character's capabilities—but there's more to a character than capabilities. Your character's feats and equipment complement your powers and class features, while a developed background helps to flesh out your character into a three-dimensional person.

Backgrounds give only minor benefits in the game, but they're an important part of defining who your character is, not just what he or she can do. They suggest elements of personality and story that you can use while you play your character, and they're also a great hook your DM can use to connect your character to the adventures that await you.

Feats are a great way to customize your character, to tweak your abilities so they're just right for the character you want to play. The feats in this chapter are aimed primarily at the new classes and races that appear in this book.

Mundane and magic items guard your weaknesses and enhance your strengths. They ensure that your attacks and defenses keep pace with the increasingly dangerous monsters you face in your adventures.

Rituals extend your capabilities, giving you new ways to overcome obstacles and handle problems outside combat. A careful selection of rituals helps round off your character, making you ready to tackle whatever adversity comes your way.

This chapter includes the following sections.

- ◆ **Backgrounds:** Rules and extensive story ideas for fleshing out your character's past and its effect on the present.
- ◆ **Feats:** A wide selection of new feats for characters of every tier.
- ◆ **Adventuring Gear:** Basic equipment your character might need.
- ◆ **Magic Items:** New armor, weapons, implements, and other items geared toward the classes in this book.
- ◆ **Rituals:** New rituals, including some exclusively for bards and those that provide new options for all ritual casters.

HOWARD LYON

BACKGROUNDS

The Player's Handbook provides questions to help you think about your character's background. The suggestions here are resources you can use when you create a character, offering a wider variety of story hooks and adding a game benefit that reflects your character's history.

This section describes a number of background elements you can use as inspiration for fleshing out your character. You can choose any number of these background elements, but a good way to create a rich yet manageable background is to choose one element from each of three different categories. This book includes five categories: geography, society, birth, occupation, and racial backgrounds.

Regardless of how many background elements you use, when you create a character you can (with your DM's consent) select one of the following background benefits:

- ◆ Gain a +2 bonus to checks with a skill associated with your background.
- ◆ Add a skill associated with your background to your class's skills list before you choose your trained skills.
- ◆ Choose one language connected to your background. You can speak, read, and write that language fluently.
- ◆ If you are using a campaign setting that offers regional benefits (such as the FORGOTTEN REALMS setting), gain a regional benefit.

The background elements presented here are not the only ones possible. Use these ideas for inspiration in creating a background as unique as your character. Above all, remember that a background is more than a game benefit. It forms the foundation of your character, provides hints of what lies ahead in the campaign, and informs your character's personality.

GEOGRAPHY

This element describes the basic environment of the region in which you were raised.

Desert: You were raised in an arid wasteland, such as a sandy desert or rocky badlands. How did you and your family survive? Do you long for the simple life of the desert, or are you thankful to be free of its constant hardships? How do you cope with the overwhelming variety of sights and smells in urban environments?

Associated Skills: Endurance, Nature

Forest: You were raised in a wooded region, such as a forest or a jungle. Did you survive by foraging, or were you and your family hunters? Do you feel at one

with the forest, or is it merely a source of food to be harvested?

Associated Skills: Nature, Perception

Mountains: You were raised among the cold, craggy peaks of a mountain range. How often did you visit the lowlands as you were growing up? What brought you out of the mountains to become an adventurer?

Associated Skills: Athletics, Dungeoneering

Urban: You were raised in a large city. What part of the city did you grow up in? Did you stick to that area, or did you explore all the quarters of the city? Do you still have ties to your old neighborhood, or are you happy to forget your childhood?

Associated Skills: History, Streetwise

Wetlands: You were raised in a swamp, a river delta, or another marshy area. Which did you learn first—to walk or to swim? Do you distrust the feel of solid ground, or are you happy finally to have dry feet?

Associated Skills: Athletics, Nature

SOCIETY

This background element indicates your social and economic standing.

Poor: You grew up without a steady income. Were your family members peasants, servants, or unskilled laborers? Did you and your family have to beg in the streets to stay fed? What was the biggest sacrifice you or your family had to make to survive? How did you come to own your starting possessions?

Associated Skill: Streetwise

Wealthy: You grew up rich, never wanting for anything. What was the source of this wealth? Was it inherited, or did your family work for its riches? Was it obtained legitimately, or through underhanded methods? What kind of home did you live in? Was there ever a time when you knew what it was like to be hungry or desperate?

Associated Skill: History

Noble: You are a member of the aristocracy. Does your family have a noble rank? Are you the heir to a title, and if so, how many people stand between you and that title? Under what circumstances did you become an adventurer?

Associated Skills: Diplomacy, Insight

BIRTH

If one background element is common to many heroes, it is an unusual birth circumstance.

Among Another Race: You were born among a race other than your own. Did you grow up among the trees of an elven forest, deep in a dwarven

mountain fortress, or in a halfling caravan? Did your family live among that race when you were born, or did some other circumstance bring you there?

Associated Skill: A skill the other race gains a bonus to

Blessed: You received a great blessing from a complete stranger when you were born. What type of person blessed you? Was he or she associated with a particular religion? If so, are you a member of that faith? Did you stay in contact with this person, or do you distrust the motives behind the blessing? How does the blessing affect you?

Associated Skills: Insight, Religion

Cursed: You received a dire curse from a complete stranger when you were born. What type of person cursed you, and why? Did you ever see the stranger again? Were you shunned because of the curse? Do you carry an obvious mark of it? How does the curse affect you?

Associated Skills: Bluff, Religion

Omen: Your birth was marked by an unusual occurrence—perhaps a great storm, an eclipse, or the start or end of a battle. What was the omen? How was it interpreted? Were others born under the same omen, and if so, do you have any special relationships with them?

Associated Skills: Arcana, History

On Another Plane: You were not born in the world, but rather on another plane, such as the Feywild. What circumstances brought your ancestors to that plane? Were they natives of that plane, taken there against their will, or just visitors? When did you leave that plane, and what did you have to accomplish to escape it? Do you miss your birth plane, or do you dread returning to it?

Associated Skill: Arcana

Prophecy: Your birth was foretold in a prophecy. What does the prophecy say about you and about your future? Who, if anyone, believes the prophecy? Are you trying to fulfill the prophecy or to thwart it? The details of the prophecy might suggest further adventures to the DM.

Associated Skills: History, Religion

OCCUPATION

Before you became an adventurer, this was the way you earned your keep.

Artisan: You had a skilled occupation dedicated to a particular craft, such as baking, blacksmithing, carpentry, or cobbling. What did you make? Did you enjoy your work, or was it only a means of supporting yourself? What was your finest creation, and what happened to that item?

Associated Skills: Athletics, Diplomacy

Criminal: You lived on the wrong side of the law. What sorts of crimes did you commit? Did you enter a life of crime by necessity or by choice? Did you

belong to a gang? Do you still engage in occasional wrongdoing, or have you left that life behind? If the latter, what caused you to give up your criminal ways? Do you still have contacts among the criminal underworld? Do your former associates now consider you an enemy?

Associated Skills: Stealth, Thievery

Entertainer: You were a dancer, a singer, an acrobat, a storyteller, or another kind of performer. Were you a solo entertainer, or did you perform as part of a group? Were you well known? If so, do you still encounter admirers?

Associated Skills: Bluff, History

Farmer: You worked on a farm, learning the ways of the natural world. Did you raise livestock, crops, or both? Did your farm have a specialty? Did you or your family own the farm, or were you a hired hand? Do you miss those days, or were you eager to escape?

Associated Skills: Endurance, Nature

BACKGROUND EXAMPLES

Following are two examples of how to use the material in this section to craft a cohesive background for a character.

Born and raised in the grimy streets of a large city, Nerys developed a knack for getting others to follow her lead. Once she was old enough to help support her family, this talent enabled her to rise to the rank of sergeant in the city militia. With her parents and younger siblings taken care of and a little extra copper for herself, Nerys was more comfortable than she ever thought she would be. But when one of her childhood friends needed a favor, Nerys found herself on the wrong side of one of the city's smuggling syndicates. On the run from a crime boss with a grudge, Nerys has fallen in with a band of adventurers and is putting her street smarts to good use.

Nerys's player chose three background elements: urban (geography), poor (society), and military (occupation). Nerys added Streetwise to her class skills list.

Jahan is the only child of a noble house and was his parents' treasure from the day he was born. Indeed, at the moment of his birth, a pair of cranes appeared and circled the roof of his tower room three times. Jahan became a respected scholar while still young, focusing his studies on the history of his land. As dawn broke on the day when he would enter adulthood and become next in line for his family's title, the rising sun revealed a terrible scene: thousands of dead cranes lay strewn over the countryside. Weeks later, their crops mysteriously failing and their wells gone dry, commoners have begun to whisper that Jahan is the cause. The time has come for him to abandon his books and search for answers in the outside world.

Jahan's player chose three background elements: noble (society), omen (birth), and scholar (occupation). Jahan gains a +2 bonus to History checks.

Mariner: You worked aboard a ship. Was it a riverboat or a sailing ship? Were you a deckhand, a pilot, a marine, or an officer? How extensively did you travel? Where did you go? Was your vessel a merchant craft, a pleasure yacht, a transport vessel, or a pirate ship?

Associated Skills: Acrobatics, Perception

Merchant: You were engaged in the buying and selling of goods. What kinds of goods did you buy or sell? Were you an honest merchant, or did you take advantage of your customers? Did you or your family own the business, or did you work for someone else? Did you travel, or did you work at a shop or inn?

Associated Skills: Bluff, Diplomacy

Military: You served in a military organization, such as an army or a city guard. Were you conscripted, or did you volunteer? What was your rank? How did you leave the service? If you haven't left, describe the circumstances under which you still serve while also adventuring.

Associated Skills: Athletics, Endurance

Scholar: Your life once revolved around knowledge. What area of scholarship was your domain? Were you a teacher or a scribe, an architect or an astrologer, a barrister or a sage? Did others respect your theories, or did they scoff at your ideas? Do you still seek to learn and to teach, or have you given up academia for a life of adventure?

Skills: Arcana, Religion

RACIAL BACKGROUNDS

Something in your background sets you apart from others of your race.

DEVA

Brink of Enlightenment: You were an incredibly advanced soul during your most recent past life, close to achieving the epic transcendence that your spirit has sought through a thousand lifetimes. What interrupted your spiritual journey and led to your rebirth as an adventurer?

Associated Skill: Arcana

Brink of Corruption: In your most recent past life, your spirit was corrupted. Your evil was so great that you were nearly reborn as a rakshasa. Although your rebirth washed most of the taint from your soul, you still experience flashes of violent anger or sadistic thoughts. What led to your corruption? Were you tempted by power, or were you seeking to avert a larger evil by your actions?

Associated Skills: Intimidate, Stealth

Forgotten Lifetime: Although your memory of your past lives is vague, there is one—your most recent—that you can't remember at all. As far as you can tell, there is a gap of nearly a century during which you didn't exist. Did something interfere with

your reincarnation, or did something happen during that lifetime that prevents you from remembering it?

Associated Skills: Endurance, Thievery

DRAGONBORN

Dishonored: Some magnificent failure on your part resulted in the utter loss of your honor. Many dragonborn in your position would seek death, but you have not. Why? Were you wrongly accused? If not, what did you do that cost you your honor? Would you do it again? How might you regain your honor?

Associated Skills: Bluff, Streetwise

Rare Egg: The egg that you hatched from was unusual in a way that dragonborn consider auspicious. It might have had the appearance of burnished gold, carried a pattern that resembled a significant symbol, or broken cleanly into two pieces when you emerged. How much weight do you attach to this phenomenon? What do you think it means, and what did your parents think?

Associated Skills: Arcana, Religion

Brush with the Past: At some point in your life, you encountered some element of dragonborn history. You might have found a weapon forged in the lost empire of Arkhosia, discovered a fragment of parchment dating from that age, or dreamed of an ancient battle as if you had been there. How much of an impact did this encounter have on you? How does it motivate you now? Are you driven to rebuild the ancient glory of your race? Or are you embittered by the fall of Arkhosia and prepared to carve yourself a place in a new empire?

Associated Skills: History, Insight

DROW

Outcast: You were cast out from the city of your birth, most likely because of your failure to comply with the evil customs of your people or the terrible whims of Lolth's priests. Do you dream of returning and gaining revenge, or are you fleeing for your life?

Associated Skills: Dungeoneering, Perception

Orphan: The drow community in which you were born no longer exists. Perhaps an army of dwarves or elves wiped it from the Underdark, or it was exterminated by another drow city. Somehow, you survived this event. Did something about you prompt a member of the invading force to spare you and bring you to the surface?

Associated Skills: Dungeoneering, Endurance

DWARF

Outcast: Your family and clan have cast you out, severing the ties that are so important to the members of your race. What did you do to deserve this fate? Are you trying to earn your way back into your clan, or to make a great name for yourself and establish a new clan of your own? Are your fellow

adventurers a surrogate family for you, or are you a loner at heart?

Associated Skill: Bluff

Dedicated to an Ancestor: You were born on the same day of the year as one of your clan's ancestral heroes, and your parents dedicated you to that hero, whose name you share. What was that hero known for? Do you feel called to emulate your namesake's great deeds, or are you driven to make a name for yourself in a different way? Do you ever dream of your ancestor, or have feelings of *déjà vu*, as if you're walking in that hero's footsteps?

Associated Skills: Diplomacy, History

Ancestral Home Lost: During your youth, your clan's ancestral home was conquered by enemies or destroyed in a natural disaster. You were among the displaced survivors who built a new life, most likely in a nearby human settlement. Did your parents survive the disaster? If not, who raised you? Were the survivors welcomed into the new community, or were you ostracized? Do you dream of someday rebuilding your ancestral home?

Associated Skills: Nature, Perception

ELADRIN

Noble Birth: One of your parents is a noble eladrin. What was your noble parent's title? (Bralani of autumn winds, ghaele of winter, and couré of mischief and strife are examples of the many possible titles.) Do you feel a special affinity for a season, passion, or other natural or emotional phenomenon associated with your parent's title? You probably have much stronger ties to the Feywild than to the world. Why are you now adventuring in the world? When was the first time you visited the world, and what was your reaction to it?

Associated Skills: Intimidate, Nature

Estranged Fey: You were born in the world and never visited the Feywild before the start of your adventuring career. Were your parents exiled or killed? Were you raised by members of another race? Perhaps your trance is haunted by visions of the Feywild's lush landscapes. Or is the Feywild foreign to you, as strange as some distant nation?

Associated Skills: Endurance, Nature

Drowscarred: You carry a personal mark of an encounter with the drow—perhaps a physical scar, but more likely an emotional one. What happened? No doubt this encounter intensified your hatred of the drow. But is your hatred now mixed with fear? Or is it a burning drive to exact revenge? Perhaps something about the encounter gave you a trace of compassion for the drow. Do you hope that they might one day be redeemed and rejoin the eladrin fold?

Associated Skills: Dungeoneering, Heal

ELF

Fey Ally: You are very familiar with the Feywild and have close ties to your eladrin cousins or to other fey creatures. How did you end up with such ties? Perhaps invaders destroyed your family or your home, forcing you to flee to the Feywild. Did the eladrin take you in? It is possible that you have never lived among other elves. Why did you leave the Feywild? Were you cast out, or did you strike out on your own to see the world?

Associated Skills: Arcana, Insight

Wild Elf: You come from a particularly wild tribe, considered primitive by other elves. Why is your tribe so isolated? Did you lose contact with the outside world, or did your people shun civilization? Have you ever been to a city, or are such places the stuff of campfire tales?

Associated Skills: Acrobatics, Athletics

Urban Elf: You were raised in a city where another race was dominant. What drove your family to the city? Do your people live as humans do, or did you grow up in an elven enclave? Are you happy there, or do you long to return to the wild?

Associated Skills: Streetwise, Thievery

GENASI

Chaos Born: You spent some part of your early life in the Elemental Chaos—perhaps living in the efreets' City of Brass or in a githzerai monastery. Fond of traveling in the Elemental Chaos, you recently found yourself thrust through a portal into the world. Are you stranded in the world, or have you decided to stay for a while? Are you eager to return, or enjoying a life less plagued by elemental dangers?

Associated Skills: Arcana, Endurance

Academic Exhibit: Perhaps they created you, perhaps they summoned you, or perhaps they simply found you—however they acquired you, a cabal of arcane scholars treated you as the subject of fascinating study. You might have been on display, or you might have been kept hidden away from everyone except members of the cabal. Were you well treated, or were you locked in a cage? Did some catastrophe befall the scholars, allowing you to escape? Were you the catastrophe?

Associated Skills: Arcana, Thievery

GNOme

Fomorian Captivity: You were the captive of a fomorian overlord. Was your family captured, or were you born into captivity? How did you escape? Are you driven by revenge, or by a deep desire to stay as far away from fomorians as possible?

Associated Skills: Endurance, Stealth

Estranged Fey: Your parents abandoned the Feywild before your birth and never returned. Did your family leave the Feywild by choice or through necessity? Do you plan to return to the homeland you have never seen, or are you content with the place you have found in the world?

Associated Skills: Endurance, Nature

GOLIATH

Skywatcher: You were a respected advisor to your tribe. You helped your people avoid overhunting and overharvesting, scouted new territory, and oversaw seasonal celebrations. Now you are separated from your tribe, either by choice or by necessity. What happened? Did you make a decision that earned you bitter enemies in your tribe? Did a younger member rise to favor over you? Or did you feel a call to the world beyond your tribal lands?

Associated Skills: History, Religion

Lightlost: Your tribe members, brought near starvation by drought, followed a mountain spring to an underground river and found the food they needed to survive. Eventually forging an alliance with a nearby clan of dwarves, they adapted to a subterranean life and haven't emerged since. You are the first member of your tribe to see the sun in generations. Why have you emerged from the caves?

Associated Skills: Athletics, Dungeoneering

HALF-ELF

Wanderer: You have never lived in one place for more than a few months at a time. Why do you travel so much? Are you and your family on the run from something? Or were you a foundling who was raised by another wayfarer? Do you know where your family members are now, or have you lost touch with them in your travels?

Associated Skill: Streetwise

Cultural Half-Elf: Unlike most half-elves, you were raised as part of a half-elf community. Your parents were half-elves, and the mingling of elf and human blood in your veins goes back generations. Why did this community form? Did your people face prejudice from humans, elves, or both? Or have you had almost no contact with either race until now?

Associated Skill: History

Outcast: You were born in circumstances that made you unwelcome—in a community of elves where humans were hated, for example, or vice versa. What was the circumstance of your birth? How did your parents fit into the community? Did you leave by choice, or were you forced out? Do any lingering rivalries or enemies from your home still plague you?

Associated Skills: Endurance, Nature

HALF-ORC

Orc Birth: The child of an orc and a half-orc, you were born and spent your early years among orcs. You might have been destined for greatness, but something happened. Perhaps the tribe was slaughtered in an ill-fated raid or by a group of adventurers. Or perhaps a full-blooded orc challenged your half-orc parent's leadership, and you fled to avoid certain death. How do you feel about orcs now?

Associated Skill: Athletics

Stormtouched: Many half-orcs hold Kord in particular respect, even if they don't acknowledge him as the creator of their race. You had a brush with

OTHER BENEFITS IN PLAY

Your DM might decide to give your character a bonus to certain skill checks or other rolls in situations when your character's background could conceivably provide an edge. If your character's background includes an apprenticeship to a blacksmith, for example, the DM might give a bonus to Diplomacy checks when your character interacts with the baron's blacksmith, or a bonus to a Perception check when particular training could help your character notice something awry. Feel free to ask the DM about a "background bonus" if you see a possible connection.

Your character's background might also mean that he or she knows how to do certain things that have nothing to do with the game's skill system or other rules elements. If your character worked as a blacksmith, you don't need to make a skill check for your character to produce a horseshoe, or to earn a subsistence living as a blacksmith. There might be circumstances in which a well-defined background can give your character an edge in the game, even when the rules don't cover the situation.

Details of your background almost always involve other people—such as friends, enemies, family members, and former teachers. These bits of history offer a good opportunity for the DM to create nonplayer characters and situations that can be used later in the campaign.

a storm; perhaps you were born during a thunderstorm, or maybe you were struck by lightning as a young adult. Now Kord's touch is on you, and it's clear that he has some particular destiny in mind for you. But what is it?

Associated Skills: Nature, Religion

First Generation: One of your parents was a human, and the other was an orc. What circumstances brought them together? Who raised you? Were you welcome in your home village or city, or treated as an outcast?

Associated Skill: Bluff

HALFLING

Storyteller: You are a font of halfling folklore, able to spin fables and legends relevant to virtually any situation. Hidden in these tales is a wealth of useful information about halfling history and culture. How did you learn them? Which of the stories do you consider most important? Did the stories spur you to a life of adventure, and if so, why?

Associated Skills: History, Religion

Avandra's Kiss: Your birth was accompanied by an unusual occurrence that your family regarded as a sign of Avandra's favor. Perhaps a bird perched on the windowsill of the room where you were born, or you have a birthmark resembling Avandra's holy symbol. What is the mark or occurrence that reveals this favor? How did it affect your childhood and training? Does it affect your plans for the future?

Associated Skills: Acrobatics, Heal

Banned: You have been cast out of your community, and members of your own family are forbidden to speak to you or even breathe your name. What did you do to earn this shame? Does anyone back home miss you or sympathize with your plight? Is there a price on your head, or does your past otherwise threaten to overshadow your future?

Associated Skills: Bluff, Stealth

HUMAN

Ancestral Holdings: Your family carried a significant noble title during the height of the empire of Nerath, but the lands your family once held are now a dangerous wilderness. Do you dream of clearing the lands and making them fit for human habitation once again? Or are you fleeing the ever-shabbier pretensions of your family of nobles-in-exile?

Associated Skills: Diplomacy, History

Heir of the Forgotten Gods: A sign at your birth or some event in your life pointed to the influence of a god that is either dead or forgotten. Are you destined to revive the worship of this long-forgotten deity, or to take the place of a god that has lain dead since the dawn of time? Do you view the other gods as potential allies or as dangerous competitors?

Associated Skills: Insight, Religion

SHIFTER

Moonspeaker: You were a moonspeaker, a religious leader who traveled among different shifter communities. That background gave you a much broader experience of the world than most shifters enjoy. Do you plan to return to your tribe one day, or is the endless variety of a life of adventure what you seek?

Associated Skills: Heal, Religion

City Shifter: Your tribe was forced off its lands at some point during the last century, and you were born and raised in a large human city. You might have been born to a life of crime, or your family might have established itself in a prominent position. How do you feel about urban life? Do you dream of open fields and untamed forests, or are the twisting alleys and crowded markets your true home?

Associated Skills: Acrobatics, Streetwise

Persecution: You or your family endured a period of persecution, during which shifters were imprisoned or killed because of their perceived ties to lycanthropes. Were you arrested? Did you live in hiding? Has the experience made you ashamed of your origin, or defiantly proud?

Associated Skills: Bluff, Stealth

TIEFLING

Merchant Dynasty: You grew up in a conclave of other tieflings, part of a large merchant family, surrounded by wealth if not prestige. It was a sheltered life, and you're unaccustomed to either hardship or prejudice. Why did you leave the comforts of your home to become an adventurer?

Associated Skill: Streetwise

Dark Secret: At some point in your past, you did something truly evil. You escaped punishment, but if you were ever to be identified as the perpetrator of that deed, you could still be put to death for it. Are you adventuring to forget the horror of your deed and stay away from those who still hunt you, or to try to atone for the wrong you committed? Whatever your crime, it was a clear demonstration of the evil of which you are capable because of the infernal taint in your soul. Will you transcend that evil, or will it ultimately claim you?

Associated Skills: Arcana, Dungeoneering

Infernal Nightmares: You are plagued by nightmarish visions that haunt your sleep. In your dreams, you have vivid glimpses of the Nine Hells and the torments they offer, as well as of the splendor of Asmodeus's palace and the luxurious lives of his most favored servants. What message do you take from these visions? What connection, if any, do you feel to the Nine Hells and their denizens? Does some infernal patron want something from you, or is some divine force reminding you of the punishment you risk if you stray from the path of righteousness?

Associated Skills: Bluff, Religion

FEATS

ADVENTURING GEAR

In addition to the gear presented in the *Player's Handbook* and in the *Adventurer's Vault* supplement, musical instruments and totems are available for purchase.

ADVENTURING GEAR

Item	Price	Weight
Musical instrument		
Drum	3 gp	1 lb.
Flute	5 gp	1 lb.
Harp	15 gp	4 lb.
Horn	7 gp	3 lb.
Lute	12 gp	2 lb.
Lyre	9 gp	2 lb.
Woodwind	10 gp	1 lb.
Totem	5 gp	2 lb.

Musical Instrument: Bards and other characters use instruments for art and entertainment. A non-magical musical instrument confers no game benefit but can be enchanted later. The instruments on the table are portable instruments.

Totem: Druids and shamans use totems as focuses for their evocations. A totem is a short length of wood or bone, similar to a rod, which is carved to resemble a nature spirit and is adorned with feathers, fur, leaves, bones, teeth, and the like. A nonmagical totem confers no game benefit but can be enchanted later.

MAGIC ITEMS

The magic items presented in this chapter use the same rules as those in the *Player's Handbook* and in the *Adventurer's Vault* supplement.

This chapter introduces two kinds of magic items: totems and musical instruments. Totems (page 207) are implements for certain primal classes, and musical instruments are wondrous items (page 209) that are especially useful to bards.

ARMOR

Magic armor increases your Armor Class by adding an enhancement bonus to the armor's armor bonus.

Masterwork Armor: Masterwork armor grants a higher armor bonus than non-masterwork armor and is always magical. The type and level of magic armor determines if it can be masterwork, as detailed in the tables below. The cost of masterwork armor is included in the cost of magic armor, so higher-level characters should seek out masterwork armor instead of normal magic armor. Some masterwork armor grants a resistance or an armor bonus to Fortitude, Reflex, or Will, instead of granting a higher armor bonus to AC. The *Player's Handbook* and *Adventurer's Vault* describe various types of masterwork armor.

WONDROUS ITEMS

The wondrous items in this chapter are musical instruments. Any class can use musical instruments, but the items are particularly appealing to bards. A bard can use certain instruments as implements for bard powers as well as bard paragon path powers. A few instruments also have powers that are enhanced if used by a bard who has the Song of Rest class feature.

Using a Musical Instrument: Like other wondrous items, a musical instrument doesn't take up an item slot. However, to use an instrument's properties and powers, you must be holding and playing the instrument as appropriate: strumming a lute, sounding a horn, and so on.

RITUALS

RITUALS

From ancient rites and ceremonies to arcane forces bound to music, rituals have many forms and functions in the DUNGEONS & DRAGONS game. Rituals create magical effects through the recitation and performance of magical formulas drawn from ritual scrolls and books. This section provides a variety of rituals, many of which are tailored for the new classes in this book. Although these rituals evoke arcane, divine, and primal themes, any adventurer who has the Ritual Caster feat can master and perform most of them.

PREREQUISITE

Some rituals in this chapter include a “Prerequisite” entry. You must meet a ritual’s prerequisite to master or perform the ritual, although you can assist another character in performing a ritual even if you don’t meet the prerequisite.

CATEGORY

Each ritual category in the Player’s Handbook is associated with one or more key skills. Some of the rituals in this book have key skills other than the ones normally associated with some ritual categories.

VARIANT RITUAL BOOKS

Although the ritual books described in the Player’s Handbook contain all the instructions necessary to master and perform a ritual, their form may be unappealing to characters who have forsaken the traditional trappings of civilization. Variant ritual book options can reconcile a character’s background with his or her desire to use ritual magic.

Some ritual casters record their rituals in an unorthodox manner. They inscribe rituals on cured hides, etch them into stone tablets, or paint them onto armor or weapons. Remote cultures and isolated ritual casters have even more esoteric methods of storing and encoding their rituals, from patterns of knots tied in rope to tiny statuettes displaying the required body motions, or even tubes of glass that convey the ritual through shape and color. No matter what form it takes, a variant ritual book still requires a 50 gp investment. In addition, a ritual caster must spend the same amount of time to create it and to master the rituals within it as described in “Creating a Ritual Book” on page 298 of the Player’s Handbook. Each of these unusual methods of storing rituals contains the same amount of space for recording rituals as a traditional ritual book.

RITUAL DESCRIPTIONS

AFFECT NORMAL FIRE

Fire leaps and dances at your command, brightening or dimming.

Level: 3

Category: Exploration

Time: 1 minute

Duration: 8 hours

Component Cost: 25 gp

Market Price: 125 gp

Key Skill: Arcana or Nature
(no check)

You gain mastery over nonmagical fire. For the ritual's duration, or until you take an extended rest, you can manipulate nonmagical flames within 10 squares of you as a minor action. You can make a fire that normally provides dim light produce an equal amount of bright light, or you can double the radius of bright light a fire produces. Alternatively, you can diminish a fire's light, reducing its area of bright light to an equal amount of dim light, or reducing its area of dim light to darkness. Reducing a fire's light to produce no light does not extinguish the flame. You can extinguish 1 square of nonmagical fire as a minor action.

ANIMAL FRIENDSHIP

The animal nuzzles your hand, returning the friendship you offer.

Level: 5

Category: Binding

Time: 1 minute

Duration: Special

Component Cost: 50 gp

Market Price: 250 gp

Key Skill: Nature

When you perform this ritual, choose a nonhostile Tiny natural beast, such as a cat, a fox, a fish, a mouse, or a sparrow. This animal must remain within 5 squares of you for the time necessary to perform the ritual. Once the ritual is complete, the animal regards you as a friend and performs simple tasks on your behalf. The tasks are limited to the options below, and assigning a task requires a standard action.

Fetch: The animal retrieves a Tiny object of 10 pounds or less that you and it can see. If the animal is unable to carry the object due to the item's size or weight, the animal enlists the aid of other creatures of its kind to fulfill the task.

Perform: The animal performs a simple trick, such as rolling over or playing dead.

Seek: The animal scouts ahead and examines an area for anything that's alive or animate. The animal can travel up to 20 squares away from you and uses your passive Perception check to determine if it notices hidden creatures in the area. When the animal returns, you learn from it whether a creature occupies the area. The animal cannot communicate any other information aside from the presence or absence of a creature.

Watch: The animal remains in its current location and watches that area. When you assign the animal the task, you designate creatures that are allowed to enter the location. If a creature that you have not designated enters the location, the watching animal informs you by coming to you and making a noise. If you move more than 20 squares away from the area, the animal leaves its post and rejoins you.

Unless otherwise commanded, the animal accompanies you for the ritual's duration, perching on your shoulder, hiding in your pocket, or walking alongside you. The animal has AC 14, Fortitude 12, Reflex 12, and Will 12. The animal has 1 hit point, and a missed attack never damages the animal.

Your Nature check determines the length of time the animal remains in your service, but you can release an animal from your service as a minor action.

Nature Check Result	Duration
19 or lower	1 hour
20–29	8 hours
30–39	1 day
40 or higher	1 week

At the heroic tier, you can have one animal at a time bound to your service using the ritual. At the paragon tier, you can have two animals bound using the ritual. At the epic tier, you can have three animals bound using the ritual. You must complete a separate ritual for each animal you bind.

ARIA OF REVELATION

Your operatic notes spark new ideas, helping your allies overcome a challenging problem.

Level: 10

Category: Divination

Time: 10 minutes

Duration: Instantaneous

Prerequisite: Bard

Component Cost: 400 gp,

plus a focus worth 1,000 gp

Market Price: 1,000 gp

Key Skill: Arcana

When you finish performing the ritual, each ally who heard it can make an Arcana, a Dungeoneering, a History, a Nature, or a Religion check to uncover a clue or recall a bit of useful information. The ally must be trained in the skill and gains a bonus to the check based on your Arcana check result.

Arcana Check Result	Bonus
19 or lower	+5
20–29	+10
30–39	+15
40 or higher	+20

The information learned is equivalent to that gained from a successful knowledge check or monster knowledge check.

Focus: A musical instrument you play as part of performing the ritual.

BLOOM

Grass grows, trees bear fruit, and the land's bounty is available to all.

Level: 2

Category: Exploration

Time: 10 minutes

Duration: Instantaneous

Component Cost: 20 gp

Market Price: 100 gp

Key Skill: Nature (no check)

Upon completion of the ritual, you cause all outdoor terrain within 20 squares of you to bloom with new growth and foliage. The entire area becomes difficult terrain.

Alternatively, the ritual causes crops and fruit-bearing plants within 20 squares of you to yield food. The plants produce enough food to feed five people for a week.

CALL WILDERNESS GUIDE

An animal native to the local wilderness answers your call, approaching you and then walking away. A moment later it pauses, looking over its shoulder as if to make sure you are following.

Level: 6

Category: Exploration

Time: 30 minutes

Duration: Special

Component Cost: 144 gp

Market Price: 360 gp

Key Skill: Nature

You call a nature spirit into your service to act as a guide. The guide takes the form of a Medium or smaller natural beast, with defenses equal to yours at the time you perform the ritual. The guide has 1 hit point, and a missed attack never damages it. It has a speed of 8, but it measures its pace so that you and your party can keep up with it.

The guide leads you to a location you name as you perform the ritual. The destination must be a specific place, such as Shathrax's Lair or the Tower of Kettenor. The guide cannot lead you to a general location, such as "a cave full of treasure," or to an unknown place, such as "the secret lair of the dragon Arrythis." For the ritual's duration, the guide leads you to the destination by the shortest (although not necessarily the safest) route.

Your Nature check determines how long the guide serves you. If you can't reach the specified destination within the allotted time, the guide leads you as far as it can along the way and then vanishes.

Nature Check Result	Duration
19 or lower	1 hour
20–29	4 hours
30–39	8 hours
40 or higher	16 hours

You cannot control specific applications of the weather, such as where lightning strikes. You can alter the weather among the available options as a standard action for the duration of the ritual, which is determined by your Nature check. Each time you choose to change the weather result, the new weather conditions take 10 minutes to manifest.

Nature Check Result	Duration

CREATE CAMPsite

A crackling fire, a hot meal, and a warm bedroll await you after a long day of adventuring.

Level: 1

Component Cost: 15 gp

Category: Exploration

Market Price: 50 gp

Time: 10 minutes

Key Skill: Nature

Duration: 8 hours

You summon hundreds of diminutive nature spirits to assemble a campsite in a 5-square radius around you. The spirits clear the area, set up tents, unroll bedrolls, gather water, and prepare a nourishing meal. They also conceal the campsite, with your Nature check result serving as the DC for Perception checks to notice the hidden camp.

The spirits utilize your and your allies' gear to make the campsite. If you and your allies lack the appropriate gear, the spirits gather raw materials from the environment to make the campsite.

At the end of the ritual's duration, the spirits break down the campsite, pack up your gear, and restore the site to its original state, removing evidence that you and your allies camped there.

FOOL'S SPEECH

What did you say?

Level: 6
Category: Deception
Time: 10 minutes
Duration: 1 hour
Prerequisite: Bard

When you finish performing the ritual, you and up to five allies who heard it can use a secret language to communicate with each other. You recite a short rhyme and feel your tongue loosen so the lies can flow freely.

IRONWOOD

The wood beneath your hand hardens, assuming an almost metallic sheen.

Arcana Check Result	Penalty
19 or lower	-2
20–29	-4

PYROTECHNICS

A flare soars into the night sky and explodes with brilliant color.

Level: 2
Category: Creation
Time: 1 minute

You send a barrage of small, colorful explosions into the sky. The explosions blossom into whatever color or shape you choose for 1 minute. At the end of each minute of the ritual's duration, you can choose a new color and shape. At night, the lights are visible within a 10-mile radius. During the day, the lights are visible within a 1-mile radius.

You open a portal not from here to there, but from there to here.

Level: 12
Category: Travel
Time: 10 minutes
Duration: Special

Component Cost: 500 gp
Market Price: 2,600 gp
Key Skill: Arcana

You create a shortcut across the fabric of the world, linking your location with a permanent teleportation circle elsewhere on the same plane (see the Linked Portal ritual, *Player's Handbook*, page 307). As part of performing this ritual, you sketch out a 10-foot-diameter circle in rare chalks and inks. Alternatively, you can use a permanent teleportation circle, which reduces the component cost to 150 gp and grants you a +5 bonus to your Arcana check.

At the ritual's completion, make an Arcana check. The result determines the duration that the portal remains open.

Arcana Check Result	Portal Duration
19 or lower	1 round
20–39	3 rounds
40 or higher	5 rounds

The portal displays views of the other location in the same way as that created by the Linked Portal ritual, but creatures cannot enter the origin point and appear at the other location. Instead, creatures can only step into the distant end of the portal to appear at the origin point with you.

Component Cost: 25 gp
Market Price: 150 gp
Key Skill: Nature

You create a magical snare in a 2-square-by-2-square area adjacent to you. When you complete the ritual, make a Nature check. The check result is the Perception DC to detect the snare and the Thievery DC to disable it. As part of the ritual, you can name creatures that can pass freely through the snare's area, and you can set conditions that allow a creature to bypass the snare. Any other creature that enters the snare's area is subject to an attack equal to your level + 4 vs. Reflex. On a hit, the target is immobilized (save ends). When the snare is triggered, you become aware that it has been triggered regardless of your distance from it. The ritual is also discharged.

Duration: 10 minutes

Component Cost: 80 gp
Market Price: 250 gp
Key Skill: Nature

For the ritual's duration, you can communicate with natural beasts and mundane plants (but not plant creatures). The ritual does not make animals friendly, and the animals or plants are limited in their knowledge by their experiences and mobility. Your Nature check result determines the number of questions you can ask.

APPENDIX: RULE UPDATES

This appendix contains rule updates for powers and the Stealth skill. Visit the Wizards of the Coast website for other updates.

READING A POWER

The *Player's Handbook* introduces how to read a power, starting on page 54 of that book. This section touches on some of the information discussed there: the format of player character powers and their keywords. The information here incorporates clarifications and new rules, and it supersedes previous sources.

THE POWER FORMAT

Player character powers are designed to be easily referenced during play. Even though other kinds of powers, such as monster powers, have different formats, many of the guidelines here also apply to them.

Sequence: The order of information in a power description is a general guide to the sequence in which the power's various effects occur. For example, an "Effect" entry might appear above attack information in a power description to indicate that something happens before you make the attack.

Indentation: When information is indented in a power description, that means the information is contingent on the information directly above it. For example, a "Secondary Attack" entry indented below a "Hit" entry is a reminder that you can make the secondary attack only if you hit with the primary attack.

THE POWER DESCRIPTION

A power description contains various entries, some of which appear in every power description, whereas other entries appear only when needed by a particular power. Here are explanations of the various entries, presented in their typical order.

Power Name and Level: The name of a power and the power's level appear in a colored bar on the first line of the power's description. The color of the bar indicates how often you can use the power; green means the power is an at-will power, red means it's an encounter power, and black means it's a daily power.

Flavor Text: The next line, in italicized text, briefly explains what the power does, from the perspective of your character in the world. The rest of the power description is rules text, but this material is intended to help you narrate what your character is doing.

Usage: The first word on the next line tells you how often you can use the power, that is, whether it is an at-will, an encounter, or a daily power.

Keywords: The power's keywords appear next. The keywords tell you the power source, any damage types associated with the power, accessories you can use with it, and other associated effects. If "Varies" appears among the keywords, that means the power has variable keywords, which you or circumstances determine.

Action Type: The next line begins with the type of action required to use the power: standard, move, minor, free, immediate reaction, immediate interrupt, or opportunity. Some powers require no action to use. See the *Player's Handbook*, page 267, for more information about action types.

Trigger: Powers that are immediate actions (interrupts or reactions) or opportunity actions have a trigger, which defines when you're allowed to use the power. Some powers that are free actions, or that require no action to use, have a trigger as well.

Attack Type and Range: The power's attack type and range appear on the same line as its action type. The attack types are melee, ranged, area, and close. Each attack type has rules for range and targeting, detailed on pages 270–273 of the *Player's Handbook*.

Prerequisite or Requirement: Some powers are usable only if you meet a precondition. You must meet a prerequisite to select a power. You must meet a requirement to use a power.

Target: If a power directly affects one or more creatures or objects, it has a "Target" entry, specifying whom and what the power affects.

Attack: A power's attack entry specifies the ability score you use to make the attack, any special modifiers that apply to the attack roll, and which of the target's defenses you check against.

Hit: This entry describes what happens to each target that you hit with the power's attack.

Miss: This entry describes what happens to each target that you miss with the power's attack. In

THE MARKED CONDITION

When you mark a creature, you force it to engage you or suffer the consequences. While that creature is marked by you, it takes a -2 penalty to attack rolls for any attack that doesn't include you as a target. In addition, powers, class features, magic item properties, and feats might have effects that trigger when the creature takes certain actions.

A creature can be subject to only one mark at a time, and a new mark supersedes a mark that was already in place. The effect you use to mark a creature determines how long the creature remains marked by you. Regardless of the mark's duration, it ends if someone else marks that creature, unless an effect says otherwise.

contrast to the *Player's Handbook*, the "Miss" entries in this book specify only what happens when you miss, not what doesn't happen.

"Half damage" in this entry refers to rolled damage. Roll the damage specified in the "Hit" entry and deal half of that damage to each target you miss. "Half damage" does not apply to ongoing damage or any other damaging effects in the "Hit" entry.

Effect: Anything that appears in an "Effect" entry occurs when you use the power, whether or not you hit with it, if it is an attack power.

Secondary Target and Secondary Attack:

Some powers allow you to make secondary (or even tertiary) attacks. A "Hit," a "Miss," or an "Effect" entry tells you when to make a secondary attack. Unless otherwise noted, the attack type and the range of a secondary attack are the same as the power's, and the secondary attack doesn't require a separate action.

Some powers give you the ability to make a secondary attack at a point later in an encounter, after the initial effect takes place. These powers include information about the secondary attack's action type, attack type, range, and effect.

Sustain: If a power has a "Sustain" entry, you can keep that power active by taking a specified action during your turn. See "Durations," page 278 in the *Player's Handbook*, for more about sustaining a power.

Class Feature Names: When a class feature name appears as a header in a power description, the associated entry describes an additional or a replacement effect that applies if you have that class feature.

Aftereffect: An aftereffect automatically occurs after another effect ends. An "Aftereffect" entry is beneath the effect it applies to, which is typically in a "Hit" or an "Effect" entry.

A target is sometimes subject to an aftereffect after a save. If that save occurs when the target is making multiple saving throws, the aftereffect takes effect after the target has made all of them.

MOVEMENT EFFECTS

Many powers allow you and your allies to move or allow you to move your enemies forcibly. If a power notes a distance that you or an ally moves (for example, "you shift 2 squares"), the character allowed to move can decide to move all, some, or none of that distance. Similarly, if a power forcibly moves an enemy (for example, "you push the target 3 squares"), you can decide to move the enemy all, some, or none of that distance.

If a power notes the destination for your or an ally's move (for example, "a space adjacent to the target"), the character allowed to move decides either to move to that destination or not. You can't move partway. Similarly, if a power specifies where you force an enemy to move, you decide either to move the enemy there or not.

Failed Saving Throw: Sometimes an effect changes as a target fails saving throws against it. The new effect, specified in a "First Failed Saving Throw" or a "Second Failed Saving Throw" entry, takes effect after the target fails a saving throw against the previous effect at the end of the target's turn. The effect doesn't change if the creature fails a saving throw against it at a time other than the end of its turn.

Special: Any unusual information about the use of a power appears in this entry. For example, some powers can be used as basic attacks, which is noted in a "Special" entry.

Level: This entry tells you if some part of the power—often its damage—increases at a specific level.

KEYWORDS

Here is a list of keywords currently used in PC powers. Some of these keywords—beast form, rage, spirit, and summoning—are introduced in this book. Others are used in books, like *Martial Power*, that have been published since the *Player's Handbook*. Following the list are keywords that have special rules.

BEAST

A power that has the beast keyword can be used only while your beast companion is conscious and present in an encounter.

BEAST FORM

You can use a beast form power only while you are in beast form.

CONJURATION

Powers that have the conjuration keyword create conjurations, objects or creatures of magical energy.

CONJURATION

A conjuration you create uses these rules, unless a power description says otherwise.

- ◆ **Occupies No Squares:** The conjuration occupies no squares.
- ◆ **Unaffected by the Environment:** Terrain and environmental phenomena have no effect on the conjuration. For example, a conjuration that is an icy hand functions in an inferno without penalty. The conjuration does not need to be supported by a solid surface, so it can float in the air.
- ◆ **Your Defenses:** Normally, a conjuration cannot be attacked or physically affected. If a conjuration can be attacked or physically affected, it uses your defenses. Unless an attack specifically targets conjurations, only the attack's damage (not including ongoing damage) affects the conjuration.
- ◆ **Attacking with a Conjuration:** If you can attack with a conjuration, you make the attack. You determine line of sight normally, but you determine line of effect from the conjuration.
- ◆ **Movable Conjurations:** If the power you use to create a conjuration allows you to move it, it's a movable conjuration. At the end of your turn, the movable conjuration ends if you are not within range of at least 1 square it's in (using the power's range) or if you don't have line of effect to at least 1 square it's in.
When you move a conjuration, you can't move it through a solid obstacle.
- ◆ **Death Ends:** If you die, the conjuration ends immediately.

IMPLEMENT

Implements are items wielded by certain characters to channel their powers. Your class description or a feat tells you which implements you can wield, if any. To use the powers and the properties of a magic implement, you must be able to wield that implement.

The implement keyword identifies a power that can be used through an implement, and the implement must be a type wielded by the power's class. You can use implement powers without an implement, and wielding a nonmagical implement confers no benefit. If you wield a magic implement, you can add its enhancement bonus to the attack rolls and the damage rolls of implement powers you use through it (Chapter 3 contains various magic implements, as does Chapter 7 in the *Player's Handbook*).

INVIGORATING

If you are trained in Endurance, you gain temporary hit points equal to your Constitution modifier when you hit with a power that has the invigorating keyword. No invigorating power grants temporary hit points more than once during a turn, even if you hit more than once with that power.

POLYMORPH

Polymorph powers change a target's physical form in some way.

POLYMORPH

You use these rules when you're affected by a polymorph power.

- ◆ **One Polymorph at a Time:** If you are affected by more than one polymorph power, only the most recent one has any effect. The other powers' effects remain on you and their durations expire as normal, but those effects don't apply. However, when the most recent effect ends, the next most recent one that is still active applies to you.
- ◆ **Changing Size:** If a polymorph power reduces your space, you do not provoke opportunity attacks for leaving squares as you shrink.
If a polymorph effect makes you too large to fit in the available space, the effect fails against you, but you are stunned (save ends). For example, if you are crawling through a narrow tunnel and a polymorph effect tries to turn you into a creature that is too large for the tunnel, the effect fails, but you are stunned until you save.
- ◆ **Death Ends:** If you die, polymorph effects end on you immediately.

RAGE

A rage power allows you to enter a rage specified in the power. A rage lasts until you enter a new rage or until the end of the encounter.

RATTLING

If you are trained in Intimidate and deal damage with a power that has the rattling keyword, the target takes a -2 penalty to attack rolls until the end of your next turn. A creature that is immune to fear is not subject to this penalty.

RELIABLE

If you miss every target when using a reliable power, you don't expend the use of that power.

SPIRIT

You can use a spirit power only if your spirit companion is present in the encounter. If a spirit power includes "spirit" in its range, you determine line of sight and line of effect from your spirit companion's space, which is the power's origin square.

STANCE

When you use a stance power, you assume a stance that lasts until you assume another stance or until the end of the encounter.

SUMMONING

Powers that have the summoning keyword bring creatures from elsewhere, often other planes, to serve you in a variety of ways.

SUMMONED CREATURE

A creature you summon uses these rules, unless a power description says otherwise.

- ◆ **Allied Creature:** When you use a summoning power, you create a creature that is an ally to you and your allies. The power determines where the summoned creature appears.
- ◆ **Your Defenses:** The summoned creature's defenses equal yours when you summon it, not including any temporary bonuses or penalties.
- ◆ **Hit Points:** The summoned creature's maximum hit points equal your bloodied value. When the summoned creature drops to 0 hit points, it is destroyed, and you lose a healing surge. If you have no healing surges left, you instead take damage equal to half your bloodied value.
- ◆ **No Healing Surges:** The summoned creature lacks healing surges, but if a power allows it to spend a healing surge, you can spend a healing surge for it. The summoned creature then gains the benefit of the healing surge, instead of your gaining it.
- ◆ **Speed:** The summoning power determines the summoned creature's speed.
- ◆ **Commanding the Creature:** The summoned creature has no actions of its own; you spend actions to command it mentally. You can command the creature only if you have line of effect to it. When you command the creature, the two of you share knowledge but not senses.

As a minor action, you can command the summoned creature to take one of the following actions, if it is physically capable of taking that action: crawl, escape, fly, open or close a door or a container, pick up or drop an item, run, stand up, shift, squeeze, or walk.

The summoning power determines any special commands you can give the summoned creature and gives an action type for each command. If a special command is a minor action, you can give that command only once during each of your turns.

- ◆ **Attacks and Checks:** If a summoning power allows the summoned creature to attack, you make an attack through the creature, as specified in the power description. If the summoned creature can make a skill check or an ability check, you make the check. Attacks and checks you make through the creature do not include temporary bonuses or penalties to your statistics.
- ◆ **Duration:** Unless the summoning power states otherwise, the summoned creature lasts until the end of the encounter and then disappears. As a minor action, you can dismiss the summoned creature.

TELEPORTATION

A teleportation power transports creatures or objects instantaneously from one location to another.

TELEPORTATION

You use these rules when you use a teleportation power.

- ◆ **Line of Sight:** You must have line of sight to the destination space.
- ◆ **No Line of Effect:** Neither you nor the creature or object being teleported needs line of effect to the destination space.
- ◆ **Destination Space:** The destination must be a space that the creature or object being teleported can occupy without squeezing.
- ◆ **Instantaneous:** Teleportation is instantaneous. The creature or object being teleported disappears and immediately appears in the destination space you choose. The movement is unhindered by intervening creatures, objects, or terrain.
- ◆ **No Opportunity Actions:** The creature or object being teleported doesn't provoke opportunity actions for leaving its space.
- ◆ **Immobilized or Restrained:** Being immobilized or restrained doesn't prevent a creature from teleporting. If a creature teleports away from a physical restraint, a monster's grasp, or some other immobilizing effect that is located in a specific space, the creature is no longer immobilized or restrained. Otherwise, the creature teleports but is still immobilized or restrained when it reaches the destination space.

WEAPON

The weapon keyword identifies a power that is used with a weapon, including an improvised weapon such as an unarmed strike (see "Weapons," *Player's Handbook*, page 215). The range and the damage of a weapon power is usually determined by the weapon you use with it. A [W] in a power's damage expression stands for your weapon's damage dice (see "Damage," *Player's Handbook*, page 276).

If you use a weapon power with a weapon you're proficient with, you add the weapon's proficiency bonus to the attack rolls of that power. Your class and feats determine your weapon proficiencies. If you use a weapon power with a magic weapon, you can

EXTRA DAMAGE

Many effects grant you the ability to deal extra damage, including powers, feats, and magic item properties. Extra damage is always in addition to other damage. For example, if you have a feat that causes your area attacks to deal extra damage, the extra damage doesn't apply when you use an area attack that deals no damage, such as the wizard's *sleep* power.

add the magic weapon's enhancement bonus to the power's attack rolls and damage rolls.

ZONE

Powers that have the zone keyword create zones, magical areas that last for a round or more.

ZONE

A zone you create uses these rules, unless a power description says otherwise.

- ◆ **Fills an Area of Effect:** The zone is created by an area of effect and fills each square in the area that is within line of effect of the origin square.
- ◆ **Unaffected by Attacks and the Environment:** The zone cannot be attacked or physically affected, and terrain and environmental phenomena have no effect on it. For example, a zone that deals fire damage is unaffected by cold damage.
- ◆ **Movable Zones:** If the power you use to create a zone allows you to move it, it's a movable zone. At the end of your turn, the movable zone ends if you are not within range of at least 1 square of it (using the power's range) or if you don't have line of effect to at least 1 square of it.

When you move a zone, you can't move it through a solid obstacle.
- ◆ **Overlapping Zones:** If zones overlap and impose penalties to the same roll or game statistic, a creature affected by the overlapping zones is subject to the worst penalty. Similarly, a creature in the overlapping area takes damage only from the zone that deals the most damage, regardless of damage type.
- ◆ **Death Ends:** If you die, the zone ends immediately.

NEW STEALTH RULES

This section presents updates to the Stealth skill and to rules related to that skill, as presented in the first printing of the *Player's Handbook*.

BLUFF

The following paragraph replaces the "Create a Diversion to Hide" paragraph in the Bluff skill's shaded box (*Player's Handbook*, page 183).

- ◆ **Create a Diversion to Hide:** Once per combat encounter, you can create a diversion to hide. As a standard action, make a Bluff check opposed by the passive Insight check of any enemy that can see you. If you succeed, make a Stealth check opposed by the passive Perception check of any enemy present. If the Stealth check succeeds against an enemy, you are hidden from that enemy until the end of your turn or until you attack.

STEALTH

The following shaded box replaces the Stealth skill's shaded box and the table underneath it (*Player's Handbook*, page 188).

Stealth: At the end of a move action.

- ◆ **Opposed Check:** Stealth vs. passive Perception. If multiple enemies are present, your Stealth check is opposed by each enemy's passive Perception check. If you move more than 2 squares during the move action, you take a -5 penalty to the Stealth check. If you run, the penalty is -10.
- ◆ **Becoming Hidden:** You can make a Stealth check against an enemy only if you have superior cover or total concealment against the enemy or if you're outside the enemy's line of sight. Outside combat, the DM can allow you to make a Stealth check against a distracted enemy, even if you don't have superior cover or total concealment and aren't outside the enemy's line of sight. The distracted enemy might be focused on something in a different direction, allowing you to sneak up.
- ◆ **Success:** You are hidden, which means you are silent and invisible to the enemy (see "Concealment" and "Targeting What You Can't See," page 281).
- ◆ **Failure:** You can try again at the end of another move action.
- ◆ **Remaining Hidden:** You remain hidden as long as you meet these requirements.

Keep Out of Sight: If you no longer have any cover or concealment against an enemy, you don't remain hidden from that enemy. You don't need superior cover, total concealment, or to stay outside line of sight, but you do need some degree of cover or concealment to remain hidden. You can't use another creature as cover to remain hidden.

Keep Quiet: If you speak louder than a whisper or otherwise draw attention to yourself, you don't remain hidden from any enemy that can hear you.

Keep Still: If you move more than 2 squares during an action, you must make a new Stealth check with a -5 penalty. If you run, the penalty is -10. If any enemy's passive Perception check beats your check result, you don't remain hidden from that enemy.

Don't Attack: If you attack, you don't remain hidden.

- ◆ **Not Remaining Hidden:** If you take an action that causes you not to remain hidden, you retain the benefits of being hidden until you resolve the action. You can't become hidden again as part of that same action.

- ◆ **Enemy Activity:** An enemy can try to find you on its turn. If an enemy makes an active Perception check and beats your Stealth check result (don't make a new check), you don't remain hidden from that enemy. Also, if an enemy tries to enter your space, you don't remain hidden from that enemy.

PERCEPTION

Using the Perception skill actively is a minor action, not a standard action (*Player's Handbook*, page 186).

TARGETING WHAT YOU CAN'T SEE

The following paragraphs replace the second and third paragraphs in the “Targeting What You Can’t See” sidebar (*Player’s Handbook*, page 281).

Invisible Creatures and Stealth: If an invisible creature is hidden from you (“Stealth,” page 188), you can neither hear nor see it, and you have to guess what space it occupies. If an invisible creature is not hidden from you, you can hear it or sense some other sign of its presence and therefore know what space it occupies, although you still can’t see it.

Make a Perception Check: On your turn, you can make a Perception check as a minor action (page 186) to try to determine the location of an invisible creature that is hidden from you.

GLOSSARY

This brief glossary contains game terms that appear in this book and are defined in a book other than a *Player’s Handbook*.

attacking objects: With your DM’s permission, you can use a power that normally attacks creatures to attack objects. See the *Dungeon Master’s Guide*, page 65, for how to damage objects.

blindsight: If you have blindsight, you can clearly see creatures or objects within a specified range and within

line of effect, even if they are invisible or obscured. You otherwise rely on your normal vision.

fly speed: If you have a fly speed, you can fly a number of squares up to that speed as a move action. To remain in the air, you must move at least 2 squares during your turn, or you crash at the end of your turn. While flying, you can’t shift or make opportunity attacks, and you crash if you’re knocked prone. See

the *Dungeon Master’s Guide*, page 47, for more about flying.

hover: If you have a fly speed and can hover, you can remain in the air without moving during your turn. You can also shift and make opportunity attacks while flying.

overland flight: An overland flight speed works like a fly speed with one exception: While you are in the air using your overland flight speed, you crash if you take any action

other than a move action to use overland flight or a free action.

tremorsense: If you have tremorsense, you can clearly see creatures or objects within a specified range, even if they are invisible, obscured, or outside line of effect, but you and they must be in contact with the ground or the same substance, such as water or a web. You otherwise rely on your normal vision.
